MONDAY EVENING, MARCH 18, 1878.

WHOLE NO. 3048.

VEGETINE

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICAL PROPERTIES ARE
Alterative, Tonic, Salvent,
and Diuretic.

Vegetine Reliable Evidence.

Vegetine Mr. H. R. STEVENS,
Dear Sir,—I will most cheerfully add my testimony to the great number of your great and good medicine, VEGETINE, for I do not think enough can be said in its praise; for I was troubled over thirty years with that terrible disease, Catarrh, and had such bad coughing spells that it would seem as though I never could breathe any more, and VEGETINE has cured me, and I do feel that God sent me the time that there is no good medicine as VEGETINE, and I also think it one of the best medicines for coughs, and weak, sinking feelings at the stomach, and for everybody to take the VEGETINE, for I can assure them that it is one of the best medicines that ever was.

Vegetine Cor. Magazine and Walnut Sts., Cambridge, Mass.

Vegetine GIVES
Health, Strength,
AND APPETITE.

Vegetine My daughter has received great benefit from the use of VEGETINE. Her declining health was a source of great anxiety to all her friends. A few bottles of VEGETINE restored her health, strength, and appetite.

Vegetine N. H. TILDEN,
Insurance and Real Estate Agent,
No. 47 Sears Building,
Boston, Mass.

Vegetine CANNOT BE
EXCELLED.

Vegetine CHARLESTOWN, MASS.
H. R. STEVENS,
Dear Sir,—It is to certify that I have used your "Blood Preparation" in my family for several years, and think that, for Scrofula or Catarrh, it cannot be excelled; and, as a blood purifier or spring medicine, it is the best thing I have ever used, and I have used almost everything. I can heartily recommend it to all suffering from the above complaints.

Vegetine Your Respectful Son,
Mrs. A. A. DISMORE,
No. 19 Russell Street.

Vegetine IT IS A
Valuable Remedy.

Vegetine SOUTH BOSTON, Feb. 7, 1870.
Mr. STEVENS,
Dear Sir,—I have taken several bottles of your VEGETINE, and an excellent and valuable remedy for Dyspepsia, Kidney complaint, and general debility of the system. I can heartily recommend it to all suffering from the above complaints.

Vegetine Your Respectful Son,
Mrs. MUNRO PARKER,
55 Athens Street.

To-Day's Dispatches.

FOREIGN.

Russian Torpedo Boats in the Bosphorus.

The British Government Reinforcing its Fleet.

Grecian Feeling Bent on Sustaining the Thessalian Insurrection.

FOREIGN NEWS.

LONDON, March 16.—There is less excitement at the government works at Woolwich than some weeks ago, but still there is no abatement of energy or diminution of work. Nearly all hands work until 8, 9, or 10 o'clock at night, instead of 5, the usual closing hour. In consequence of the war of officers in the army, cadets who entered Sandhurst last summer, and whose term of probation would expire in July in ordinary circumstances, will be passed out next month. Those who entered at the beginning of the year, and would complete their course in December, will be passed out and commissioned in July. A large number of commissions in line will also be available for military embalmers the present year.

ST. PETERSBURG, March 17.—The ratification of the treaty of peace were exchanged to-day. Conditions will be published as soon as they are communicated to the powers. Rouff Pasha will depart immediately.

THE Agency Russia denies that Russia opposes Greece being represented in the congress, and adds that as the great powers alone can constitute a congress, the representatives of secondary and other interested states will be admitted as delegates in reference to questions wherein their states are concerned. Steps are now being taken for the progressive return of the Russian army from Turkey. The general staff will first start, and halt some time at Kieff.

VIENNA, March 17.—It is said negotiations are proceeding between Sir Henry Elliot and Count Andrassy for an alliance between England and Austria. If the negotiations succeed, Count Andrassy's position will be strengthened. If they fail, ministerial crisis will ensue and Count Andrassy may possibly resign.

CRISIS IN THE GREEK FRONTIER.
ATHENS, March 17.—Twelve thousand Turks landed at Volo, and it is expected they will attack Mount Pelion. It is anticipated that if the Turks overwhelm the insurgents it will be difficult to restrain the Greek army from entering Thessaly.

RUSSIAN TORPEDO BOATS IN THE BOSPHORUS.
CONSTANTINOPLE, March 17.—The Russian troops have crossed the river, between Makri-Koi and St. Stefano, and occupied three villages near Makri-Koi. The port of Makri-Koi is a very important one, and the Russians occupying Bjukdere. The Russians now have arrived at Domondere, behind Bjukdere. The Russian fleet, consisting of a torpedo boat, has cast anchor off Bjukdere.

Biunt, British consul at Adrianople, has asked here, the Russians having refused to recognize a consular body at Adrianople or Philippolis.

BISMARCK ARRANGES FOR THE CONGRESS.
PETERSBURG, March 17.—Prince Bismarck has notified the Austrian government that Russia, in consequence of his intervention, has consented to submit all the peace conditions, without exception, to a congress for discussion, should the congress make a demand to that effect.

Bank Robbery in Boston.
BOSTON, March 16.—A heavy robbery was committed this afternoon in the local more national bank, Cambridge and Second streets. About 2 o'clock President Hall was sitting in the parlor on the 10th floor, the business of the day being done, and he was about putting up the books, arranging papers, or depositing money in the vault, when a high entering a man and woman drove up to the Cambridge street entrance. The man entered and requested Hall to step to the door and see the lady, who desired to transact some business. Hall walked to the sidewalk, the man accompanying him. The woman said she desired to purchase a diamond ring, and began in a deliberate manner to count a roll of money. Hall said he could not wait while she counted the money, and returning to his room, went down to write. In a few minutes he heard the buggy drive hurriedly off. Suddenly suspecting something wrong, he made a hurried examination and found that a small trunk which a moment before had contained \$3,000 had been taken. Further examination showed that two trunks which were in the vault, and of which stood partly open, had been abstracted. The trunks contained government bonds and other securities, amounting to \$47,000, the property of different individuals left in the custody of Hall for safekeeping. From facts since ascertained, it is supposed the robbery was done by three men and a woman. It is thought that two men were concealed behind the door in the hall of the bank building, when the president passed out, and, though he could not have been absent about two minutes, they succeeded in getting off with the money and securities.

The Black Hills.
DEADWOOD, D. T., March 16.—The heaviest snow-storm experienced since the settlement of the Black Hills by white men commenced 12th, and continued unabated till the 12th. The snow in the city on a level was over four feet deep. All mail and telegraph communications have been interrupted. The last mail received arrived from Cheyenne on the 9th. In addition to the mail coaches, a passenger, many teamsters and freight-trains are snowed in in the vicinity of the Hills and is feared much suffering and loss of stock will ensue. Considerable damage was done throughout the mining camps in the gulch by the immense weight of the snow crushing in the roofs of houses, and many parties have had narrow escapes from being buried under falling buildings. Every effort is being made to break the roads so that the mail and stage communication with the outer world can be resumed.

The heavy snow-fall has allayed all fears entertained by miners and mill men of a scarcity of fuel during the present season.

The Caledonia mine, located between Lead City and Central, was purchased on the 12th by California men for \$40,000.

Last night Charles W. Hunt, under the influence of liquor, went to a city lodging-house and began a trade of abuse against the proprietor, C. W. Tappan. He was requested by the latter to leave the house, which he refused to do. After some more sharp words, Hunt drew a revolver and

shot Tappan in the bowels, inflicting a mortal wound.

A Rome dispatch of Saturday states that Pope Leo XII., in his instructions to the Italian bishops, virtually recognizes the loss of the temporal scepter to the Vatican.

If this is so, there will be no further clearing between the authority of the Roman Church, the fiction of Pope Pius IX. that "the pope is a prisoner," being dissipated.

Evolution of North America—Address by Prof. J. S. Newberry.

Prof. Newberry's lecture room at the School of Mines of Columbia College was filled last evening with ladies and gentlemen, who had gathered to listen to a paper by B. B. Chubb, on a collection of minerals exhibited at the Centennial Exhibition, and to address by Prof. Newberry on "Evolution of the North American Continent."

Prof. Newberry illustrated his lecture by maps and pictures developed by the map lantern. The address was long, but the audience was so deeply interested that they took little notice of the length of the lecture, and began by taking up the theory of the union of matter, and carried his audience along, step by step, skipping the greater part of the technicalities and hard names, and taking in a conversational manner, as though in a drawing-room. After speaking of the various ages of inorganic formation, he described the progression of organic matter, passing to the times when the ungainly sea monsters and clumsy mammoths roamed over New Jersey and the West. Of one animal, called by a long scientific name meaning "terribly horned," because it had horns growing from its head, he described the life history, and stated that its brains were so small as easily to be drawn through the aperture at the base of the skull formed for the passage of the spinal cord. The earlier animals had no legs to speak of, but as they advanced the fore legs appeared and then came the mammoths. Animals developed after a coterminous way with the megatherium and other monsters were furnished with long sabre-like canine teeth, evidently thus constructed to be enabled to tear apart the deep-seated vital organs of the monsters which they fed upon. Enormous birds, built something like the ostrich, though many times as large, were described from fossil remains of the apices in New Zealand and South America.

The picture of the first man who dwelt in this country made him out a savage of a low animal type. It was believed that he lived at the same time with the mammoth, and a fancy sketch was shown where a party of these wild men had driven one of these huge animals over a precipice into a pit. Another picture showed a man and a large cave bear, supposed to be the ancestor of the grizzly bear found in the Rocky Mountains. One of the finest colored pictures represented the face of the earth before its habitation by organic life. The great amount of moisture in the atmosphere caused weird and fantastic clouds to form and hang low upon the landscape. Then the period of cold was pictured and the course of the glaciers shown as they spread over with ceaseless force as to out through the rock, leaving traces of their work which have since become an open book to geologists for the study of the glacial period. The concluding picture represented a city in Switzerland, the fine buildings and trees standing out in sharp contrast with the peaks of the mountains near at hand, and illustrating more powerfully than words the work of development and evolution of nature.—N. Y. Tribune.

Another Anecdote About Ben Wade.
Some years ago we heard the following of the late Hon. B. F. Wade: While he was "atemping" in one of our Southern towns, an individual repeatedly interrupted him, trying to answer him several very simple questions. The speaker patiently replied to all, until at last he put one question so simple as to be almost silly, when Wade stopped and asked, "What is the school?" The senator was troubled with no more inquiries that day.—Cleveland Herald.

The farmers near Vanton, Ia., have nearly all finished sowing their wheat, and have also sown considerable barley. A few early potatoes were planted last week.

Gov. Halliday of Virginia, has offered \$100 reward in each case for the arrest of the party that thieved Charlotte Harris (colored) in Rockingham county, on the night of the 6th inst.

The Socialistic Workingmen held a large demonstration at Masonic hall, St. Louis, Saturday night, in celebration of the 10th of March, the anniversary of the Paris commune. The hall was thronged. Addresses were made in German, English, and French. The crowd was very large, and the speakers were displayed, and also the red flags of the Social Labor union.

A member of the cabinet is credited with the statement that the president will not remove Anderson from office of surveyor of New Orleans while an appeal for a new trial is pending, and that he might not revoke his commission even if he should be sent to the penitentiary. The president is firmly convinced that the prosecution of Anderson is a political persecution, and that there is no real evidence in any of the charges against him. Secretary Sherman within a day or two said to a Louisiana gentleman who expressed the opinion that Anderson would not be pardoned, that his information was contrary to that.

THE MARKETS.
NEW YORK, March 18.—Flour steady and unchanged. Wheat a shade better, \$1.26, No. 2 spring. Rye steady. Corn a shade firmer at 52 1/2¢. Barley steady. Oats firmer at 35¢. Pork steady at \$10.15. Lard 40¢. Live stock—Wheat strong and higher; No. 1 white Mich. \$1.24; No. 2 white Mich. \$1.24; No. 3 white Mich. \$1.24. Corn 45¢. Mixed cash 45¢. Oats 28¢. Clover seed 80¢. Hay 45¢.

DETROIT, March 18.—Flour quiet; no sales. Wheat stronger; extra, \$1.29. No. 1 white, \$1.24; No. 2, red seller March \$1.24. April \$1.25. Corn 45¢. Mixed cash 45¢. Oats 28¢. Clover seed 80¢. Hay 45¢.

CHICAGO, March 18.—Wheat active and higher; No. 1 white, \$1.24; No. 2 white, \$1.24. Corn 45¢. Mixed cash 45¢. Oats 28¢. Clover seed 80¢. Hay 45¢.

CLEVELAND, March 18.—Petroleum market steady; standard white, 110° test, 10 1/2¢. Catarrh Can be Cured.

I had catarrh for twenty years. During the last ten years my throat was constantly raw. It was going to my lungs. I had tried every remedy, but none helped me. I expected to die with consumption. At last I tried Fessenden's Catarrh Remedy. It cured me, and for nine years I have been entirely free from catarrh. I have prevailed on many to try it, and in every case have seen excellent results.

Kalamazoo, June 6th, 1877.
F. Colman & Son, Sole Agents for Kalamazoo.

THE LATEST.

FOREIGN.

Another Rumor of Lord Derby's Resignation.

WASHINGTON.

Release of Thos. C. Anderson.

Action in the Senate Committee Relative to Lady Attorneys in the Supreme Court.

Recapture of Part of the Redmond Gang in South Carolina.

Further Agitation of the Silver Question Voted Down in the House.

FOREIGN NEWS.

LONDON, March 18.—Between five and six thousand Oldham weavers are engaged in the strike and lockout. Numbers of operatives in other departments are kept idle in consequence of the stoppage of work by the weavers, and great distress prevails.

PARIS, March 18.—General Berthaut has been appointed to the command of the eighth army corps, headquarters at Bordeaux, in place of General De Gramont de Rochefort, transferred to the reserve. Other important changes are impending. General Esprit de la Villesboisnet, commandant of the eleventh corps, General Picard, commandant of the thirteenth corps, and General Villabois have resigned.

Leon Say's resignation of the finance ministry is regarded altogether unlikely. It is believed the chamber will vote the entire budget without hesitation.

LONDON, March 18.—4 p. m.—Consolidated declined to-day on account of the news that Lord Derby had resigned the foreign secretaryship. The rumor is probably untrue, but the market was very nervous on the subject.

This morning's Post congratulated the country on the unanimity of the ministry in the present critical position.

MONTREAL, March 18.—In the suit against the ex-directors of the Metropolitan bank to recover damages for their mismanagement, it is alleged in the proceedings that the statements of the bank four or six years ago were false, that the directors borrowed over half a million dollars, and used the money for stock speculations, and that thus a heavy loss accrued to the bank.

WASHINGTON.

RESTATE.
WASHINGTON, March 18.—Mr. Edmunds from the committee on judiciary reported adversely on the house bill in relation to certain legal disabilities of women, and moved that it be indefinitely postponed.

Mr. Windom called up the house bill making appropriations for fortifications and other works of defense for the year 1879. It was read a third time and passed without discussion. The bill appropriates \$275,000 for fortifications, the amount thereof and torpedoes.

Mr. Thurman called up the senate bill to prohibit members of congress from becoming sureties on certain bonds; passed.

The vice president announced his signature to the bill in aid of the polar expedition designed by James Gordon Bennett. The house bill to authorize the granting of an American register to a foreign built ship for the purpose of the Woodruff scientific expedition around the world was called up by McDonald and led to a long discussion.

The bill granting an American register to foreign built ships for purposes of the Woodruff scientific expedition around the world was discussed until two o'clock and then laid aside until to-morrow. The senate resumed the consideration of the Pacific railroad sinking fund bill, and Christianity spoke in regard thereto.

MOVES.
WASHINGTON, March 18.—Mr. Springer

moved to suspend the rules and pass a bill authorizing the coinage of silver on the same terms as the coinage of gold, "without expense to holder of bullion," and also authorizing the issue of coin certificates on deposit of silver bullion similar to those now authorized on deposit of gold bullion on a vote twice vote; the ayes were in decided minority, but before the vote by yeas and nays could be taken, the hour of two o'clock arrived, and the house (under rule) proceeded to the consideration of the business of the district of Columbia.

ST. PATRICK'S DAY.
NEW YORK, March 18.—In nearly all the Catholic churches in this city and neighborhood yesterday, St. Patrick was commemorated in special meetings and lectures. Rev. James P. Ryan, a Paulist father, spoke of those who were always talking about Ireland's freedom, for the sake of making money, and who had more words than brains. Such men were not honest; they were "dynamite patriots." The men who started the skinning fund were not honest. The Rev. Sylvester Malone said: "What insanity is it that brings St. Patrick from his niche in God's temple to the streets to be made the object of laughter and derision."

NEW YORK, March 18.—Notwithstanding the threatening appearance of the weather, the annual celebration of the festival of the patron saint of the Emerald Isle was observed with as much spirit and enthusiasm as in former years. Green flags, large and small banners and bunting were everywhere displayed; but the procession numerically was much smaller than heretofore. It consisted of only the ancient order of Hibernians and two church societies. Hard times and indisposition to street walking combined to keep many out of the ranks. In Brooklyn the procession was composed of only the Ancient Order of Hibernians. Philadelphia was treated to two organized parades. In Washington and other places there were the usual street demonstrations.

THE Boston Banks.
BOSTON, March 18.—Bank Examiner Needham states that the actual loss to the Lechmere Bank at East Cambridge by the robbery last Saturday amounts to \$3,038, leaving a surplus of \$113,000. The balance of the loss falls upon the president and outside parties.

The run on the savings banks to-day continues, but the excitement is greatly diminished, and crowds in the Five Cents savings bank did not number over 100. At the Provident and Suffolk savings banks there were few if any depositors calling for their money.

FIRE IN DETROIT.
DETROIT, March 18.—A fire broke out in the store, No. 169 Woodward avenue this morning, at half-past two, on the ground floor, where it was not discovered. It was occupied by J. Martin as a shoe store, whose entire stock, valued at \$8,000, was burned; fully insured. The upper story was occupied by Dr. Kellogg, whose loss in furniture, dental tools and stock is estimated at \$800—no insurance. The building was owned by Wm. B. Wesson. The damage to the building is estimated \$1,200—fully insured. The origin of the fire is unknown.

CELEBRATING THE COMMUNE.
NEW YORK, March 18.—The French, German and Bohemian socialists celebrated last evening the establishment of the commune in Paris. Red flags, badges and roses were numerous. The late President Thiers was styled a "red-headed blackleg."

ANDERSON RELEASED.
NEW ORLEANS, March 18.—In the case of the state vs. Thos. C. Anderson on an appeal for a new trial, the supreme court reversed the verdict of the jury and ordered the prisoner to be released.

WEATHER INDICATIONS.
WASHINGTON, March 16.—Noon.—Indications for upper lake region: Warmer, partly cloudy weather; possibly light areas of rain or snow; southeasterly winds, falling barometer.

TELEGRAPHIC ITEMS.
BOSTON, March 18.—The Hyde Park Savings Bank requires sixty days notice before paying sums over \$25.

WILKESBAIRE, Pa., March 18.—The Lehigh and Wilkesbore Coal Company resumed work this morning in eleven collieries on three-quarter time, giving work to 2,000 men and boys.

NEW YORK, March 18.—A Columbia dispatch says the force of thirty men who started in pursuit of Redmond and his gang Friday night, succeeded in capturing six, several of whom were concerned in the recent rescue of U. S. prisoners from the Pickens county jail. The Stanalls, two of the three men rescued by Redmond, have been recaptured.

LAY your finger on your pulse, and know that at every stroke some mortal passes to his Maker—some following crosses the river of death; and wonder that it should be so long before our turn comes. The mass of these who start from little things. What may appear at first to be no more than a deranged digestion, may increase and take the form of liver disease. The blood becoming vitiated through the imperfect action of the liver, carries its poisonous properties through every part of the body, and the system finally becomes so overloaded that it breaks down under the weight of disease. Dr. Smith's Stillinger Blood Purifier will tone up these weakened organs, stimulate the digestion, restore healthy action to the liver, and cleanse the system of all poisonous and noxious matter. Pimples, blotches, boils, and all skin diseases, are thoroughly cured by its use. Every bottle guaranteed to give satisfaction, or money will be refunded. Sold by all druggists at 75 cents, sent by mail, post-paid, for 80 cents. Dr. B. A. Smith & Co., proprietors, Erie, Pa.

Stop that terrible cough, and thus avoid a consumptive grave, by taking Dr. Pierce's Golden Medical Discovery. As a cough remedy it is unsurpassed. Sold by druggists.

Mothers and physicians are sometimes puzzled to know whether children have worms or not. Administer Prof. Parker's Pleasant Worm Syrup, and if it don't bring them, none exist. Sold by Brown & Goodell.

LOCAL MATTERS.

MONDAY, March 18, 1918

Kalamazoo is a commercial and manufacturing
city of 12,000 inhabitants, and the largest village in
the county, and is located midway of the Michigan
peninsula. In addition to the Michigan
streets and fine residences of the place, the principal
objects of interest to strangers are the Michigan
system for the purpose of the schools and colleges,
the large factories, and the fine view from surround-
ing heights.
The Daily Telegraph is the only Kalamazoo
paper having Associated Press connections, and is
delivered by carriers at 10 cents per copy. Leave
orders at this office, or address Kalamazoo Publish-
ing Company.

Michigan's
