as in a majority of families the men can only appear at the table morning and evening. Such being the case it too frequently happens that mistresses allow this meal to be prepared and served in a careless, even slovenly fashion and that the dishes are but too palpably a rehash of previous

Now there is no reason why the remains of yesterday's roast should not serve for today's luncheon but there s no need of serving it in an unappetizing manner; nor does it follow that because the meal is a simple one the maid should shirk her duties or perform them in a slip-shod fashion. Remnants often taste better in combination than in their original form, but they should appeal to the eye as well as to the palate, while the maid who is allowed to be careless at lunch is soon likely to be equally slack at breakfast and finally at dinner.

Scientists tell us we should seldom indulge in a meal of exclusively cold dishes and one well-made hot dish should always appear at the lunch and their own thoughts-and by your table. It may be only a thick soup, but, if hearty, a potato or egg salad combinations as well as omissions of courses are allowable that there should be little difficulty in planning listening well. And "Everybody" will luncheons, while the housekeeper who s fond of cooking and takes pride in originating dishes can make this home meal her trump card without any appreciable money expenditure.

If the other dishes are not very substantial in character they may be helped out by a hearty soup. Any number of cream vegetable soups may be evolved from the following general directions: Mash the vegetable and ly tender boil or steam until it can be pulped. For each cupful of pulp make a thin white sauce with one tablespoonful of butter, one tablespoonful and a half of flour and one pint of milk. Add seasoning to taste, mix gradually with the pulp and simmer for five minutes. Serve with this croutons or oyster crackers. A thin sauce always gives a richer result than water and butter: too much moisture should be avoided or the hash will be sloppy. Slow cooking without stirring should give a brown bottom crust so that the cook can turn it out in a shapely roll; or, if a moist hash is preferred garnish the mound with toast cut in diamonds or triangles. Young Clark's search through his clothing for a nickel or other small coin was futile, and the hunt resulted in three \$20 gold pieces and one \$50 bill being brought to light. A gold piece was offered the conductor, but the senator's son met with another repulse, the conductor declaring that he understood that they were not obligated to change denominations of over \$5 for one nickel ride, and he didn't have the time.

When a walk seemed inevitable, an unknown friend who had been silently enjoying the embarrassing predicament of the man of millions, loaned Mr. Clark five cents, and the incident closed.

The Mfiks' Emulsion Co., Terre Haute, Ind. Gentlemen—Something like a year ago my daughter was taken with a bad cough. It seemed to grow worse, and after trying all the different cough medicines we consulted a physician, who pronounced it consumption. We consulted other physicians and they all claimed my daughter's lungs were backy affected and seemed to hold out no hope for her. Finally, hearing of Milks' Emulsion, we sent for some and it gave her immediate relief. We were delighted and as she continued its use we could see her grow strong and well again. It was a godsend to us and we cannot speak too highly of it.

## DRAMATIC RENDERING

### "Julius Caesar" by Prof. Blanchard

#### First of the Lyceum Course Proved an Attraction of Great Value.

The first number of the People's Lyceum course was given Friday evening at the First Congregational church, when a large and enthusiastic audience listened to a reading of Julius Caesar by Prof. Blanchard of Chicago university. The great appreciation with which he was received was evinced by the enthusiasm of the audience, the repeated applause and almost breathless attention. Dramatic indeed was his rendition of this Shakespearean tragedy and his conception of the different characters, although widely varied, was exceedingly clear. Rev. Howard Murray Jones, after telling something of the remaining numbers in the course, introduced the speaker of the evening, the two having been classmates. Before entering upon the reading

Prof. Blanchard told something of the history of Caesar, of his triumphs at home and abroad, of his desire to be king, and the events leading up to the tragedy, which he presented in three acts, eliminating only the minor parts. In the first act he clearly established the characters of Brutus and Cassius, and their sentiment toward Caesar, and his portrayal of Casca, "whose rudeness is a sauce to his good wit. was most amusing. In the second act he clearly presented the character of Brutus, the conspirator and leader and in this act also showed the position of woman in this period, particularly creditable being his portrayal of Portia But it was in the last act that Prof. Blanchard appeared to best advantage. In this he rendered Antony's funeral oration with thrilling and dramatic effect, bringing out Antony's friendship for Caesar and his intense sorrow, as

Altogether it was a most creditable presentation of a tragedy which, Prof. Blanchard said, deprived the later generations of one of the greatest forms of

#### STATE CHAT.

An experiment inaugurated last fall at market. To test the preservative quality of cold storage on the supposedly perishable peach, several bushels were carefully selected by peach-growers who then wrapped the fruit separately in tissue pa-per and then in an overcoat of print paper and laid it on shelves in the cold storage, Jan. 1 and peaches were examined, and found to be in the pink of perfection, placed on the market and sold for about four prices. So it appears to be coming to this that we shall pay dear for peaches in the fall, because growers will wish to pack them in cold storage for the holiday trade, and then we will pay a darn sight dearer for them in profits to the growers and cold storage rent-ers. Examining the proposition at both ends we can say that we fall in with it. However, the poor ought not to complain and if this thing goes into effect let us be content with a few wormy apples, and remember that the rich we have always with us, and must be provided for.

NEW ORLEANS, La., Feb. 20 .-(Written for the Evening Telegraph.)-Having witnessed one of the greatest spectacles of this country namely, the 'Mardi Gras," in New Orleans, I should deem it a privilege if I be allowed to tell the readers of the "Telegraph" something of what we saw.

I have often heard southerners speak in glowing terms of their Mardi Gras festivities, but never imagined that anything so magnificent could be conceived and so perfectly executed. We arrived in New Orleans early on the morning of Tuesday, Feb. 14, from Baton Rouge, having played the capitol city Saturday evening. Rooms had been engaged for us several weeks ahead, that course being extremely necessary if one wishes to avoid being put to many inconveniences, as New Orleans is crowded to capacity during Mardi Gras. We were most pleasantly situated about two blocks from St. Charles hotel. Sunday was spent in sight-seeing. Early in the morning we went through the historical old "French market," a prominent point of interest to visitors in the "Crescent City." We were much amused by what we saw. People from all parts of the globe are to be seen there, and one can hear languages in any known( and it seemed to me) many an unknown tongue

Planters in Honolulu are troubled by the fact that the educational clause demanded by the labor interests of the country is shutting out their labor supply. They want immigrants to come in irrespective of illiteracy. The Japanese now are the main workers on the sugar plantations in Hawaii. Most of these can neither read nor write. The Japanese have now begun to organize and to strike, so that the plantation is faced with the ruin of its entire crop. Recently mounted police were necessary to put down a Japanese strike on one of the sugar plantations.

The Koreans who come to Hawaii will not work after they get a little ahead. They then want to stop and have a good time. There is a movement to try the co-operative system, and so far as tested, it has worked well. The Japanese or Chinese, or other laborers are given a piece of land to cultivate for themselves on condition that disposed of at the mill at the prevailing

The jury in the famous postoffice scandal cases found August W. Machen, late general superintendent of the rural free devilery division; George E. Lorenz of Toledo, O., and Samuel A. and Diller B. Groff of Washington guilty. The jury was out eight hours and twenty-five minutes. There was very general astonishment that the jary had included in the conviction Samuel A. Groff, the Washington policeman and inventor of the Groff fastener as to whom Holmes Conrad, special counsel for the government, yesterday informed the jury he did not expect a conviction and that he personally did not believe in his guilt.

Five ballots in all were taken. On the first ballot the vote stood 7 to 5 for conviction, on the second 8 to 4. on the third 9 to 3, on the fourth 10 to 2, and on the fifth the vote was unaal-

Leaves the Field Clear for President Roosevelt. It Is Thought.

WASHINGTON, D. C., Feb. 27 .--(Special.)-The death of Senator Hanna must remove from the minds of the most prejudiced enemies of President Roosevelt the hope of opposition to him as a candidate. How Mme. De Maintenon, the Most Beautiful Woman in History, Retained Her Beauty and Youthful Appearance.

How Any Woman Can Attain Beauty and Youthful Looks

Mme. De Maluteuon, said to be the most beautiful woman that ever lived, and the favorite of the luxurious court of Louis XIV., when seventy years of age, so history records, looked scarcely thirty. Her complexion was a marvel, and the envy of all the most noted beauties for which the court of Louis Le Grande was famous. Her youth and beauty, it was asserted, were ascribed to a secret lotion of Paracelsus, that kept her complexion in its youthful vigor and radiant glow, warding off the wrinkles and keeping away the lines and removing the blemishes that are the arch enemies of beauty and youthful looks.

This secret, for which Mme. De Maintenen paid a fabulous sum, can to-day be obtained by every lady at a very moderate cost.

By a diligent research into the laws of nature and a careful study in the realms of chemistry.

By a diligent research into the laws of nature and a careful study in the realms of chemistry.

Mme. Ruppert, the most noted Complexion Specialist of the present day, has discovered a formula that not only equals the secret formula of Paracelsus, but in many respects far surpasses it.

MADAME A. RUPPERT'S FACE BLEACH does all that the secret formula of Paracelsus did. It-keeps the complexion youthful, retarding wrinkles and lines, removing the discolorations and blemishes, giving that delicate pink and white glow, so natural to youths making the skin smooth, clear and a marvel of beauty. Freekles, pimples, moth, blackheads, sallowness and oiliners of the skin rapidly disappear with its use, and there is scarcely a defect to which the complexion is heir which will not readily yield to its miraculous curative and youth-restoring qualities.

IT CANNOT FAIL to produce these grand results, and to be perfectly harmless to the most delicate complexion, as its actions harmonize perfectly with the laws of nature and hygiene, the two factors which must be closely adhered to and followed, to improve permanently one's personal appearance.

FACE BLEACH has a twofold action on the skin: 1st, a magnetical action tracts and draws to the surface the impurities and discolorations which collect below the outes skin, similar to the attracting property of the magnet for iron; and, 2d, a chemical abdom which scales off imperceptibly (in the form of a very fine dandruff) a slight surface of the outes diseased and dead cuticle, leaving the skin—beautiful task youthful looking by nature—

clear, smooth and perfect.

THIS IS THE ONLY METHOD by which the complexion can be safely and positively A positive guarantee is given if Face Bleach is used according to the new special directions which are furnished with each order, that it will remove every discoloration and impurit All of Mine. We wish that more people might read the hearty words of commendation that we are daily receiving. There are not from persons who make a business of selling their testimonials, but from those who are truly thankful for the good done them.

Be not deceived by the old fraud: "We have something just as good or better." No honest dealer will tell you this, his object is not your good, but to work off that which he has invested in and is probably making a much greater profit on.

When customers once learn the worth of Pacal Balm they never discard it. Can there be any better evidence of its virtue? never discard it. Can there be any better evidence of its virtue? There's Jim Jeffries, Who Slept Calmly With a Tarantula Near Him.

"If I were a trainer or manager of pugilists," said a ring follower the other night, "the first thing I would try to teach my man is to overcome stage fright. This has caused the downfall of many a brilliant career in the roped arena, and relegated to obscurity a lot of scrappers who, otherwise, would some day have been champions. Many fighters on top today owe their success to the fact that they were not afraid of anything or anybody when they started out. Of course these attributes are no good unless the person possesses the other requisite qualities that go to make he started to run, and he warned Jefthe successful pugilist.

"As an instance, take Jim Jeffries Long before the boiler maker thought in pigeon English: 'He no hurt me.' of putting on the gloves, he was a daredevil. He was not afraid of anything in the world. Being endowed by nature with a sturdy and strong constitution, Jeffries has had many adventures, but one that is worth telling about happened while he was preparing for his last fight with Jim Corbett. One day he strayed from his quarters in company with an old Indian, whom he had known for years. This Indian is a fine guide, and when Jeffries suggested to him, unknown to his trainers, that they take a journey through the mountains, the Indian consented to accompany him. ## BOOM FOR **FAIRBANKS**

Talk of Him as Running Mate for Rooseveit Result of Hanna's Work

WASHINGTON, D. C., Feb. 27 .- Mr. Fairbanks is named at the capitol as an extremely likely running mate for the president. If that should come to pass it will signify three things-that Mr. Hanna desired it; that Mr. Fairbanks has felt the strongest pressure E. M. KENNEDY. - Druggist. from his political allies; that advertising is the secret of some political success as well as some commercial

> The politicians have agreed that Mr. Hanna's supporters were in control of the Indiana machine. Mr. Fairbanks and Mr Hanna were, indeed, teammates. Now this machine is not only brought into line for Roosevelt, but the head of the machine is proposed as the tail of the Roosevelt kite. No one believes either of these things could possibly have happened if Mr. Hanna had not sincerely desired the nomination of Mr. Roosevelt, and urged that desire so strongly on Mr. Fairbanks that the latter could not resist it. As for the value of advertising in politics, it is enough to recite Mr. Fairbanks' rise to national reputation. He came to Washington in 1897. Until then the highest offices he had filled were those of delegate to a Republican national convention and complimentary candidate for the United States senate. Soon after his arrival he engaged a successful newspaper correspondent as his political secretary. Within a month the other correspondents who were friends of the political secretary were sending specials to their papers suggesting the unknown Mr. Fairbanks as a candidate for the presidency. The correspondents laughed at the idea, of course, but their laughter did not get into print. From that day to this the campaign has gone on. The political secretary "gives up" news and the correspondents "give up" space to the

Fairbanks boom. Who says these methods are not as legitimate for Mr Fairbanks as for ners of the "best selling nov el," or the manager of "the most popular actor of the day?"

The general opinion is that the result is unfortunate. The method is present, but there is a woeful absence of the poetic charm which attaches to Father Chauer's quaint stanzas.

The poems, which consist of fourteen parodies of Chaucer, are prefaced with an introduction by H. B. Marriott-Watson, in which he lauds Kipling as a prince among parodists.

# Whiskey and Beer Habit

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whiskey, beer or wine eats away the stomach lining and stupefies the digestive organs, thus destroying the digestion and ruining the health. No "will power" can heal the inflamed stomach membranes.

"ORRINE" permanently removes the craving for liquor by acting directly on the affected nerves, restoring the stomach and digestive organs to normal conditions, improving the appetite and restoring the health. No sanitarium treatment necessary; "ORRINE" can be taken at your own home without publicity. Can be given secretly if desired.

Mr. E. T. Sims, Brooklyn, N. Y., writes:
"Use my name as a twenty-year drunkard restored to manhood and health by four boxes of 'ORRINE.' It is a wonderful and marvelous cure for the drink habit."

Mrs. E. Wycliff, New York City, writes:
"'ORRINE' cured my husband, who was a steady drunkard for many years. He now has no desire for stimulants, his health is good and he is fully restored to manhood. He used only five boxes of 'ORRINE.'"

Mrs. W. L. D., Helena, Mont., writes: "I have waited one year before writing you of the permanent cure of my son. He took sanitarium treatment, as well as other advertised cures, but they all failed until we gave him 'ORRINE.' He is now fully restored to health and has no desire for drink."

Mr. U. L. R., Kansas City, Mo., writes: "I am satisfied that drunkenness is a disease and the worst in the world. 'ORRINE,' in my opinion, will cure any case if taken as CURE GUARANTEED OR MONEY REFUNDED. you direct. I was a common drunkard for twenty years, but to-day I am free of any desire for liquor. You have found the specific. God bless you!"

Mr. A. E. L., Atlanta, Ga., writes: "I was born with a love of whiskey and drank it for thirty-two years. It finally brought me to the gutter, homeless and friendless. I was powerless to resist the craving and would steal and lie to get whiskey. Four boxes of 'ORRINE' cured me of all desire and I now hate the smell of liquor."

## STEVENSON IN DETROIT

for Hearst

Method and Full Particulars Sent Free Leaders of Party There Not in Favor of Binding Michigan Delegation.

> DETROIT, Mich., Feb. 27.-Lewis G. Stevenson of Battle Creek, who is coming the candidacy of W. R. Hearst for the next Democratic nomination for president, was in the city a few days ago on another mission to get Detroit hustlers lined up for the newspaper trust magnate. He predicted that the Michigan delegation to the national Democratic convention would be instructed for Hearst, but some of the more influential Detroit Democrats are

inclined to disagree with him.

D. J. Campau and other Democrats, who opposed any indorsement of Hearst by the Michigan delegation at the time the Democratic state committee met some time ago, took the position that nothing would be decided upon until the Republican national convention is held, so that the Democrats might guide themselves. They argued that if Roosevelt is nominated, the Democrats should select somebody the Democrats should select somebody who would hold the votes of the conservative business element, while, if Hanna were nominated, the man chosen by the Democrats should be somebody who could catch the radical element in the Republican party.

the method entirely free, to all who send him their name and address. Utah Man Says Polygamy Is Dead but Endowment House Lives.

Frank E. McGurrin, a resident of Salt Lake City, Utah, since 1886, is in the city visiting his brother, Charles H. McGurrin at his home in west Kalamazoo avenue. Mr. McGurrin talks interestingly of Utah and the present very promising outlook in that state. In an interview this morning he said:

"Polygamy in Utah is practically lead. Since 1903 there has been little discrimination between Mormon and Gentile. The laws of the state are strictly enforced and a man is as much as he would be with the same number in New York. Very strong impressions are being created about Utah and it is this sort of advertising that has inflicted the greatest injury on the state. To the usual visitor from the east the words 'Utah' or 'Salt Lake City' mean but one thing-Mormons. He expects to see a Mormon on every side with the characteristic beard and perhaps a dozen or more wives.

Not So Wide Apart. "Today the Mormon creed is very much like the Gentile. The Mormons believe in God and the divinity of Jesus Christ and teach the doctrines of honesty, charity and truthfulness Poygamy is as abhorrent to their religion as it is to the Gentile. Old Mormons with a half dozen wives support these vomen, as they are not divorced, but they do not live with them. These vomen are as much respected as any others in Utah and frequently mingle in the best society. Of the 80,000 inhabitants of Salt Lake City about 30,-000 are Mormons. This Mormon problem has solved itself and will soon give Utah the place in the union she rightly permanent organization and order of deserves. We submit to you letters from well known residents of KALAMAZOO. Will you go and see them or will you continue to suffer? We have been in Kalamazoo 18 months. Our Home is here and we do NOT LEAVE NEXT WEEK.

Kalamazoo, Michigan, Feb. 8, 1904. To Asthma Sufferers:-

I have suffered with Asthma for many years and have tried many remedies without relief and was entirely discouraged of ever getting well again, but was induced to try Profs. Keiser and since August 26th, 1903, I have had no Asthma and am grateful, and glad to have the opportunity to give this testimony. There are stronger forces than medicine as no medicine was used in my case. Sincerely to sufferers,

MRS. W. E. BUSSARD. Kalamazoo, Michigan, Feb. 9, 1904.

To the Public:-For nineteen years I have suffered untold agonies with my heart, stomach and bowels being unable to work, ride, stand erect; eat without distress; could not sleep but a few hours at a time and was waiting to die to get out of misery, but after thirty days treatment with Profs. Keiser my heart troubles have disappeared. I can ride, stand erect and eat like a grubber without distress; sleep any time, nerves as steady as clock work and gained in weight 101/2 pounds and all without medicine. Can surely recommend these treatments to like sufferers.

MR. W. E. BUSSARD, Davis Dairy Farm, Kalamazoo, Michigan.

Kalamazoo, Michigan, Feb. 8, 1904. To Whom It May Concern:-I have been a sufferer for more than twenty years with rheumatism. My whole right side has been almost constantly in pain. My hands and fingers were so stiff I could not close them. Part of the time have been confined to my bed, but thanks to the treatments given by Profs. Keiser I am in no pain any more. My fingers are nimble and can attend to my household duties with pleasure. I gladly recommend like sufferers to these treatments as a sure and speedy cure for rheuma-

Very respectfully, MRS. A. D. OATMAN,

Kalamazoo, Michigan, Feb. 10, 1904. To the Public:-After a hard spell of typhoid fever I was left with a bad leg; swollen to the point of bursting, being compelled to bandage it tight all the time for a year. Could scarcely get around. Also suffered with constipation. I was almost in despair but Profs. Keiser have brought me out O. K. Can eat anything without distress and leg is practically well, and no medicine was used.

L. J. HUTCHINSON, Burdick House,

Kalamazoo, Michigan, Feb. 9, 1904. To Whom It May Concern:-

After suffering for eighteen years with stomach and bowel trouble, constantly using medicine without relief and for the last nine years suffered with nervous prostration, and putting these ailments altogether I was a physical wreck. Could not sleep but a few hours at a time; unable to attend to my household duties; in constant pain and misery, together with terrible sick headaches life was not worth living, but after all these years of suffering I am a well woman at last thanks to the treatments given by Profs. Keiser. I have no headaches, no nervousness, can sleep that good, sound refreshing sleep; can eat anything I wish without distress and am surely glad to recommend these

gentlemen to suffering humanity. MRS. M. L. GILBERT. Haas Dairy Farm, Kalamazoo, Michigan.

Kalamazoo, Michigan, Feb. 4, 1904.

To the Public: For twenty years I have taken medicine for bad stemach and bowels, slow heart, poor circulation and bad blood being compelled to use a cane to walk and unable to properly care for my business, but after a series of treatments without medicine by Profs. Keiser, stomach and bowels could not be better. Heart action good; circulation perfect; and need no cane to walk, therefore cheerfully recommend these treatments to like sufferers.

THE NO MEDICINE ROUTE FOR LOCOMOTER

C. H. BARBOUR,

ATAXIA, STOMACH AND BOWEL TROUBLES. For 4 years I have been practically helpless with LOCOMOTER ATAXIA and suffered with STOM-ACH and BOWELS. Have spent hundreds of dollars without relief. Could not walk without assistance; had no feeling in feet and legs. Could not tell where they were when I could not see them. Could not lift a cup of water and drink without the use of both hands. But now after a series of treatments given by Profs. Keiser I

can walk without the use of a cane or the assistance of anyone; can lift a glass of water and drink with one hand and no one but myself can know how grateful a man I am for I was led to believe I never could walk again. I am indeed happy in the giving of this testimony, hoping it may be the means ofbenefiting suffering humanity.

Beginning of Open Season March 2

Man With the Corduroy Coat is Anxiously Awating the Day

Next week Wednesday will be the second day of March. To the average Gas Coke, ton .. \$5.50 mortal this information is not particularly interesting, but to the man who has an old corduroy coat consisting principally of pockets, and covered around the tails with suspicious dark red stains it means a great deal, for from that day until April 10 he can pur-

sue the wily water-fowl. There is no sport quite like duck hunting. An outing after the webfooted tribe can be the most enjoyable or the most absolutely disheartening outing imaginable, with a good chance of the latter for the uninitiated.

Not all states enjoy both a spring and a fall season, as the spring shooting is considered by many as unnecessarily destructive, and in many states only the fall season is open. The spring season is not as good in many respects, the work is harder, the game is less abundant, and is found to be of a pooper quality when brought to bag. Until the snow and ice begin to clear way, the local nimrods usually seek and receive all customers with prompt the open water along the river which is attention and courteous service. Phone frequented by the ducks before the akes are free from ice. The work along the river is hard and unpleasant, and North St. and Douglas Ave. the chance of success is rather small unless the hunter is possessed of a good retriever, for the spring current of the Kalamazoo is no gentle thing, and it will whirl the fallen duck away from under the eyes of the hunter before his waders and a long stick can accomplish their work. As soon as the lakes are open, they are crowded with northbound flocks of the smaller varieties of birds, with an occasional flock of honking geese. These birds are not included in the list of game open in the spring, but so seldom is the chance offered, that it is a conscientious sportsman, indeed, who does not slip a few loads of
