MISS STONE IN A CONCERT

To Obtain Money for Use of Macedonian Committee.

According to the Confession Which is not Credited by the Authorities.

Attempt Made to Secure a Reduction of Miss Stone's Ransom.

PARIS, France, Oct. 8.—(Associated Press)—A letter has been received by the Havas agency from Salonica dated Oct. 4, which says: "The Turkish authorities have made numerous arrests among the Bulgarian population in connection with the abduction of Miss Stone without distinction of religion. Nearly all were tortured in the hope of abstracting information. A prisoner named Dimitri said an understanding existed between the Protestants and the Macedonian committee and that Miss Stone was even acting in concert with them, with a view of obtaining funds for political and religious propaganda. These declarations wrung from Dimitri under torture are valueless. It is certain that the captain of the band has designated for the payment of the ransom a place in proximity to the Roumelian frontier which proves that he hopes to escape the Turkish police and that the Bulgarian police do not cause him anxiety. This is shown by the fact that five or six bands of brigands have become so bold between Strumitza and Knorili that officials of the Oriental railroads have requested the Turkish military authorities to reinforce the troops guarding the tracks."

To Reduce Ransom.

CONSTANTINOPLE, Turkey, Oct. 8.—(Associated Press)—Haskoff, the American missionary at Samokoff, Bulgaria, is opening negotiations with the brigands with a view of reducing the amount of Miss Stone's ransom.

BULGARIAN PEOPLE

Incensed Over the Kidnaping of Miss Stone.

PHILIPPOPOLIS, Bulgaria, Oct. 8.—(Associated Press)—Public indignation in the fate of Miss Ellen M. Stone, the kidnaped American missionary intensifies here. There is widespread condemnation of the government for allowing such freedom to the Macedonian committee as to enable it to engineer the outrage. Patriotic Bulgarians are incensed, as they recognize that Miss Stone and the colleagues of the American missions in Bulgaria and Macedonia have been their best friends throughout the troubles. There is no lack of indications that Prince Ferdinand is imperiling his own position by permitting such license to the committee as to enable it to blackmail prominent people in support of the Macedonian cause.

HIS FIRST SERMON

Created a Good Impression in Toledo Church.

It is evident that in the coming of Rev. Ernest Bourner Allen, to the pastorate of the Washington street Congregational church, Toledo has received a strong acquisition to the ranks of those who fill the pulpits of the city says the Toledo Blade.

The new pastor preached his introductory sermon Sunday to an audience that was an inspiration in itself, and his sermon, which had for its theme, "The Message of the Ministry to the Men of Today," was a promise to the people of Washington street church that, in their new leader, they would have an exponent of gospel preaching in its truest and best sense. Mr. Allen is an able speaker, and possesses in a marked degree the faculty in putting his hearers in sympathy with him at once, and this, combined with his earnestness, makes him an exceptionally interesting speaker. Added to these qualities is a strong personality, which will make his influence a powerful one in whatever way it is directed. The church is already one of the strongest in the city, and, under its new leadership, the possibilities for the extension of its work are illimitable. In compliance with the request of Mr. Allen, at the close of the service, the members of the congregation all passed out of the southeast door, where he met each one with a cordial greeting.

PRICE OF SUGAR

Subject to a Farther Reduction by Trust.

COLORADO TO CALIFORNIA

The Territory Affected by Latest Order.

The War Against Beet Sugar Makers Now Fairly On.

SAN FRANCISCO, Calif., Oct. 8.—(Associated Press)—Another aggressive move has been made by the American Sugar Refining company in the campaign it has against the beet sugar industry. The cut in the price of granulated sugar to all Missouri river points, announced last week is followed by a reduction in the price of beet and cane sugar in all the states from Colorado to California. The reduction amounts to 20 cents a hundred on beet sugar and 20 cents a hundred on cane sugar. In order to discriminate further against beet sugar the Western Sugar Refining company announces it will entertain no orders for granulated sugar which call for over 50 per cent of beet sugar. The reduction has also affected Hong Kong sugar, which is a small supply in this market.

THE CUT

Does Not Affect the Michigan Product at Present.

Officers of the Kalamazoo Beet Sugar company who were asked concerning the cut announced in the west, say that it does not affect the price of Michigan sugar. They say that western sugar is always lower than that made in the middle west and sells for less. The cut in price in this instance affects only the Michigan output is large enough to tempt the trust to a cut in this territory, but if such a cut should be made later, which is not probable, the Kalamazoo company may hold its season's output for higher prices which are believed to be a sure result of any cut below normal.

The Kalamazoo Beet Sugar company has been coming in well at the factory and will probably start the run next Monday.

MARRIED AT SOUTH HAVEN

Frank H. Bruen Weds Miss Blanche A. Hall.

Frank H. Bruen and Miss Blanche A. Hall, both of this city, were quietly married by Rev. W. P. Law at the Episcopal parsonage on Huron street, Thursday evening. Mr. and Mrs. Bruen left on the Petoskey for Chicago and from there they will go to Iowa and Nebraska to spend a few days, after which they will return to South Haven. They will reside in their newly furnished rooms in the Walton, corner of Erie and Kalamazoo streets. Mr. Bruen is a well known fruit buyer and the bride has been a long time and valued employe in the Tribune office.—South Haven Tribune.

NEW YORK, Oct. 8.—(Associated Press)—Judge Lacombe of the United States circuit court, today dismissed the writ of habeas corpus in the case of Wardman of Bissler, recently convicted of accepting a bribe from a keeper of a disorderly house. The case will be appealed to the supreme court of the United States.

ALBION MAN

Pitched From Roof But Will Likely Recover.

ALBION, Mich., Oct. 8.—(Special)—John Groff pitched headlong from the roof of the house he was shingling this morning, striking the sidewalk on his head and shoulders. Both arms were broken at the wrists and he sustained other injuries about the head. He will probably recover.

Dr. Krause Arraigned to Answer to the Charge.

LONDON, Eng., Oct. 8.—(Associated Press)—Dr. Krause, former governor of Johannesburg, who was arrested September 2 on a charge of high treason, was arraigned today and charged with high treason and incitement to murder. The former charge is connected with the surrender of Johannesburg, when according to the public prosecutor, Krause had obtained from Roberts a twenty-four hour armistice on the plea that street fighting would thereby be obviated, and utilized the period in getting all the Boer fighters out of town and sending £180,000 to Pretoria. After Krause was paroled he went to Europe and applied to Dr. Leyds, agent

HOW THAT CHART

Of the Battle of Santiago Was Made.

WAINWRIGHT TELLS IT

Impossible to Get All the Positions Correct.

He Did Not Think the Loop of Brooklyn Was Put Down Right.

WASHINGTON, D. C., Oct. 8.—(Associated Press)—After the usual preliminaries in the Schley court today Lieut. C. W. Dyson, of the bureau of steam engineering was recalled to continue his testimony regarding the coal supply of Schley's flying squadron at the time of its arrival off Santiago harbor May 26.

He was brought in this morning at the instance of Schley's counsel for the purpose of giving further testimony concerning the availability of coal supply in chasing the enemy. It was the understanding when court opened that Commander Richard Wainwright who commanded the converted yacht Gloucester would be principal witness of the day and that after he was excused Messrs. Bristol, Grant and Potts would be called in the order named. The last mentioned are all watch officers of the various vessels of the American fleet July 3 when the naval engagement off Santiago was fought.

Lieut. Dyson testified as to the condition of the Brooklyn's engines the day of the battle and detailed all that was done to get up steam aboard that ship when the Spanish fleet came out. Lieut. Commander Hodgson then corrected some errors in his testimony.

Wainwright Called.

Commander Wainwright was then called. After Capt. Lemly had brought out the fact that he was a member of the board which made the official chart of the battle off Santiago, the witness told how conclusions were reached by the board. He said: "When I reported as senior member of the board, the board of navigators had a sketched chart before them with a number of positions sketched on it which had been determined by them, starting at different periods; first when the ships came out, afterwards when they went ashore. Each navigator as near as possible would put in the position of his ship at that time. There was a great deal of discussion as to relative positions. Of course it was impossible to get any position by bearings and there was nothing known about relative positions. We also knew that the distances on the chart were somewhat incorrect and the final decision of the board was to reconcile each one as near as possible, but none of the positions were considered exact positions. The impossibility of getting bearings even if we had had a correct chart was apparent. But it gave a general idea of the positions of the vessels during the different periods of the battle."

He said most of the positions were fixed by discussions among the navigators constituting the board although Capt. Chadwick was before the board. The navigators had done the best they could in plotting the vessels, and had made it as nearly correct as possible, so long after an engagement as has been stated by the board. Asked by Rayner about the places assigned the Brooklyn and Texas while the former vessel was making the loop, Wainwright said he did not consider them correct.

Members Not Satisfied.

He said further that while the board had done the best it could at the time as a board it had not done the best it could to satisfy any member of the board. "It was the best we could do to get all the members of the board to sign the report," he said. "Who in addition to yourself was not satisfied?" asked Rayner. "I would not like to say," responded the witness. "I know the navigator of the Texas was not for one." "I think none was satisfied except the navigator of the Brooklyn, and I don't know that he was." "But notwithstanding you all signed the report." "That is correct." On redirect examination Wainwright

said that in making the chart all the members of the board were at liberty to contribute whatever data they had or make whatever arguments they might desire, and also said the chart was a compromise of opinion. After some further questioning Wainwright was excused and Lieut. Bristol, formerly watch officer of the Texas, took the stand. Court recessed for luncheon before he had more than related the arrival of the Texas at Cienfuegos.

30 YEARS AGO TODAY

The Telegraph Told of the Chicago Fire.

Thirty years ago today the big fire broke out in Chicago. Many people now living in Chicago will remember this catastrophe. The Telegraph of Oct. 9, 1871, said: "The fire fiend which has been playing its awful work in Chicago since 10 o'clock last night has devoured the very heart of the city. As yet we have received but scant information of the terrible calamity. The Western Union Telegraph office has been destroyed and consequently no news has been directly transmitted over their lines. The loss is almost inconceivably enormous, and the calamity shocking and appalling. Rich men's fortunes and poor men's livings—the fortunes of a day and the hard-earned savings of a life-time—almost beyond estimation—have been swept away in the twinkling of an eye."

The dispatches to the Telegraph were headed: "Chicago in Ruins—One-half the city burned—Fire still raging—Appalling Calamity—Enormous loss of property and great loss of life—150,000 people homeless and without food—Generous offers of relief from cities and people."

Oct. 10 dispatches to the Telegraph were headed: "The fire fiend checked at last—Nearly 200,000 people homeless."

FOUR KILLED

In a Railroad Wreck in Vermont.

UTICA, N. Y., Oct. 8.—(Associated Press)—One of the worst wrecks in the history of the Mohawk division of the New York Central occurred this morning at the village of Oriskany, seven miles west of here. Killed: SPENCER SHANNON, Schenectady, engineer. GEORGE PALMERTON, Rensselaer, fireman. WILLIAM WIER, Albany, brakeman. ARGYLE SMITH, Rensselaer, fireman.

Injured: James Hager, Albany, seriously. An east-bound freight engine collided with a light engine which was crossing track 3 to track 4, thus causing the wreck. The only man who escaped alive was Engineer Hager of the light engine, who was hurled through the window of his cab.

ALL PASSES

To be Abolished by the Railroads.

NEW YORK, Oct. 8.—(Associated Press)—The committee appointed by the Central Traffic association of the Western Passenger association, and the trunk line association a year ago has unanimously reported all passes should be abolished, even the courtesy of one president of a road to another. This action will be reported to the associations for ratification.

IN MANISTEE

Next State Encampment Is to be Held.

GRAND RAPIDS, Mich., Oct. 8.—The next encampment of the state troops will be held at Manistee, as previously stated. Gen. George A. Hart, of Manistee and Quartermaster Gen. Kidd of Ionia met at the Morton here Monday and concluded negotiations between the state and Gen. Hart for the grounds for next year under conditions that the contract shall be approved by the state military board, the members of which will be here today with Gov. Bliss to attend the festival. It is probable the contract will be approved, as every concession demanded by the quartermaster was granted by Gen. Hart, owner of the grounds occupied by the troops last August.

Workman Found Skeleton in Sprague Street.

DUG UP BONES

With Feet and Head Twisted Out of Place.

Locality Has Been Deserted Until Lately—No Clue of Identity Found.

A workman digging in a sand pit in Sprague street this morning found an almost complete skeleton twisted into a narrow space some six feet below the surface.

The bones are in a good shape of preservation and a local physician upon examination ventured the opinion that they are of a girl from 16 to 20 years of age. A part of the pelvis is missing, but from what remains and the size of the bones the physician thinks they are of a girl or young woman. A dentist who examined the teeth, is firm in the belief that their size, the number and the way they are worn, indicate a middle aged man—possibly a woman.

The discovery was made by a laborer who would not give his name but is employed by T. J. Sales, who is now excavating on Sprague street for gravel which he is using for filling under sidewalks on Michigan avenue.

The laborer was digging about 40 feet from the sidewalk in a sand bank when his spade struck the skull, which rolled out at his feet. He at once notified Mr. Sales, who in turn notified a Telegraph reporter, and the two proceeded to Monroe street and dug out the bones, which were buried about six feet from the surface and in a hole 22 inches wide and 24 inches long.

The body had evidently been buried in the greatest haste and simply dumped into the hole. The head was crowded upon the breast, owing to the smallness of the hole, while the lower part of the body pointed toward the surface. The legs were bent around from the body in a most unnatural manner.

Not one thing could be found which would give the slightest clue as to how or when the body was buried, but it is thought that it has been in the ground about 50 years. Physicians say that the bones are of a white girl. The skull and jaw bone are in an excellent state of preservation, the teeth being almost all in place, and in good condition.

The ground was all turned over around the spot where the bones were discovered and not even a nail, screw or piece of leather was found. Sprague street is practically a new street running north from Michigan avenue to Grand avenue, and has but a few houses which, with one exception, have all been recently built. A short time ago it was one of the most desolate places in the city, being covered all over with small trees and underbrush.

The finding of this skeleton recalls the skeleton of a middle aged man which was found last summer on Ernest Crower's place overlooking the Kalamazoo river opposite Riverside cemetery on Seminary street. The "little old woman in black," who was said to have put flowers on the Brower grave, is lacking in this case and robs it of much romantic interest. Nothing but blossoming ragweed was found on the Monroe street grave. The two incidents bring back pioneer times to the minds of old residents—the days when there were no cemeteries and a man buried the members of his family on his farm, or if he lived in the little village, carried them to some spot overlooking the valley and laid them at rest wherever fancy dictated.

The position of the body, seemingly dumped into a square hole without cemetery or care, marks the grave of one never held dear by sorrowing relatives, and seems to indicate that the burial was hastily performed by someone who, for good reasons or bad, sought only to dispose of it in the shortest time and smallest space.

ITALIAN STRIKERS

Tie Up Work on the Grand Rapids-Holland Road.

GRAND RAPIDS, Mich., Oct. 8.—One hundred Italian laborers on the Interurban road, from this city to Holland and Lake Michigan, went on strike Monday because the Detroit Construction company failed to pay them and took possession of the road. The company started a construction train out with 25 American laborers aboard to work on the line between Holland and Jamestown, but the Italians met the train with piles of ties and other obstructions, drew knives and guns, and refused to let it proceed. All work is suspended and the line tied up until the trouble is adjusted.

UP FOR SENTENCE

For His Crime Against the United States.

TO THE EIGHTH COUNT

Which Charged Him With Omitting Certificates

From His Report to the Controller—He Says He is Guilty.

Not Expected That He Will Attempt to Implicate Others in the Deal.

GRAND RAPIDS, Mich., Oct. 8.—(Special)—C. A. Johnson charged with wrecking the First National bank of Niles, Mich., while acting as cashier pleaded guilty this morning in the United States district court to charges of violation of the United States banking laws.

Johnson's defalcations amounted to more than \$100,000.

He pleaded guilty to the eighth count in the indictment. The court charges omission of certificate of deposits in his report to the comptroller of the currency. The judge questioned Johnson whether he understood the charge to which he was pleading and he answered "Yes." It is not likely Johnson will say anything to implicate others in the failure of the bank.

SNEAK THIEVES BUSY

Ransacked One House, Entered Another.

Thieves entered the residence of F. W. Myers on Woodward avenue, Monday evening about 6 o'clock while the family were at supper, and ransacked the whole house without being discovered. Nothing of value was found by them. Of all the burglaries which have been committed lately, this is the boldest. The burglars had the nerve to enter the rooms adjoining the dining room where the family were, and noiselessly looked in every corner where things of value might be found. About all they secured, however, was an empty pocketbook and two bureau drawers. The officers were not notified and the identity of the thieves is not known.

Another incident which appears like an attempted robbery occurred a few days ago at the home of William G. Pattison in north Edwards street. The screen door had been left unfastened and Mrs. R. A. Stone heard someone enter. She went into the front part of the house and discovered a well dressed man part way up the stairs. He appeared somewhat confused and asked if it was a boarding house. Mrs. Stone sharply informed him that it was not and that he had better get out of the house in double quick time. As he

She did not know him but said that he was well dressed, having a cane, kid gloves, etc. The innumerable robberies that have been committed in the city of late point to the conclusion that there is an organized gang at work and this occurrence leads to the belief that the members are not all of the common class of thieves.

TWO NEGROES

Hanged for the Murder of Prof. White.

PHILADELPHIA, Pa., Oct. 8.—(Associated Press)—Henry Ivory and Charles Perry, negroes, were hanged today for the murder of Prof. White, of the law department of the University of Pennsylvania, May 19. White was attacked on the street near the university at night, beaten to death with an iron bolt and robbed. Ivory and Perry were arrested, and after being "sweated" by the police confessed to complicity in the crime, but charged the actual murder to Amos Sterling. The latter was also convicted and is now awaiting sentence.

The men met death bravely and neither made any statement on the gallows. Ivory was quickly strangled to death but the knot slipped under Perry's chin and it was some time before life was extinct.

Kalamazoo, Mich., Sept. 13, 1901.

Kalamazoo Gas Company, City.

Dear Sirs:—I have used your Gas House Coke for heating my residence for the past five or six years, and I have found it very satisfactory and economical fuel. I believe that 50 bushels of your coke will go as far as a ton of the very best hard coal, and it is no more work to take care of a coke fire than it is of a hard coal fire.

Yours very truly, F. A. TAYLOR.

Kalamazoo, Mich., Sept. 23, 1901.

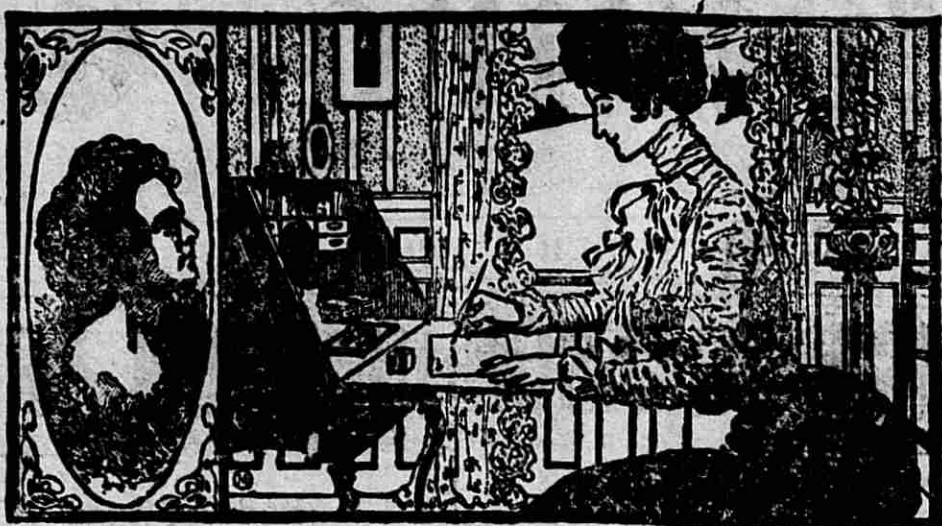

Kalamazoo Gas Company, City.

Gentlemen:—Having used your coke for heating almost continuously the last fifteen years, I am prepared to recommend it as an economical fuel and satisfactory in every respect.

During this time I twice tried a little oven, or crushed coke, a little soft coal, a few tons of hard coal, and some wood, with the result that I shall continue the use of the Kalamazoo Coke.

Yours respectfully, S. H. McILVAINE,

No. 1231 Sherwood Ave., City.

Miss Marion Cunningham, the Popular Young Treasurer of the Young Woman's Club of Emporia, Kans., has This to Say of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Your Vegetable Compound cured me of womb trouble from which I had been a great sufferer for nearly three years. During that time I was very irregular and would often have intense pain in the small of my back, and blinding headaches and severe cramps. For three months I used **Lydia E. Pinkham's Vegetable Compound**, and aches and pains are as a past memory, while health and happiness is my daily experience now. You certainly have one grateful friend in Emporia, and I have praised your Vegetable Compound to a large number of my friends. You have my permission to publish my testimonial in connection with my picture. Yours sincerely, MISS MARION CUNNINGHAM, Emporia, Kans."

NO ARGUMENT NEEDED Every Sufferer from Catarrh Knows That Salves, Lotions, Washes, Sprays and Douches Do Not Cure.

Powders, lotions, salves, sprays and inhalers cannot really cure Catarrh, because this disease is a blood disease, and local applications, if they accomplish anything, at all, simply give transient relief.

The catarrhal poison is in the blood and the mucous membrane of the nose, throat and trachea tries to relieve the

system by secreting large quantities of mucous, the discharge sometimes closing up the nostrils, dropping into the throat, causing deafness by closing the Eustachian tubes, and after a time causing catarrh of the stomach or serious throat and lung troubles.

A remedy to really cure catarrh must be an internal remedy which will cleanse the blood from catarrhal poison and remove the fever and infection from the mucous membrane.

The best and most modern remedies for this purpose are antiseptics scientifically known as Eucalyptol, Guaiacol, Sanguinaria and Hydrastin, and while each of these have been successfully used separately, yet it has been difficult to get them all combined in one palatable, convenient and efficient form.

The manufacturers of the new catarrh cure, Stuart's Catarrh Tablets, have succeeded admirably in accomplishing this result. They are large, pleasant tasting lozenges, to be dissolved in the mouth, thus reaching every part of the mucous membrane of the throat and finally the stomach.

Unlike many catarrh remedies, Stuart's Catarrh Tablets contain no cocaine, opiate or any injurious drug whatever and are equally beneficial for little children and adults.

Mr. C. R. Rembrandt of Rochester, N. Y., says: "I know of few people who have suffered as much as I from Catarrh of the head, throat and stomach. I used sprays, inhalers and powders for months at a time with only slight relief, and had no hope of cure. I had not the means to make a change of climate, which seemed my only chance of cure. "Last spring I read an account of Stuart's Catarrh Tablets and promptly bought a fifty cent box from my druggist and obtained such positive benefit from that one package that I continued to use them daily until I now consider myself entirely free from the disgusting annoyance of catarrh; my head is clear, my digestion all I could ask and my hearing, which had begun to fail as a result of the catarrh, has greatly improved until I feel I can hear as well as ever. They are a household necessity in my family."

Stuart's Catarrh Tablets are sold by druggists at 50 cents for complete treatment and for convenience, safety and prompt results they are undoubtedly the long looked for catarrh cure.

Miss Lella Nelson entertained at 6 o'clock dinner Saturday. The following young ladies were present: The Misses Emma Hobbs, Helen Edfeldt, Hebe Hunt, Emma Travis, Winifred Cheney, Mabel Frobenius, May Travis, Bessie DeHaven, Jessie Weed and Kitte Livelsberger. COMING EVENTS. Oct. 23-24—Mason: Reunion of 12th Michigan. Dec. 16-20, Kalamazoo—Southwestern Michigan Poultry and Swine Show. Jan. 7-10, Battle Creek—Annual show State Poultry association.

John Reisterer petitioned to be allowed to erect a dwelling house on lot 5 in block 25, original plat. On motion of Alderman Brenner the request was granted.

B. Schoonmaker announced in writing that he withdraws his petition regarding the line of the sidewalk in front of his place. Placed on file.

Mayor Mills brought up the matter of appointing an inspecting plumber which is required by the state laws.

H. L. Bishop appeared before the council and represented that he had a lot on Krom avenue on the outskirts of the city where a sidewalk had been ordered in while there are several lots nearer the center of the city on the same street which have no sidewalks and where sidewalks have not been ordered in. Referred to street and bridge committee.

Pass Up Himold. An invitation from the council of the city of Grand Rapids to the mayor and members of the city council to attend the Himold Festival in that city was received. The invitation was acknowledged and regrets sent.

Alderman Westbrook recommended that the petition of the Michigan Telephone company regarding erection of poles on Portage street be granted. On his own motion it was granted.

The petition of George Clark of the Clark engine works for a sidetrack from the Michigan Central railroad was laid over for a week. The committee on streets and bridges reported favorably but it was desired by some of the aldermen that the matter be looked into more thoroughly.

Alderman Hoek, chairman of the sewer committee, reported favorably on the petition of Mrs. Coon concerning a rebate on work done in finding obstruction in city sewer.

The aspirants to the honors of the city assessorship were given another chance to worry over the appointment Monday night by Mayor Mills' declining to appoint anyone in place of George C. Winslow.

He has several names under consideration, it is said, which might please the Democrats but so far Winslow is very much "it." He said that there was no special need and that a special session later in the week would do just as well. It is necessary that the matter be disposed of, however, before the meeting of the board of supervisors, which will be next Monday. The council finally adjourned until Friday night when it is necessary that the matter be settled.

Mayor Mills refused to approve of the resolution passed recently concerning the opening of Edwin avenue as it would cost too much in the present financial condition of the city. He also refused to approve of the resolution to buy 1,000 loads of gravel from Lane and Lay on the same grounds.

The resolutions concerning the vacancy of the office of city assessor and the one appointing R. R. Brenner to the vacancy were illegal he said and so could not be approved.

Alderman Levy brought in the long looked for smoke ordinance which was laid on the table for one week. It provides for the using of smoke consumers on all smoke stacks in case the smoke from those stacks becomes a nuisance and for a penalty in case the ordinance is not obeyed.

Bunch of Petitions. The Michigan Telephone company petitioned that three poles be located for them in Gordon place from Seminary street west to the river. To committee on streets and bridges.

F. DeKubber petitioned that his personal tax be rebated as he is 84 years of age and his property brings him in barely enough to live upon. To finance committee.

I. J. Hackley petitioned the council to help him out as the trade in his barber shop is entirely gone since it was quarantined for smallpox. City health officer and health committee.

Thirteen citizens petitioned that an electric light be placed at the corner of Church and Bessie streets. To committee on lighting.

A. F. Pierce and ten other citizens petitioned for an electric light on the corner of west Ransom street and Prairie avenue. To committee on lighting.

John Reisterer petitioned to be allowed to erect a dwelling house on lot 5 in block 25, original plat. On motion of Alderman Brenner the request was granted.

B. Schoonmaker announced in writing that he withdraws his petition regarding the line of the sidewalk in front of his place. Placed on file.

Mayor Mills brought up the matter of appointing an inspecting plumber which is required by the state laws.

H. L. Bishop appeared before the council and represented that he had a lot on Krom avenue on the outskirts of the city where a sidewalk had been ordered in while there are several lots nearer the center of the city on the same street which have no sidewalks and where sidewalks have not been ordered in. Referred to street and bridge committee.

THE ST. JOSEPH VALLEY

To Have a Mammoth Power Plant—Details of Scheme.

SOUTH BEND, Ind., Oct. 8.—North- ern Indiana, Chicago and eastern men are at the head of an enterprise which, if successfully carried out, will prove one of the greatest steps ever taken in the industrial advancement of the St. Joseph valley. Under the name of the St. Joseph & Elkhart Power company, they are arranging the preliminaries for a 9,000 horse power electrical plant to be built six miles above this city, the power to be derived from the St. Joseph river. Waterilet, Benton Harbor, St. Joseph, Niles, Buchanan, Dowagiac, Laporte, South Bend, Elkhart, and all other towns in southwestern Michigan and northwestern Indiana within a radius of twenty-five miles will be furnished with power at a rate so low that other means for operating factories and supplying light will be distanced.

The company owns the Elkhart light- ing plant and has a franchise from this city to furnish light and power. It is also being organized known as the Berrien Springs Power company, whose light with Mr. Chapin, the Niles millionaire, over the water power rights in the St. Joseph river at Berrien Springs has just been terminated in victory for the company.

The preliminary work is progressing rapidly under the most favorable conditions with a large force. No work on the dam proper will be started until next spring, at which time the river will be turned from its course and on the dry bed of the stream work will be pushed to complete the structure within two months. It is not likely, however, that the plant will be in working order within less than a year from now.

The power house will be erected on the south side of the river, and will be built of specially prepared concrete which will be made on the grounds and compressed in oblong bricks. The foundation will be of solid concrete, to be laid on a network of 5,000 round piles driven down to hard pan. The concrete itself will begin seventeen feet below the present water level. The motive power for the plant will be furnished by thirty large turbine wheels connected tandem in six units of five turbines each, thereby making provision for six alternating three- phase generators of 800 kilowatts capacity which will be directly connected with the six units. The water will enter the station by means of a head race 2,000 feet long and fifteen feet deep, the channel for which is being gradually prepared now so that the river can follow this course when work on the dam is begun. A coffer dam will be built in the river below the head opening of the race to cut the water off from the scene of operations, and meanwhile, work will be kept up on the power station so that it will be finished and ready for operation by the time the big dam is also ready. This latter will be a trifle more than 400 feet in length and will project twenty-one feet above the water level. It will be built of cement and will cross the river almost at right

angles, just above what is known as Hen Island. As the back water will extend to the river nine miles, a respectable lake will result. The company now owns outright or has leases of nearly all the property which will be affected by the back water, though it is meeting with some opposition.

In leaving the station the water will pass through a tall race 600 feet long. In excavating for this a fine quality of gravel, admirably suited for concrete work, was found and will be used in the foundation for the power station itself. The work of construction is being done by a New York company. The machinery now on the ground gives the place the appearance of a well established factory. In order to furnish the 1,500,000 feet of sheet piling which is to be used, a small sawmill has been installed, the logs consumed being cut from the company's land in the vicinity of the proposed dam. To facilitate the handling of the timber a 570-foot boom was thrown across the river to catch the logs as they are floated down. They are allowed to lie in the water until wanted and are then hauled to the mill by a huge steam derrick which handles the timbers as though they were so many wisps of straw. There are nearly a dozen engines of various sizes and capacities on the grounds and steam for all is generated in the large boiler and is distributed about the plant through a five-inch pipe, which to avoid freezing is wrapped in asbestos and buried in the ground. It is the company's intention to continue work without interruption through the winter.

A big steam pile driver, run by a portable engine, is driving stake piling to keep the high banks from caving in as the excavations are made, and will be utilized later on the foundation for the power house. The loose nature of the ground, the existence of quick sand and the appearance of water very near the surface will make excavating for this exceedingly difficult and the utmost precaution is being taken. The piles being driven around the edges of the excavation are set as closely together as fitted into a one and one-half inch groove in the side of each pile, are so joined together that a solid wall is almost impervious to water.

The company's equipment also includes carpenter and blacksmith shops, each supplied with steam power machines, a store room fitted with all necessary supplies and fixtures, cement sheds, a cement storehouse with a capacity of 20,000 barrels, the amount estimated necessary in the construction of the dam, and an abode for the workmen employed. These at present are practically all Italians, with the exception of the contractors. A two-story office building has also just been erected as a base from which to conduct the engineering operations, and when the work is completed, this building will be turned over to the company's engineer as a permanent residence. A side track from the Lake Shore road runs directly to the base of operations. The plant when completed will have cost \$500,000.

RURAL DELIVERY

Superintendent Machen Wants an Increase in Appropriation.

WASHINGTON, D. C., Oct. 8.—Superintendent Machen of the free delivery service has asked the postmaster-general to recommend an appropriation of \$6,250,000 for the maintenance and extension of the rural free delivery service in the fiscal year beginning July 1, 1902. This is an increase of \$2,750,000 over the appropriation for the fiscal year, but Mr. Machen says he will be able to use it all.

On Oct. 1 there were 5,310 routes in operation in all parts of the country. By the end of the fiscal year, June 30, 1902, there will be 8,600, if the plans of the department are carried out. With the increased appropriation asked for 5,000 additional routes will be put in operation next year. Nearly all of the \$2,750,000 increase will be expended in payment of salaries of carriers and equipping routes, etc. Only a small portion will be expended for inspection or other necessary executive functions to the service.

The rural free delivery force in Washington, and the inspection service in the field is now well organized, and can take care of any amount of additional work, so that few, if any, new route inspectors or special agents will be appointed next year.

Mr. Machen proposes to distribute this enormous fund in equal proportions throughout the country. All sections will be treated alike, and the middle west, northwest and far west will get that proportion of the natural increase to which each is entitled. It is probable, therefore, that scores of new routes will be established in these sections where the demand for the new service has been very great.

TREASURY DEPARTMENT

Makes a Good Showing for the Month of September.

The comparative statement of the receipts and expenditures of the treasury department for the month of September shows that the total receipts for the month were \$44,434,422 and the total expenditures were \$32,310,736, a surplus of \$12,123,686, the largest surplus of any single month in a long time. The receipts from the different sources for the month were as follows: Customs, \$19,160,618; internal revenue, \$22,433,063; miscellaneous, \$2,840,755.

For the three months of the present fiscal year the total receipts have been \$142,148,888 and the expenditures \$123,969,824, a surplus of \$18,179,064. For the same period of the last fiscal year the receipts were \$144,948,242 and the expenditures \$143,649,323, a surplus of only \$1,298,919. The great surplus of the three months of this year is not due to an increase in receipts, as is seen, but to a decrease in expenditures. On account of the war department the expenditures so far this fiscal year have been \$31,695,074, while for the same period a year ago the expenditures had been \$48,202,109, a decrease of about \$16,507,035.

Government receipts from internal revenue to-day were \$355,204; customs, \$37,982; miscellaneous, \$98,169. Expenditures, \$2,060,000.

EDWARDSBURG

EDWARDSBURG, Mich., Oct. 8.—(Special).—Steven Tallerd, the only son of John W. and Mary A. Tallerd of Jefferson township, northeast of here, died at Fargo, N. D., Tuesday, Oct. 1, 1901, after a short illness of typhoid fever. Steven went to Montana last April and was returning home when stricken with the fever and was obliged to stop at Fargo, where his cousin, Dick Atkins, lives. His mother was sent for and arrived there the day before his death. His remains were brought home and the funeral services were held Friday, Oct. 4, 1901, at 2:30 p. m., at the White church, the Rev. J. Riddick of Cassopolis officiating. The burial took place in the Reams and Norton cemetery. Steven Tallerd was born in Jefferson township, Sept. 3, 1873, and always lived there, with the exception of a few years spent in Nevada when a child and the last summer in Montana. He graduated in his home school, also the Cassopolis high school, Guy Eggleston of this place, a life-long friend of his, attended the funeral. The choir of the Methodist and Presbyterian churches are preparing special music

SENATOR DEFEW

Discusses the Qualities of a Wife.

The announcement that Senator Defew was soon to marry, induced a reporter to ask him what qualification he desired of a wife. In answer the senator said: "In my case, being a public man, a wife would have to be handsome. Then she would have to be attractive, for she would have to represent me at the head of my table. I would also want her to be a woman who could win men whom I could not reach. Mrs. Logan was such a woman. She did much to make John A. Logan what he was. Besides this, I should like to have my wife be fond of her dressing gown and slippers and spend her evenings at home. As to age, she may be anywhere from 25 to 75. You see, I am liberal as to age. Youth is not always a most necessary requisite in a bride." Mr. Defew is 67, his prospective bride 26.

MRS. FELLOWS

Entertains a Party of Ladies in Oshtemo.

OSHTEMO, Mich., Oct. 8.—(Special).—Thursday afternoon Mrs. Henry Fellows entertained the elderly ladies of the village in honor of her mother's 79th birthday. The guests sat down to a well laden table, each receiving a card of remembrance and all left wishing "grandma" Williams many happy returns of the day. No one under 50 years of age was invited, the combined ages of the guests was 1068 years. The following ladies were present: Mesdames Phyllida Williams, Mary Robb, Matilda Alexander, Eliza Drummond, Mary Field, Annette Rickard, Eliza Clapp, Elizabeth Graves, Jane Fellows, Mary Hudson, Eliza Foster, Julia Bright, Lizzie Woolsey, Mary Kinney, Teresa Bolles, Eliza Warner.

MRS. BRATTON

Claims to Own the Whole Town of New Buffalo.

ST. JOSEPH, Mich., Oct. 8.—The largest case ever recorded in the history of Berrien county was filed in the county clerk's office at noon Saturday. Mrs. Bratton of Packard Station, Mich., 15 miles south of this city claims a legal title to all of the land now owned by the village of New Buffalo, this county. Mrs. Bratton, in her declaration, claims her father, Adam Smith, was the first white man who settled in Niles. The house was built on an old Indian reservation in 1827. In 1830 Smith bought considerable land. Including in the sale was a 60-acre piece, which is now the site of New Buffalo.

MANY FRIENDS

Attended the Funeral of Captain Douglass.

TEXAS, Mich., Oct. 8.—(Special).—Mrs. George W. Douglass, Mr. Samuel Douglass, Mr. and Mrs. James E. Hill, J. S. Burdick of this town, and Mr. and Mrs. Van Pelt of Lacota, also many from Kalamazoo attended the funeral of Capt. Richard Douglass at Augusta last Saturday. Capt. Douglass was formerly a resident of Texas, being the last surviving member of his father's family. Capt. Douglass served his country in the civil war and after four score years of active life has passed to spirit life leaving an honorable record.

STOCKBRIDGE SLEEPER

Is Now on the Road to Recovery.

STOCKBRIDGE, Mich., Oct. 8.—One of the most remarkable cases on record is that of Miss May White, who for more than ten years has battled against sleep and has won. This case has been the study of medical men through the length and breadth of the land. The newspapers at the time were filled with the story of the "Stockbridge sleeping girl." As the years passed on people forgot about it and only occasionally one would ask about her, but Miss White still slept, not a peaceful sleep, on the contrary a sleep that sapped her life and wasted her flesh.

While attending a business college at Ypsilanti in 1890, taking a course of shorthand and bookkeeping, Miss White, at that time 22 years old, sustained injuries to her spine by a fall upon the icy pavement, which caused an abscess in her side. She was removed to her home in Ingham township, ten miles from this village, and placed under the care of Dr. Herman E. Brown. Her case soon developed into hysteria, epilepsy and she had from one to fifty convulsions in a day. Then began her long sleep, and for twenty-six days she slept, while the doctor worked for hours trying to awaken her and only for a few moments would she remain awake when she would relapse into a deep slumber. For years no one was able to awaken her but the doctor, although many tried to do so. She is now so far recovered as to be easily awakened by anyone. Dr. Brown found the long ride of ten miles through all kinds of weather too much for him and so he had her removed to his residence in town where the past ten years she has been. All this time her faithful sister, Miss Carrie, has been her constant attendant. Many in the medical profession interested themselves in this strange case but after inquiry or examination would wag their heads and pass it as a "doubtless case," but Dr. Brown did not give up hope, and to-day he has the satisfaction of knowing his patient is on the road to recovery, being able to go to sleep and awake at will.

During her long illness she lost the use of her limbs, but the doctor thinks she will regain it yet. For the past few years she has occupied a wheel chair. At one time during her sickness she was reduced to 65 pounds but now tips the beam at 120 pounds. Before attending college she had taught several terms of school and was a young lady of sterling worth. During her waking hours she did much fine embroidery, being an expert needleworker, her work always finds a ready sale. She was also a great reader, and not like Rip Van Winkle, kept up with the times.

OTSEGO ALSO

Extended the Franchise for Patterson Road.

OTSEGO, Mich., Oct. 8.—(Special).—W. H. Patterson of Grand Rapids and the promoter of the Grand Rapids, Kalamazoo and South Haven Traction company was here Saturday and met with the township board and asked that the franchise granted their company to build and operate an electric road through this township which would expire Jan. 1st, 1902, be extended, which was granted by the township board. The village board will probably be asked for the same favor.

A Fiendish Attack.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at E. M. Kennedy and H. G. Colman & Co's drug store.

What Digests what you Eat

Dyspepsia Cure

When the stomach is diseased all the other organs suffer, hence fatal diseases of the heart, liver, lungs and kidneys are often the result of improper digestion. KODOL DYSPEPSIA CURE contains all the natural digestive fluids and by digesting what you eat, it cures the indigestion without aid from the stomach, allowing it to rest and regain its healthy condition and permitting you to eat all the good food you want. "My rest is often disturbed at night by irregular heart action which I believe is on account of my stomach being overloaded with undigested food. I keep a bottle of KODOL DYSPEPSIA CURE nearby and a small dose always gives me instant relief." Ed. Thomas, Leitichoff, Ky.

How the Amount of State Tax is Divided Up.

Table with 2 columns: Category and Amount. Includes Lansing, Mich., Oct. 8.—(Special).—The amount of state tax apportioned to Kalamazoo county, under the various acts of the legislature, is as follows: University \$7,500.00; University 57.03; University \$950.51; Agricultural college 1,901.02; State normal college 1,937.83; State normal college 315.10; Central Michigan normal school 1,615.87; Central Michigan Normal school 118.81; Northern state normal school 218.62; Northern state normal school 1,285.66; Michigan college of mines 1,480.42.

THE BREATH TELLS

How the Results of Constipation Infect the Blood and Every Part of the Body.

The process of decay in matter remaining in the lower bowels is very rapid and from it are generated poisonous gases and other substances which nature demands should be completely removed from the body as soon as possible. That many of these foul elements which are generated in the intestines pass into the circulation is demonstrated by the direct evidence of an "ill-smelling breath"—caused by gases which result from an impure diet, and the unhealthy condition of the stomach and bowels. In every case the breath becomes purplish and sweet, showing that the cause of the unpleasant odor has been removed. If you do not constipate show yourself in a foul breath, but the perspiration often takes on a disagreeable odor. There is, in fact, not one little gland in the whole body which does not have its regular, natural burden added to by these poisons which come through the blood, irritating every nerve and fiber. Alma-Bromo Salt not only causes a natural, healthy cleansing of the bowels but it also acts upon the kidneys and liver, aiding them in their constant effort to keep the blood pure. The fact that it is most agreeable to the taste, being delightfully effervescent, is one of the strong points in its favor. The day's nastiness is removed by its use. It is Nature's own remedy, introduced here in the wonderful Alma-Bromo Springs at Alma, Mich., more than half a mile below the Bar's store. Taken on arising in the morning on an empty stomach it secures a perfectly natural movement of the bowels and that feeling of freshness and vigor which makes the day's duties no burden. In cases of habitual constipation it brings about a complete and permanent cure in a short time and does not induce the "medicine habit."

STATE TAXES.

There is absolutely no necessity for the stupendous increase in state taxes—none whatever. There is no good reason why a tax of nearly four million dollars should be levied this year when a tax of one and one-half millions was sufficient ten years ago.

The legislature of 1891 starved the state institutions, and the legislature of 1893 was obliged to appropriate more money to make up the deficit and put the state institutions on a solid basis.

There were 17 state institutions in 1891; there are 21 state institutions in 1901. The cost of the maintenance of the insane was borne by the counties in 1891; now (after one year) they are state charges.

Every state institution that was in existence in 1891 has grown and expanded, and requires more money.

It is absolutely false to state that the increase "goes largely to pay the expense of useless offices and to satisfy an army of grafters now living off the state."

The population of Michigan in 1891 was 2,100,000. The population in 1901 is 2,500,000.

THE CANAL TREATY.

According to the Chicago Record-Herald the United States and Great Britain have reached an agreement concerning the isthmian canal question and the new treaty will be presented to the senate for its ratification early in the coming session.

The substance of this treaty provides: "1. For abrogation of the old Clayton-Bulwer treaty in toto."

"2. For a neutral isthmian canal, in case one be constructed by the United States, open in time of peace to the ships of all nations upon equal terms."

"3. This neutrality is guaranteed by the United States alone, and other maritime powers are not invited to participate in such guarantee. Great Britain is inferentially one of the guarantors, because she is a party to this treaty."

"4. In case of war the United States reserves the right to take such steps for its own protection as it may deem proper."

The United States is to build and control the canal. This is an important point and the people will rejoice. President Roosevelt will touch upon this matter in his forthcoming message.

The Kansas supreme court recently held that "all places where intoxicating liquors are sold or kept for sale, or places where persons are permitted to resort for the purpose of drinking the same, are declared by statute to be common nuisances, but this fact does not justify their abatement without process of law and the destruction or injury to property used in aid of the maintenance of such nuisances, except in the manner provided by the statute, is a trespass."

Thirty years ago today the great Chicago fire started. The result of the three days' conflagration was the destruction of property valued at \$192,000,000 including 20,000 buildings, rendering 98,500 people homeless.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail.

UP TO MUSKOGON

Kalamazoo Takes on Fast Team Next Saturday.

HOME ELEVEN WORKING HARD

With Bright Chances for State Championship.

Date of Grand Rapids Game May Be Changed—Other Sporting News.

One of the fastest games of the football season is promised on the college campus next Saturday between Muskegon and Kalamazoo high schools.

Muskegon is one of the fastest teams in the state. Although she lost to Grand Rapids last Saturday it was after a hard fought game from start to finish.

Kalamazoo has played but one game this season and made a good showing in that, but the hard practice that the team has been going through has had its effect and now the high school is ready to go up against the best high school teams in the state.

Several new plays have been learned and the fumbling which was seen in the first game will not be seen again during the season.

The game Saturday will show what chances Kalamazoo has for the state championship. Undoubtedly Kalamazoo will have to play its next game in the championship series with Grand Rapids. This game is scheduled for November 2, but it is undecided whether it will be played on that date or on November 9.

PROFESSIONAL ELEVEN

Organized by Old College Stars at Philadelphia.

PHILADELPHIA, Pa., Oct. 8.—A professional football team composed mainly of former Pennsylvania players has been organized in this city. The team will be captained by C. Edgar Wallace, jr., tackle on Penn's '99 and 1900 varsity football team and who was captain-elect of the 1901 eleven.

Kennedy, quarterback on the '99 team and coach of last year's second varsity team, will act as coach of the team. Other former stars of Pennsylvania who will play on the team are McGlosky, center 1900; Harmer, tackle 1900; Stehle, end '99; Merriman, sub end '99; Zimmerman, tackle '99 and 1900; Carnett, guard '98. Other members of the team will be Roller, former Duquesne player; Smith, who played at Latrobe; Maxwell, former state college player.

SHAMROCK WILL STAY

For Races Next Year With American Boats.

NEW YORK, Oct. 8.—Sir Thomas Lipton has decided to keep the Shamrock II in America this winter with a view of racing her next spring and summer against the Constitution and the Columbia.

The Shamrock is to be dismantled at once. Her mast will be taken out so that she can pass under the Brooklyn bridge, and she is to be towed after being stripped to New London, Ct., there to be laid up for the winter with the Constitution, which will also have a berth at that place.

Sporting Notes.

Some of the finest horseflesh in the country is on exhibition at the Pan-American horse show which opened at Buffalo Monday.

Borlma has congestion of the lungs and cannot meet The Abbott in the \$30,000 race at Lexington, Ky., Wednesday.

Maurice J. McCarthy and C. W. Thatcher had a big crowd on the Rockville club links, New York, Sunday, to watch them play a 36-hole match for \$50 a side. The two were even at the 25th hole, following a good lead by Thatcher, and at the 36th still stood tie. McCarthy won the extra hole played 5 to 4.

GOBLES.

GOBLES, Mich., Oct. 8.—(Special.)—The M. E. Ladies Aid society held their regular meeting last Wednesday afternoon at the home of Mrs. Harrington.

Mr. and Mrs. A. Sanford are visiting relatives in Dowagiac. Mrs. Hall entertained her Sunday school class and the junior class of the high school at her home one mile south of town last Tuesday evening. Mr. and Mrs. A. H. Long started last Wednesday evening for a trip to the Pan-American. They will also visit relatives in Rome, N. Y.

Miss Jessie Millspaugh, who is attending school in Kalamazoo spent Sunday with her parents here. The Woman's Missionary society held a meeting at the home of Mrs. Hall, one mile south of town, last Friday afternoon. The stewards of the M. E. church will have a meeting at the home of Mrs. Albert Lamberson next Tuesday evening. Mr. and Mrs. Hiram Fesenden started for their home in Wisconsin last Wednesday night. Mr. Fesenden's mother accompanied them.

The Farther Light society met with Mrs. Mary Kner, 215 west Kalamazoo avenue, Saturday afternoon. Items were read on Current Events, and Mrs. G. H. Munger read an interesting letter which she had just received from Mrs. Muriel Massey Dowd of Assam. The serial story, "The Bishop's Conversion," which the club is reading from month to month, was continued by Mrs. E. A. Read. A business meeting took up a large share of the afternoon and it was decided to have as many as possible attend the Baptist state convention at Grand Rapids in about two weeks.

BORING FOR OIL

In the Neighborhood of Mendon. MENDON, Mich., Oct. 8.—(Special)—For several months parties have patiently been boring for oil on the Darling brothers farm north of town. A number of times when they had drilled about 20 feet, efforts were rewarded by striking rock. The last time this occurred the conclusion to bore through the rock and appliances for this work were procured. The indications are that oil exists in that particular locality or are so favorable that they are determined to carry out the project.

One of the Portage street cars ran into a team of mules hitched to a hay rack Monday evening on Portage street and after the affair occurred it was difficult to tell which fared the worst, the car or the mules. The team was freed from the wagon, which was unoccupied, and started for parts unknown. Some windows in the car were broken but none of the passengers were injured. The owner of the team is not known.

The "Frisco system" began Monday at the Grand Pacific hotel, Chicago, an exhibition of oil paintings by the well known Chicago artist, Frank Lewis VanNess, formerly of Kalamazoo. The paintings are 36 by 70 inches in size, and the subjects are from the magnificent scenery along the route of the Frisco system. The exhibition, which will continue two weeks, is the latest feather in the cap of Mr. VanNess, who has been remarkably successful in his chosen line of work.

Monday noon Charles Fischer and his orchestra returned from Buffalo after filling what is said to be the longest as well as the most responsible position ever taken by a Kalamazoo orchestra. "Mr. Fischer secured the position for the orchestra through the influence of some of Kalamazoo's best known business men and on Dedication day, May 20, opened the season at Statler's hotel, where for nearly five months they filled the position with the greatest credit to themselves.

Owing to the carelessness of workmen on F. M. Hodge's new house at the corner of Main and Carmel streets, a horse belonging to L. C. Lull was thrown down Monday evening and somewhat injured by being covered with a fresh coat of newly slaked lime. The workmen had left the lime in barrels in the street without a light and the driver was unable to see the obstruction. The horse ran into the barrels and fell into the lime, receiving an entire coating on one side. The police were notified and a light was immediately set up. A damage suit will probably follow.

Miss A. I. Walbridge of Kalamazoo superintendent of the money order department at the postoffice in that city, was in this city, Sunday, and while walking on Frelinghuysen avenue, lost a valuable fur boa. Later, a colored man saw a citizen pick up the same, and reported the matter to the police authorities, who had also been notified by Miss Walbridge of her loss. Officer Hodge called on the citizen in question, and had considerable difficulty in getting him to give up the property. Miss Walbridge left a reward for the colored man, believing him to be more deserving than the finder-Battle Creek Journal.

Set Fire to the Jail in Allegan. OTSEGO, Mich., Oct. 8.-(Special)-James Williams, a hobo, was arrested here Monday for drunkenness and was sentenced to 30 days at hard labor in the Allegan jail. He had a companion who skipped. James pulled the excelsior out of his mattress, after he was in the coop and put it in the stove and set fire to it and accidentally to his clothing and the jail. Nightwatch Hart had to lock the tramp in the cell before he could put out the blaze.

Lieutenant Colonel Perley L. Abbey in speaking of the selection of Manistee for the encampment next year declared that the location is good but there are many little things necessary to make Camp Bliss a convenient and comfortable camping ground. The grounds are hard to reach now because of a lack of sidetracks from the railroads, there is poor stable accommodation for the officers' horses, and other little things are needed. These will probably be put in if it is decided to make Manistee a permanent location for the encampment.

O'NEIL GOT FOUR YEARS Returns to Jackson for Larceny From Person.

Owen O'Neill whose case has been in the courts for some time, plead guilty to a charge of larceny from the person and was sentenced by Judge Adams today to four years in Jackson. O'Neill is the man who stole valuables from Frank Merrifield while they were both out for a "time" in the "tenderloin" district. He has a bad record, having served a five year sentence before assault. He has stoutly maintained his innocence until the present time, but finally decided to take his chances on a plea of guilty. Five years is the limit for his crime and it is thought that he would have got the limit of sentence if he had not pleaded guilty.

THE FREE STATES GIRLS. "When the war was declared the Free State sister helped her brother to pack his scanty outfit-for the Boer warrior travels light, and is swift-kissed him good-by and sent him off with her father and her friends' brothers to fight, and then visited him in his laager to prevent his yearning for home and from making him grow faint-hearted.

"Now that the enemy has occupied the country and the Boer is a prisoner at St. Helena, or still fighting across the border of the Transvaal, the girl sits at home waiting patiently for his return, raising money for his use if he is a prisoner, but uttering no word of complaint to make him, if he is fighting, feel that his place is back at home.

"But now the tennis-racket is laid aside, for there are 'orderly horses' stabled in the courts. The bicycle stands in the hall unused for the Provost Marshal requires the girl to ask for a pass if she will ride, and she is too proud to do so; pony-riding also has been abandoned; for the hateful pass must be obtained for that, too. For the same reason, no more the visiting of country farms; in addition to this is the sad fact that many of the most dear ones have been raised to the ground. A deadly feud between her and the Uitlander section of her friends has divided her social circle. The city is full of the ugly khaki uniforms. There is little news to read, and the old has ceased to interest. And last, but not least, all evening parties must break up at half past eight, when the curfew sends all but the military home and to bed.

"When the British marched into Bloemfontein the Boer girl closed her home, and in darkness, at midnight, threw herself on her bed with her hands over her ears to drown the sound of the enemy marching, and cried bitterly, for her heart was breaking. Now that she feels that the cause of Afrikanerdom is hopelessly lost, she is bravely drying her tears and getting ready to help the returning warriors face the new conditions and to make the best of them. She was, and still is, proud of her country, and though still impatient at the suggestion that as a part of the British Empire a larger field is open for her for the exploitation of the greater personality which she unconsciously holds in reserve, yet she will come to a realization of this and of many more things earlier than her more slowly-thinking brother, and helped him to grow more easily into the new conditions.

"The Free State Girl so impressed me, an American, by her appearance of being of the American type, that she made me quite homesick, and almost as sorry to leave Bloemfontein and go with the Queen's army toward Pretoria as I had been to leave America."-From F. W. Unger's "With 'Bobs' and Kruger," soon to be published.

MICHIGAN FAIRS. Michigan will be well supplied with fairs this year as the following list shows: Fowlerville-Fair, Oct. 8 to 11. Hastings-Barry County Agricultural Society fair, Oct. 8 to 11.

Chicago Sheep Market. CHICAGO, Ill., Oct. 8.-(Sheep)-Receipts were estimated at 40,000, against 33,992 a week ago, the previous banner run. HENRY OXNARD
Comments on the Move of the Sugar Trust.

SAN FRANCISCO, Calif., Oct. 8.—Commenting on the reduction of the price of sugar in the Missouri market by the sugar trust, Henry T. Oxnard, president of the American Beet Sugar association, defined it as a move to crush out beet sugar production in order that the trust might have no opposition.

"If they can succeed in the Missouri valley," said he, "they will then turn their attention to the beet factories in Michigan and other sections and by the power of concentrated capital crush out successively and individually the beet sugar producers. The trust tries to deceive the public by claiming that the beet producers can still make money at the low price it is trying to establish.

"But this particular move on the part of the sugar trust will fall flat. The beet sugar factories will not sell their sugar in the Missouri river valley at 1 1/2 cents under the market when a fraction of that 1 1/2 cents will move their sugar to every other market in the United States. What the next move of the trust will be remains to be seen.

"The trust also attempts to justify its action by insinuating that the beet factories have gone out of their rightful sphere in making refined sugar instead of raw sugar to be refined by the trust. Independent beet sugar producers have always made and sold refined beet sugar. It would be putting one's hand in the lion's mouth with a vengeance, for the beet factories to equip themselves only for the making of raw sugar at prices to be fixed by the trust. Beside, it is an economical blunder to perform in two operations what can be done as well in one.

"The movement on the part of the sugar trust in selling its refined sugar far below the cost to it of the raw material, and in the special market which is now reached to some extent by the beet sugar products, cannot but call down on the head of the trust the condemnation, not only of the beet sugar producers, but also of all fair-minded people in the country, and having done this, they placed themselves in an exceedingly poor position to go before congress and ask for the perpetuation of their powers as refiners; although they have recently arranged to increase their capital stock to the extent of \$15,000,000, to rivet their control of the raw cane product.

"In view of this act on the part of the sugar trust, the United States congress can ill afford to inaugurate the policy of reducing the present rate of duty by reciprocity or in any other way which would have the certain effect of enriching the trust on one hand and on the other of killing the most promising industry in the agricultural business of America."

DYSPEPSIA
Dyspepsia is called the "American Disease," as it is said to attack more residents of this country than any other. Americans live too rapidly—are always too hurried to give proper attention to the selection of food and to take the time to eat it. If you have an especially distressed condition of the stomach after eating, an inability to partake of the lightest meal with perfect freedom from a "crowded feeling" in the stomach immediately afterwards, belching, irritability and a generally disturbed mental condition, you have Dyspepsia.
Dr. Caldwell's Syrup Pepsin and Herb Laxative Compound
has cured thousands. It is guaranteed to cure you. 50c and \$1 bottles. All druggists. Trial bottle and a very interesting little book on stomach troubles sent free. PEPSIN SYRUP CO. Monticello, Ills.

DELTON.

DELTON, Mich., Oct. 8.—(Special)—A reception was tendered Rev. McDowell at Cressey Saturday. Elias Jones and family left Friday for their new home near Bellevue. Mrs. Joe Robinson suffered a relapse and doubt is entertained as to her recovery. Mrs. Beatrix of Augusta and Mrs. Coddington of Denver, Colo. are visiting their father, Peter Young. A party of gentlemen from Augusta and Battle Creek were at Pleasant lake Sunday. The first edition of the Delton Record was read by our townspeople Friday. It was a neat paper and will be a great help to Delton. The Epworth League social was held at the home of the pastor Friday night. But few were present but those few were entertained right royally. Jennie Gillespie of Kalamazoo and Albert and Grace Fisher of Cressey attended services here Sunday evening. C. Goodwin is in Pontersville this week visiting his parents. Barry county fair will be the attraction this week. School will be closed Thursday and Friday.

GALESBURG.

GALESBURG, Mich., Oct. 8.—(Special)—The recent frosts and the consequent destruction of ungathered tomatoes, will probably terminate the season's work at the canning factory within a short time. The work that has been accomplished in the six weeks of its operation gives some idea of what a full season's output would be. Only peaches, apples and tomatoes have received attention this year and of these there are now ready for shipment in large carloads, each consisting of 500 cases or 1,000 dozen of three pounds each. About forty hands have been employed. Galesburg secured its share of the purses from Charlotte's races last week. The representation of the Kirby stables took some \$300. Miss Katie Illick and Frank Loveland, both of this village, were married at the Congregational parsonage on Saturday evening. The Rev. S. Pearson officiating. Mrs. Gladie Illick, sister of the bride, and Ernest Gleason were present.

FULTON.

FULTON, Mich., Oct. 8.—(Special)—The Rev. Brownlow gave an excellent discourse Sunday morning on "How to Catch Fish." Quarterly meeting was presided over by the Rev. C. F. Floyd of Kalamazoo. Dr. S. B. Snyder of Kalamazoo and daughter Mollie spent most of last week here. W. D. Mears of Lansing, Mich. was the guest of E. E. McGrover and family over Sunday. Leroy Ide and family of Kalamazoo spent a part of last week with relatives here. Mrs. Elizabeth Case of Mount Pleasant, Mich., is visiting relatives and friends here for a few days. George Snyder is home after a few weeks visit with relatives in Kingsley and Traverse City. Dr. James Barnabee of Chicago has located here. A. Snell of Battle Creek enjoyed a few days' visit with relatives here last week.

In response to an invitation about fifty couples gathered at the spacious residence of Mr. and Mrs. L. E. White last Thursday evening, but none suspected the significance of the occasion until examination of the dairy hand painted souvenir cards disclosed the memorable figures 1876-1901, when the occasion was made doubly happy with congratulations to the worthy host and hostess—the bride and groom of twenty five years ago. Unfortunately Mr. White was ill during the evening, but was able to receive the congratulations of the guests. Progressive euchre and dainty refreshments contributed much to the enjoyment of the occasion. With the many neighbors and friends present were Mr. and Mrs. H. P. Stewart of Centerville and Mrs. Jennie Drake Miller of Salt Lake City.—Sturgis Democrat.

W. A. Boland of Grass Lake, the electric railroad man, was in the city yesterday for a few hours. He was on his way to New York. He said this dispute about the railroad franchises was very distasteful to him. He thought the council should have insisted upon the electric road running via Dexter, in which case he would never have come to Ann Arbor, but would have stopped at Grass Lake, and let the other road run over his tracks to Jackson. The bids for the building of his road from Dexter to Ann Arbor had been received and were being considered. The decision would probably be reached within 15 days. He thought the cars would be running between Grass Lake and Chelsea within four or five weeks.—Washtenaw Times.

Mrs. Julia Bratton, a resident of Packard Station, through Judge Thomas O'Hara of St. Joseph, has filed papers involving the largest amount of land recorded in the history of south-western Michigan. Mrs. Bratton in her declaration claims 940 acres of land, which includes the site of the village of New Buffalo, which has an estimated value of about \$1,000,000. Mrs. Bratton is a daughter of Adam Smith, the first white resident of Niles. The daughter says her father secured a legal deed of the property in 1837. Judge O'Hara says that he is satisfied that he will win the case, as Mrs. Bratton has in his opinion a clear title to the disputed land.

BLOOD DISEASE CURED.
If you ever contracted any Blood or Private Disease, you are never safe until the virus or poison has been eradicated from the system. Don't be satisfied with a "patch up" by some family doctor. Our New Method is Guaranteed to Cure or No Pay. No Names Used without Written consent.
Cured When All Else Failed
"Could I live my early life over, this testimonial would not be necessary, though I was no more sicker than thousands of other young men. Early indiscretions, later excesses, exposure to contagious diseases all helped to break down my system. When I commenced to realize my condition I was almost frantic. Doctor after doctor treated me but only gave me relief—not a cure. Hot Springs helped me, but did not cure me. The symptoms always returned. Mercury and Potash drove the poison into my system instead of driving it out. I bless the day your New Method Treatment was recommended to me. I investigated who you were first, and finding you had over 25 years' experience and responsible financially, I gave you my case under a guarantee. You cured me permanently, and in six years there has not been a sore, pain, ulcer or any other symptom of the blood disease."

THIRST FOR GOD The Subject of the Rev. Matrau's Sermon.

MANKIND HAS ONE NEED For Which the Sacrifice of Christ Makes Provision,

He Says in a Discourse at St. Luke's Episcopal Church.

The Rev. B. F. Matrau, D. D., of Englewood, Ill., preached in St. Luke's church Sunday and administered the holy communion at the morning service.

The Rev. Matrau is not without a reputation in this state, having been rector of St. John's church, Saginaw, for several years. His sermons Sunday were listened to with the closest attention. In the morning he preached from the text, "My soul thirsteth for God; yea, for the Living God;" Psalms 42:2.

He referred to this text as one of the most significant in scriptures which he said were the writings of different persons at different times and under different circumstances, but inspired. He said that all human beings were born with a curiosity to discover the enigma of life. There was one fact that comes to all and cannot be escaped and that is death.

One Need. There is one need of all mankind and that is the forgiveness of sin. Christ, by making himself a sacrifice on the cross has made a perfect provision for the remission of sins. When death comes there are two things that humanity feels the need of and these are love and peace; the love of friends and of the Father; the peace that is in Christ.

The sermon was an eloquent exposition of the need of Christianity to develop men and make them ready when the final summons comes.

A number of persons from out of town attended the services. Among them were E. J. Griffiths of Chicago, Mr. and Mrs. W. W. Frakes, Mr. and Mrs. John B. Penfield and daughter Elise and Miss Vera Anderson, all of Vicksburg, Mrs. Penfield and Mrs. Frakes are sisters of Mrs. Matrau.

SENATOR BURROWS Likely to Handle the Clark Case.

WASHINGTON, D. C., Oct. 8.—Senator Burrows is likely, when the senate committees are reorganized in December, to become chairman of the committee on privileges and elections, to whom will be referred the protest against Wm. Clark of Montana being allowed to retain his seat in the senate. A protest was submitted to the senate by Senator Chandler on March 3 last and is made by Henry R. Knapp on his own behalf and on behalf of the labor party of Montana. It charges Clark with having spent \$1,500,000 in the last campaign to corrupt voters to elect a Clark legislature. Considering the population this would be equivalent to a candidate in Michigan spending \$15,000,000 to be elected to the senate.

The protest was laid on the table and Senator Chandler made a long speech reviewing Clark's corrupt political methods in Montana. On the same day a telegram from Democratic National Committeeman Neill of Montana denying Knapp's charges. This was also tabled. Senator Chandler's term expired the next day. On March 5, Clark was sworn in without any objection being raised and took his seat in the senate. Nothing was done about the protest. It still remains on the table, and of half a dozen senators now in Washington none will say positively that anything is going to be done about it.

Captain Andrews and His Bride Set Sail. ATLANTIC CITY, N. J., Oct. 8.—Captain William Andrews, formerly the "Lone Mariner," and his bride of six weeks set sail at 4:30 this afternoon on their trip across the Atlantic ocean in the smallest boat that ever made the attempt.

Ten thousand persons gathered on the ocean pier and strived to see the voyagers off. The captain first boarded his craft and put everything in readiness. He climbed the mast and rocked the craft to see how it stood the strain. Mrs. Andrews, attired in man's clothing, was brought alongside in a yawl and jumped into the boat, which is named the Dark Secret. Sails were raised and the boat made due east. It was watched with marine glasses until hidden from view.

The craft is sharp at both ends and is out of proportion in the middle and is painted black. It is 13 1/2 feet long, 5 feet beam, and 2 feet deep, and is flat

NIGHT SHIRT PARADE Held at Olivet College on Saturday Night.

OLIVET, Mich., Oct. 8.—For the first time in two years the male students at Olivet college indulged in a night-shirt parade Saturday night. Arrayed in their flowing robes they formed near the gym, immediately after the reception tendered the alumni, and marched in single file to Shipper hall, the headquarters of the co-eds at 10:30 o'clock. Circling around the building they gave a mighty warwhoop, which brought the girls to the windows arrayed in costumes similar to those worn by the boys. One of the girls got a dark lantern and flashed it on the frolickers, enabling several of them to be recognized.

When they got tired of marching around the hall, the students marched to the residence of the president and from there to the home of Dr. Wright. After singing a number of songs they took their departure, singing "Are your garments spotted, and are they white as snow?" A huge bonfire was built on college hill and the celebration continued until 12 o'clock.

It is rumored that the girls in the dormitory, not to be outdone, organized an impromptu parade of their own on the third floor of the hall after the boys left and were sharply called down by the dean. The faculty take the frolic in good part, however, and no investigation is likely to follow.

SENATOR HOAR Made Significant Remarks at Massachusetts Convention.

Senator Hoar of Massachusetts, at the recent Massachusetts state convention, uttered this sentiment: "You and I are Republicans. You and I are men of the north. Most of us are Protestants in religion. We are men of native birth. Yet, if every Republican were to-day to fall in his place, as William McKinley has fallen, I believe our countrymen of the other party, in spite of what we deem their errors, would take the republic and bear on the flag to liberty and glory. I believe if every protestant were to be stricken down by a lightning stroke that our brethren of the Catholic faith would still carry on the republic in the spirit of a true and liberal freedom."

"I believe if every man of native birth within our borders were to die this day the men of foreign birth who have come here to seek homes and liberty under the shadow of the republic, would carry on the republic in God's appointed way. I believe if every man of the north were to die the new and chastened south, with the virtues it has cherished from the beginning, of love of home and love of state and love of freedom, with its courage and its constancy, would take the country and bear it on to the achievement of its lofty destiny. The anarchist must slay seventy-five million Americans before he can slay the republic."

BACK AFTER 30 YEARS Interesting Career of Captain James Wells of Idaho.

Captain James Wells of Idaho is in the city for a few days for the first time in over thirty years. He was raised and educated in Kalamazoo in the early days, and taught school in this vicinity when young. In the 60's he took the overland route to California but at the outbreak of the rebellion he returned to enlist in the 8th Michigan cavalry. He was captured by the enemy and was one of a band of officers who dug out of Libby prison and escaped. After the war he spent several years in the south where he made a political record. He was in the treasury department at Washington, D. C., for a long time. From there he went west and finally located in Idaho. He was World's Fair commissioner from Idaho and has since been in public office. He says he meets few old acquaintances and feels like a stranger in the land of his birth.

STANLEY TURNER Is to Receive a Reward for His Services.

WASHINGTON, D. C., Oct. 8.—The federal house cleaning in Michigan will not be very extensive but there will be some little sweeping. It was announced in this correspondence some months ago that Charles Wright, the collector of internal revenue in Detroit, would have to be satisfied with one term. There has been no change in the minds of those who control the destiny of that office for the eastern district of Michigan.

Mr. Wright's term expires in the early part of next year and before that time he will be informed his successor is to be Stanley Turner, for a few years one of the ardent McMillan workers. There has been a suspicion for some time that this change was to be made, but only recently had it been definitely decided upon.

J. S. STEARNS Says He is Out of Politics at Present.

SAGINAW, Mich., Oct. 8.—J. S. Stearns was in the city a few hours and left on the early evening train for Grand Rapids. He declined to talk politics, saying that it would not be the proper thing for him to do; that he is out of politics at present and is devoting his entire energies to business. At his Michigan and Wisconsin saw mills the output this year will be 160,000,000 feet, making him the largest individual lumber manufacturer in the world. He says the lumber business is exceptionally good both as to the demand and prices. He has rented a residence in Grand Rapids and will take up his residence there, October 25.

ALBION COLLEGE.

ALBION, Mich., Oct. 8.—(Special)—President Dickie talked to the students at chapel a few mornings ago along the lines of discipline and rules. The college is being conducted upon radically different plans as to its government than those in vogue last year. Now the so-called social rules which were generally unpopular and unsatisfactory have been entirely done away with as have in fact nearly all rules, with one or two slight exceptions. Now the broad statutes and laws of the state of Michigan will govern and the students will be put upon their honor, relying upon their judgment and good sense in determining questions of propriety and what is right and wrong. This does not mean that there will be any laxness in the discipline of the college. On the contrary it is expected that there will be a much better and more agreeable

Prof. R. H. Tripp, formerly of Kalamazoo college, presided recently at an anti-anarchist meeting in the city hall at Long Beach, Cal.—his present home. Prof. Tripp read some stinging resolutions written by him which were passed unanimously. The resolutions deplore the assassination of President McKinley and urge congress in the strongest terms to pass laws which will suppress anarchism and anarchist publications. In writing of the meeting to the Telegraph Prof. Tripp says: "No more blatant 'glories'—the government orators will be slain in southern California. San Francisco seems to be given over to the devil for the present."

EDWARD BOK
Writes of the Trying Period in Married Life.
"Some folks have a way of declaring that the first year of married life is the most trying," writes Edward Bok, in The Ladies Home Journal. "But when one gets a close knowledge of several families the conviction is brought home that the trying period lies beyond the first year, when the pretty tressonau is showing wear and needs replenishing; when the wedding presents have lost their luster, and this thing has worn out and that thing has to be replaced; when a little family is growing up and the doctor's bills are introduced into the family reckoning. That is the trying period when interests are apt to become very close. Likewise calculations. Then is it that the saving of the comparatively care-free and less expensive first year of married life comes in handy, or is sadly missed if the income was then lived up to in unnecessary buying and foolish entertaining. A great deal of happiness in this world is wrecked by debt, and generally the debt could have been avoided if a little more care and common-sense had been exercised."

PRESIDENT ROOSEVELT
Is Warned by the Astrologer of Danger.
NEW YORK, Oct. 8.—Gustave Meyer the youthful astrologer of No. 101 Washington street, Hoboken, N. J., who warned President McKinley last spring to beware of an attempt to assassinate him during June or September, now issues a warning to President Roosevelt.

"President Roosevelt," says Prof. Meyer, "should be very careful of himself during the next six weeks, especially on Nov. 3 and 4. An accident or sickness is indicated for him about that time, and it may be avoided by proper care."
"He and his advisers will be called upon to settle some important question about the last of October. It will concern a considerable expenditure of money and may have to do with foreign transportation."

WHAT A. J. MILLS,
MAYOR OF KALAMAZOO, SAYS OF STODDARD'S LECTURES.
I have purchased and examined a set of John L. Stoddard's Lectures (printed from the original plates). One who has traveled will find them exceedingly interesting and correct, and one who is about to visit Europe or California will find in them first-rate preparation and instruction to places of great interest that might otherwise be overlooked. They will be found of particular value in the family, not only as furnishing pleasure in the reading, but great instruction and entertainment to the young folks. They are a splendid set of books. Respect. **A. J. MILLS**
Law books are for the lawyer, text books for the student and there are books peculiarly woman's own, but Stoddard's Lectures appeal to every member of the family. A knowledge of the world and its people is gained in the perusal of Stoddard's Lectures which can be had in no other way except by actual travel.
Your home needs Stoddard's.

ABOUT NOSES
Some Interesting Facts Given in Character Indications.
"A large nose is always an unfailing sign of a decided character," writes Blanche W. Fischer, in an article on "Reading Character in the Face," in The Ladies Home Journal. "It belongs to the man of action, quick to see and to seize opportunity. A small nose indicates a passive nature, one less apt to act, although he may feel as deeply. He will have many theories, while the possessor of a large nose will have deeds to show. Persons with small noses are most loving and sympathizing, but their friendships is not the active kind. "A nose with the tip slightly tilted is the sign of the heartless flirt. A long nose indicates dignity and repose. A short nose, pugacity and a love of gaiety. An arched nose...one projecting at the bridge shows thought. A straight nose shows an inclination toward serious subjects. A nose that turns up slightly indicates eloquence and imagination. If turned up much it shows egotism and love of luxury. A nose that slopes out directly from the forehead, that shows no indenting between the eyes, indicates power. If the nose is indented deeply at the root the subject will be weak and vacillating. A nose that turns down signifies that the possessor is miserly and sarcastic."

GALESBURG.
GALESBURG, Mich., Oct. 8.—(Special.)—In concluding his sermon on Sunday morning, the Rev. Samuel Pearson referred briefly to the fact that just three years had elapsed since he assumed the pastorate of the Congregational church here. He spoke feelingly of the losses by death sustained by the society and added very hopeful words regarding the future. The regular service was followed by communion. The annual meeting of the Oak Grove cemetery association was adjourned Monday afternoon to Monday, Oct. 21, at 2 p. m. This action was taken by those present in order to secure a full attendance in view of business of unusual importance to come before the association. Mrs. Will Adams and Harold Town joined the Chicago excursionists Sunday. O. T. Crissey of Chicago was a visitor Monday. Mr. and Mrs. Sidney Dunn were in attendance at the funeral of the latter's mother in Prairieville early in the week. Harry Baldwin, late of Kalamazoo has taken the position of foreman with the Ford Printing company and has rented the George Blake house on Maple street, moving in on Monday last. W. I. Blake is west on business trip. J. B. Smiley now occupies the Abbott house on Battle Creek street and Fred Stafford succeeds C. E. Watts on the same street. Mr. and Mrs. A. R. Skinner are in Chicago for a week's visit with relatives. Reports from Miss Sara Beckwith are that she is not improving as fast as could be desired. Mrs. Coburn, her sister, is still with her in Toledo.

The change in the Cuban tariff schedules ordered by the United States war department have come into effect. The demand for them came from merchants and others interested in the trade of the island. They effect only the schedules pertaining to sugar, machinery and railroad materials. They are only in temporary operation. As soon as the Cuban government has been established there will be a complete revision of all tariff schedules, and every interest will be cared for.

SHE IS VERY RABID
Miss Goldman's Utterances in Anarchist Paper.
HER COMMENT ON CRIME
Of Czolgosz Has Aroused Indignation.
Likely That the Anarchist Organ Will Be Barred From Mails.
CHICAGO, Ill., Oct. 8.—Emma Goldman's audacious article on the assassination of President McKinley, in the last issue of the Anarchist organ, Free Society, has aroused Chicago people to indignation.
This number of the paper was barred from the mails Friday pending advice from Washington, but the point is not made that its utterances are incendiary or treasonable.
The technical reason adopted by which time may be gained for an examination of its contents is, that because of its suspension for two weeks, while its publishers and writers were in jail here charged with complicity in the death of the President, the publisher has forfeited his second-class privilege for transmission through the mails, and the rules of the department require that the Postmaster General must pass on the publication before it can have the privilege restored.
May Be Barred.
It is expected that the publication will be barred permanently because of its lawless teachings.
The article which is signed with the writer's full name, is entitled "The Tragedy at Buffalo" and says in part: "Never before in the history of governments has the sound of a pistol shot so startled, terrorized and horrified the self-satisfied, indifferent, contented and indolent public as has the one fired by Leon Czolgosz when struck down William McKinley, President of the money kings and trust magnates of this country."
"Why were the mighty and powerful thrown into such consternation by the deed of Sept. 6? Why this howl of a hired press? Why such bloodthirsty and violent utterances from the clergy, whose usual business it is to preach 'Peace on earth and good-will to all'? Why the mad ravings of the mob, the demand for rigid laws to curtail freedom of press and speech?"
"For more than thirty years a small band of parasites have robbed the American people and trampled upon the fundamental principles laid down by the forefathers of this country, guaranteeing to every man, woman and child, 'Life, liberty and the pursuit of happiness.'"
"For many years the home has been left to the care of the little ones while the parents are working their life and strength away for a small pittance. For thirty years the sturdy sons of America were sacrificed on the battlefield of industrial war, and the daughters outraged in corrupt factory surroundings."
"Maddened by success and victory, the money powers of this 'free land of ours' became more and more audacious in their heartless, cruel efforts to compete with rotten and decayed European tyrannies in supremacy of power."
"But his act was mad and cowardly," says the ruling class. "It was foolish and impractical," echo all petty reformers, Socialists and even some Anarchists.
"What absurdity! As if an act of this kind can be measured by its usefulness, expediency or practicability; We might as well ask ourselves of the usefulness of a cyclone, a tornado, a violent thunderstorm, or the ceaseless fall of the Niagara waters."
Resistance Fact of Nature.
"Resistance against force is a fact all thought nature. Man being part of nature, he, too, is swayed by the same force to defend himself against invasion. Force will continue to be a natural factor just so long as economic slavery, social superiority, inequality, exploitation of war continue to destroy all that is good and noble in man."
"That the economic and political conditions of this country have been pregnant with the embryo of greed and despotism, no one who thinks and has closely watched events can deny. It was therefore but a question of time for the first signs of labor pains to begin."
"And they began when McKinley, more than any other President, had betrayed the trust of the people, and became the fool of the moneyed kings. They began when he and his class had stained the memory of the men who produced the Declaration of Independence, through the blood of the massacred Filipinos."
Murder From Sensitiveness.
"That violence is not the result of conditions only, but also largely depends upon man's inner nature, is best proved by the fact that while thousands loathe the tyrant but one will strike down a tyrant. What is it that drives him to commit the act while others pass quietly by? It is because the one is of such a sensitive nature that he will feel a wrong more keenly and with greater intensity than others."
"It is therefore not cruelty or a thirst for blood or any other criminal tendency that induces such a man to strike such a blow at organized power. On the contrary, it is mostly because of an abundance of love and an overflow of sympathy with the pain and sorrow around us, a love so all-absorbing that it can neither calculate, reason, investigate, but only dare at all costs."
No Check to Force.
Miss Goldman then asserts that she does not believe in violence, but "that force cannot be done away with through the prosecution of a few men and women or by more stringent laws which only tends to increase it." The writer continues:
"What results the act of Sept. 6 will have no one can say. One thing, how

STATE CHAT.
Benton Harbor will have a big five-story business block.
The problem which confronted the officials of the auditor general's department, relating to the apportionment of state taxes in time for the October sessions of the county boards of supervisors has been solved by State Accountant Henry Humphrey.
Mr. Humphrey has invented a supplement to his well-known figuring machine that will enable him to spread the entire tax in little less than a day.
The machine is remarkable for its simplicity, being so constructed that it can be operated by any body with a fair understanding of mathematics.
It consists of four slides, 26 feet in length, and set in a block of black walnut in such a way as to render it movable back and forth.
Slips of paper, containing certain figures are attached to the slides and manipulated so that 13 columns of taxes can be turned out simultaneously.
—Lansing Republican.

It was long ago written that "a prophet is not without honor save in his own country." This was forcibly called to mind by reading the petitions sent up to the common council by citizens of the township of Grass Lake to aid in influencing the council to give away what was left of the city of Jackson to aid a foreign company. When we recall that fact, that William A. Boland, after he had accumulated a fortune in the east, returned to the town whence he was born, purchased back the old homestead, erected a fine residence and other buildings stocked it with the finest horses, cattle and other animals to be found in the world, added vastly to the reputation of the township and county, as well as contributing something substantial to its taxable property, the citizens of that town and village, through some unexplainable cause, should unite almost unanimously to petition the city of Jackson, where they have no interest at stake, to inflict a severe personal and financial injury to a fellow townsman, who had done many times more for their benefit than his rival. It is one of those unexplainable things that fallible human nature is heir to, and which we believe the signers will yet live to regret. They are all good citizens, and Jackson is glad to welcome all of them, but they seem to have lost their heads in this matter. Mr. Boland should cut these petitions out and have them hung up in "Grey Tower" as a memento of the kindness and affection of his neighbors.—Jackson Citizen.

Lake Shore fast mail No. 5, east-bound, collided with 13 cars hanging over on the main track at the siding at Cadmus, the first station west of Adrian, Sunday afternoon. Engine No. 608, one of the largest on the road, was derailed. Engineer J. A. Cainon and Fireman H. Allbaugh saved themselves by jumping. The passengers were badly shaken up but no one was seriously injured. The air brakes did not work. Traffic was suspended for several hours. Five freight cars were demolished.
Twenty-five widows in Tekonsha are disconsolate because the widowers in the place are vastly in the minority. The widows are determined to migrate to more favorable surroundings, or offer a bonus for the immigration of widowers to the town.
Hog cholera is working havoc among the swine in Branch county. One farmer lost 43 swine in a few days from the disease.

An unusual sight may be witnessed every weekday on a farm near Union City. A woman 91 years old husking corn in the field with other laborers. She keeps pace with other workmen in quantity and quality of work performed.
DATE IS CHANGED
For the Special Election in Niles.
NILES, Mich., Oct. 8.—The date for the special election to vote on the proposition to bond the city in the sum of \$20,000 for municipal improvement has been postponed by the council from Oct. 17 to Oct. 23. The earlier date did not permit of legal notice.
The sentiment of the electors seems to be in favor of bonding.
