NEVER-FAILING RELIEF

SANFORD'S RADICAL GURE. It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter of how long standing, or how severe the disease, the first doze gives such evidence of its value in the treatment of Catarrhal affections that confidence is at once felt in its ability to do all that is claimed for it. The testimony of physicians, druegists, and patients is unanimous on this point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, may justly feel proud of the position this remedy has attained, and believe it worthy of its reputation.

10 YEARS A SUFFERER. From Hon. Theo. P. Bogert, Bristol, R.I. Messrs. Weeks & Potter: Gentlemen.—Feeling thoroughly convinced of the efficacy of Sanford's Radical Cure for Catarril, I am induced to drop you a line to say that although I have been sceptical of all the sostiums advertised as "radical cures," I have never found anything that promises such relief and u timate cure as that of Sanford's in the been afflicted with this dreadful disease for more than ten years, and not until recently could be induced to persevere with any until I read the letter of Mr. Henry Wells, and can truthfully say that after using five or six bottles I am thoroughly convinced of its curative properties. Hoping that others similarly afflicted like myself will be induced to make the trial, I am, gentlemen, very truly, etc. Theo. P. Bogert.

transpires in Italy and France. The villain

is a French baron, his victim an Italian

model; the hero is an English artist, the

heroine an American artist and the inc.

dental characters are Americans abroad

The story is in the romantic vein, hinging

on the mistake of Francesca, who in de-

nouncing her own husband leads Cicely to

elieve she means her lover, Sidney Nor-

cott the artist, and leads to complications

which result in Sidney and Francesca be-

ing sent to the galleys, their subsequent

vindication, the exposure of the villain of

KALAMAZOO WHOLESALE MARKET.

OFFICE OF THE KALAMAZOO TREEGRAPS, TURBOAY, February 8, 1880. The receipts of wheat at this point for the week ending left evening were 295 bushels. The "visible supply" of wheat in this country sems to have reached its climax and turned in the other direction, although there now remains enough at the feading grain centers to supply the world far into the spring, without the sale of a oushel from farmer's hands. The stocks in sight Jan. 34 were 80,809,000 bushels, a decrease of \$60,-On motion the above accounts were allowed, and the clerk orderek to draw the United K ngdom at the opening of the year The following bills were submitted to the board for action and after discussion

sesson. The exports from this country for the week ending Jan. 28 were 1,573,000 bushels, a perceptible gain, and it is supposed that the drift will be still more marked in the same direction the present week. The French imports from Aug 1 to Dec. 15, 1879, exceeded those of the rresponding period last year by about five per cent, which is taken to show the actual compara tive need of the country. From Rev. H. P. Webster, Pastor the Methodist Episcopal Church

in Weston, Mass. " Having been afflicted with dyspepsia and all its attendant sufferings for 14 past, and the last five or six with a chronic diarrhosa, I am happy to state that I find myself greatly improved. Those disagreeable feelings usually at tending dyspepsia are now almost entirely gone, and the diarrheaso far removed that I suffer no inconvenience from it, except when I take cold, or labor en tirely beyond my strength, producing somewhat of an inward inflammation. To those who are afflicted with the dys pepsia, or derangement of the liver and stomach, producing general prostration of strength, I would recommend the PERUVIAN SYRUP as one of the most effectual remedies that I have ever known." What Physicians Think.

New York, Dec. 21, 1361.

Dr. M. M Fenner, Fredonia, N. Y.,

Dear Siz: I have no hesitancy in saying that the efficacy of your Blood and Liver Remedy and Nerve Tonic in relieving and curing the various chronic diseases you mention in connection with it, far surpasses anything I have ever met with or known, during a 20 years extensive practice of medicine. It is successfully administered in so large a number of diseases because it operates by removing the causes of disease, hence they yield of necessity.

Many cases of diphtheria and sore broat are prevailing at present throughout the city and country towns, and we may look for a variety of recipes and recommendations of this or that cure from the wise ones. In the interest of suffering children we wish to say a word in favor of Lawson's Curative as a preventive, as well as a cure, for this insidious enemy of children. We have such undoubted evidence that the Curative will cure diphtheria that we strongly urge every tamily with young children to keep it on hand, and on the first symptoms of sore throat use it freely. The directions which go with each bottle are ample for its use. Large bottles, 50
