TO CHANGE INAUGURATION

Proposition to Submit Amendment.

SENATE ADOPTS IT

Mr. Teller Continues Speech on Philippine Bill.

HOLDING OF THE PHILIPPINES

He Declares to be Contrary to Our Principles.

Oleomargarine Bill Comes Up in the House For Amendment.

WASHINGTON, D. C., Feb. 11.—(Associated Press)—Some routine business preceded the resumption of the consideration of the oleomargarine bill in the house today. The senate amendments to the pension appropriation bill were non-concurred in, and the bill sent to conference.

General debate having closed yesterday on the oleomargarine bill it was read for amendment under the five minute rule.

The committee amendment to strike out the word "yellow" before the word "butter" in the proviso attached to the first section to the effect that nothing in the act be construed to permit any state to forbid the manufacture or sale of oleomargarine in such form as would advise the consumer of its real character caused some discussion until it was explained it was proposed to add after the word "butter" the words "of any shade of yellow." Mr. Henry of Connecticut in charge of the bill explained this latter amendment was to meet the charge that without this modification the proviso might be construed to make white oleomargarine subject to a tax of ten cents. The amendments were agreed to without division, making the language of the proviso read "butter of any shade of yellow."

The senate today adopted the joint resolution to propose an amendment to the constitution of the United States respecting the commencement and termination of congress, changing the date of the inauguration of the president and vice president from March 4 to the last Thursday in April at noon, the commencement and termination of congress to occur at the same time.

Teller's Attitude.
At 1 consideration of the Philippine tariff bill was resumed. Mr. Teller continued his speech. He did not think the holding of the islands by this government would ever be profitable and could see readily it might prove dangerous. It was contrary to our principles to hold any people in subjection by force. He felt a profound mistake had been made in our early treatment of the people of the Philippines but the question had been passed and it was now our duty to do what was right. No body believed, he insisted, that the United States could force upon the Philippines our government or our civilization.

HAS PASSED FOUR SCORE

Mrs. Johanna Van Dyke Active at 84.

Mrs. Johanna VanDyke of 707 Park street celebrated her eighty-fourth birthday Saturday. In spite of advanced age she has the vigor of both mind and body of a much younger woman and carries out the activities of her youth, doing all her own baking and making her own butter.

This morning Mrs. VanDyke gave to her son-in-law, former Alderman Jacob DeKam, a game of keno or lotto which she purchased in the Netherlands over fifty-two years ago. The game was brought to this country in a cloth bag and has not been opened in thirty years. It is much like the American game lotto, being played with numbered spaces on boards and a set of counters.

Mrs. VanDyke has six children living, twenty-six grandchildren and four great grandchildren. They are Mrs. Madeline DeKam and eight children; Cornelia VanDyke, three children and two grandchildren; Adrian VanDyke and six children; Marjorie VanDyke, three children and two grandchildren in the family of the late Mrs. Jennie Owsard; Miss Aggie VanDyke, and six children of the late Peter VanDyke.

MALTA VITA CO.

To Be Investigated by Secretary of State.

LANSING, Mich., Feb. 11.—The Malta Vita Co., which has taken over a Battle Creek food concern, offered articles of association for filing Monday. It is a New Jersey corporation with an authorized capital of \$5,000,000, with \$125,000 invested in Michigan. Inasmuch as its principal business is in Battle Creek, the secretary of state is a trifle leery about the statement that all the balance of the capital is invested elsewhere, and will investigate before filing the articles.

KING'S FIRST LEEVEE

Was Held Today and Was a Notable Function.

FAVORED FEW KISS HIS HAND

Others Had to be Contented With Nod.

Funeral Made Occasion of Macedonian Riot—European News.

LONDON, Eng., Feb. 11.—(Associated Press)—King Edward's first levee since his accession, was held in St. James palace at noon today and was an exceptionally brilliant function.

The Prince of Wales, the Duke of Connaught and other members of the royal family were present, and the gathering of members of the diplomatic corps, cabinet ministers and military officers was unprecedentedly large.

The levee began with the reception of ambassadors, who passed before his majesty in order of precedence, followed by their secretaries, the naval and military attaches, subsequently taking their stand by the side of members of the royal family. The cabinet ministers and others entitled to the privilege of being present, followed the diplomats, and finally, the general company, including Messrs. Allison, the Ambassadors of Chicago, and Charles Gibson of Boston, passed before the king. As the Prince of Wales King Edward merely bowed to the presentees or shook hands with intimate friends, but today a new feature was introduced. All who were known to his majesty kissed his hand, though they did not kneel, as was customary when kissing Queen Victoria's hand. The king himself selected those who were to kiss his hand by extending the hand palm downwards, whereupon the presentee placed his own hand beneath his majesty's and kissed the king's hand on the back. The majority of the presentees, therefore, had to be contented with a simple bow.

A dispatch from Rome says representatives of Italian lodges of free masonry have decided that Italian free masonry should cease to be a secret society.

The Hague correspondent of the Daily Telegraph understands that Dr. Mueller, former consul of Orange Free State to Holland, now en route to New York, is taking dispatches from the Boer delegates in Europe for President Roosevelt, and that Mueller will remain in the United States as the official Boer agent.

Macedonian Riot.

SOFIA, Bulgaria, Feb. 11.—(Associated Press)—Macedonians utilized the occasion of the funeral today of M. Kamtchev (minister of public instruction) by making a political demonstration. They gathered in considerable numbers and fired volleys from revolvers in all directions. The procession was thrown into a panic.

Dufferin Dying.

BELFAST, Ireland, Feb. 11.—(Associated Press)—A bulletin issued this afternoon from Clondeboy regarding the health of Lord Dufferin shows he has been continually growing weaker since morning and that the end is near.

Resumed Negotiations.

CONSTANTINOPLE, Turkey, Feb. 11.—(Associated Press)—American delegates in Macedonia have again started negotiations for the ransoming of Miss Stone and Madame Tsilkia.

To Disperse Socialists.

BRUSSELS, Belgium, Feb. 11.—(Associated Press)—A detachment of cavalry had to be requisitioned this afternoon to disperse Socialists who made a strong demonstration in favor of universal suffrage.

GOES TO ASYLUM

Little Hope for the Recovery of Seneca Litchard.

ANN ARBOR, Mich., Feb. 11.—Arrangements are being made to remove to the asylum at Pontiac Seneca H. Litchard of Lodi township, now in the university hospital. He is the man struck by a trolley car Nov. 8, and who has been in a state of coma ever since. His skull was recently trephined and a cyst containing an ounce of fluid removed. The physicians say that if his brain becomes strong enough to expand its contracted parts as to fill the cavity from which cyst was taken he may recover his reason.

NOW HE'S SANE

And If He Escapes Pneumonia Will Be All Right.

OWOSSO, Mich., Feb. 11.—George Sargent, the Birch Run, Saginaw county, man who escaped from the hospital at the University of Michigan and was found badly frozen near here, will recover unless pneumonia sets in. He was half-demented when he left the hospital, but his mind is now clear save that he has no recollection of his hospital experience, his escape nor his hardships while walking through the country to this place.

WITH NATIVE TROOPS

Lieut. Bury is Serving in the Philippines.

Lieutenant Fred Bury, who left Kalamazoo early in October last to join his regiment, the First United States Infantry, is now in the Island of Samar. He writes to friends in the city that he reached Manila on December 4, having sailed from San Francisco on the first of November. On reaching Manila he was obliged to wait three weeks before he was able to secure transportation to Samar, but finally reached Catbalogan on December 24.

Lieutenant Bury was assigned to Company E of the First regiment, but about the first of the present year he was detached from that company and assigned to the forty-fifth company of Philippine scouts which is commanded by Lieutenant Walker.

He writes: "We left Catbalogan the same day and came south fifteen miles to Motong to relieve a company of the Ninth Infantry. We have ninety-nine natives as soldiers and Lieutenant Walker and I are the only white men in the town. He leaves tomorrow morning for a two weeks' hike, and I will be left here with fifty native soldiers. When he returns I expect to be sent to another town with a part of the company to establish a station. I understand some Spanish, a little of their native tongue, and they understand a little Spanish and some of our military commands in America, so you see what I have before me."

Lieutenant Bury writes that his health has been very excellent and that the weather during the voyage across the Pacific was extremely pleasant, and that the journey which included stops at Honolulu and Guam was without any incident of importance.

ON AMERICAN LITERATURE

Prof. Squires Will Give Lectures at Y. M. C. A.

Professor Vernon P. Squires of Kalamazoo college has consented to give before the literature class of the Young Women's Christian association a series of carefully prepared lectures on American literature which he first delivered before a large Chataqua assembly some time ago. Those who have heard Prof. Squires know him as a forceful and eloquent speaker, and his lectures upon a subject with which he is so familiar cannot fail to be pleasing and highly instructive. All women are invited to attend and admission is free to members while special arrangements have been made by which non-members can attend upon payments of a small fee. The first lecture will be given tonight at 7:15.

VALUED HIS WIFE

At \$200 Share, or \$500 to Give Her Up.

GRAND RAPIDS, Mich., Feb. 11.—William A. Sumner and Sophronia Fay Cornish, both of Lansing, were arrested Monday morning, occupying the same room at a hotel. "The woman's husband was complainant. It is stated by the officers that, on the arrest, Cornish made a proposition to drop the prosecution and take his wife back if Sumner would pay him \$200. This failing, he offered to let Sumner keep her if he was paid \$500. This was also turned down.

BAR ASSOCIATION

Of St. Joseph Discusses Indeterminate Sentence Law.

ST. JOSEPH, Mich., Feb. 11.—The county bar association, composed of some thirty-five lawyers, met Monday afternoon and the following officers were elected: President, T. G. Beaver; Niles; treasurer, Charles Stratton; St. Joseph; secretary, Harris Whitney; Benton Harbor. Attorney George M. Valentine opened the discussion on the indeterminate sentence law, which was generally discussed by all attorneys, Judge Coolidge taking part.

PORT HURON

Will Accept the Offer of Andrew Carnegie.

PORT HURON, Mich., Feb. 11.—The common council Monday night adopted a resolution accepting the offer of Andrew Carnegie to furnish \$40,000 for the erection of a public library building in this city, providing the city would appropriate \$4,000 each year for its maintenance and secure a site. A committee was chosen to act with the library commission in securing the necessary ground.

DIDN'T USE CIGARETTES

And So Robber Smashed Him in the Face.

MUSKEGON, Mich., Feb. 11.—Wm. Phelps was held up and robbed at 11:30 Sunday evening near the German Catholic church. One of the robbers asked Phelps for a cigarette, and on his saying he did not use them, the man struck him in the face. They clinched, and while the fight was going on the second robber appeared and intimidated Phelps with a gun. All they secured was \$4.25. No clue.

MRS. SICKLES

Will Take Trip South for Her Health.

ADRIAN, Mich., Feb. 11.—Mrs. Lucy M. Sickles, superintendent of the Industrial Home for Girls, left for Jamaica Monday morning in search of health. She will remain there until Easter and possibly longer. Miss Helen King, assistant superintendent, will manage the home during the absence of Mrs. Sickles.

JUST LIKE CARRIE

Gross Talks in Jail When He Can't Smash.

HIS WIFE'S AFFECTIONS

Were Alienated So He Used His Little Ax.

Feared Public Would Not Know of Him but Now Threatens Libel.

Carrie Nation, alias Fred J. Cross, has allowed his angry passions to rise since he was arrested early Sunday morning for smashing up things in the home of his wife in Forbes street and now demands all kinds of retractions from the papers.

He also threatens to "show up the officers" who have insulted his dignity by calling him Carrie Nation. They all came in for a scolding this afternoon in a talk which he had with a reporter and Constables Dennison and Sanford were called "two for a cent" officers.

Cross says that he went into the house with the most peaceable intentions in the world, only intending to smash up a few things to "bring to light the fact that his wife's relatives have been systematically alienating his affections for the past seven years." He is especially indignant over the statement that he deserted his wife and family, saying that he continued to pay the rent and considered her home his home. He says that he received a letter (which is burned) from his wife stating that she was not in need of money and that she returned the postage stamps he sent her. Cross says that he will carry on his own case and show up everybody before he gets through with it.

His Great Object.

Cross was afraid Monday that his object in smashing up his wife's home would be defeated by the affair being suppressed in the papers, but he is glad that such an extended account has been given and says that several stories will be written before the matter is ended. His great object in playing the "Carrie" act was to publish broadcast the fact that the affections of his wife have been alienated.

At one time Cross was on the force of the Evening News which was published in this city, taking the place of the city editor, who was sick at the time. He has since worked all over the country, at one time owning a paper in connection with a brother. At that time, he says, he became interested in the libel laws and is "pretty fair on it himself." As a result of this burden of knowledge he is going to make the papers "sweat" if such a thing is possible. A formal demand for retraction has already been made and he says that he will bring a libel suit if it is fifty years from now. Cross will be arraigned on a charge of malicious destruction of property either late this afternoon or Wednesday afternoon.

HOTEL NILES

Has Been Leased by a Man from New York.

NILES, Mich., Feb. 11.—George A. Irwin of Clyde, N. Y., Monday leased the Hotel Niles building, one of the finest hotel buildings in southwestern Michigan, from T. H. Fitzgerald, who recently purchased and remodeled it. Irwin will commence furnishing the house at once and the grand opening will take place April 1.

HANDSOME HOME

Of John Bass Burns at a Loss of \$170,000.

FORT WAYNE, Ind., Feb. 11.—(Associated Press)—Brookside, the handsome home of John H. Bass, head of the Bass Car Wheel Foundries, was totally destroyed by fire early this morning. The loss on the building is \$110,000, contents \$60,000, insurance \$110,000.

FIFTEEN MEN

Injured by the Explosion of Dust in Mine.

BONAIR, Tenn., Feb. 11.—(Associated Press)—Fifteen men were injured by a dust explosion at the main entry of mine No. 5 today. All were rescued and all will probably recover. Five were seriously burned.

The Peninsular Steel Range is one of the best made. It is strictly high grade in every respect, being built of the best cold rolled steel, lined all through with asbestos, which retains the heat. It has a duplex grate that burns wood and coal, the oven is large and square. There are 6 holes, number eight. The Peninsular fitted with a high shelf and warming closet, exactly like illustration, sells this week \$32.00.

\$3.00 down and payments of \$3 a month puts one in your kitchen, and we warrant satisfaction in every way.

MALVAR'S BROTHER

Has Been Captured—Transport Raised.

MANILA, P. I., Feb. 11.—(Associated Press)—The brother of Malvar, the insurgent leader, has been captured. He was the chief surgeon of the Batangas insurgents. A strong insurgent post had been captured near Calamba, Laguna province. A number of rifles, bolos and six typewriting machines were captured. It is believed this post formed Malvar's headquarters.

The United States transport Wright, which was wrecked Nov. 23, last, by striking an uncharted rock at the entrance of San Jacinto harbor and sunk in 15 feet of water, has been successfully raised.

DE RYKE IN COURT

Prosecution for Embezzlement to be Pushed.

The examination of William H. DeRyke, charged with embezzlement from the treasury of the Holland Aid society, was brought before Justice Coleman this morning and adjourned until Friday, Feb. 21. Only a little testimony was introduced. Those sworn were Onne Brink, Richard Tolhuizen and Martin Verhage. None of them at present are officers of the society with the exception of Tolhuizen, who is a trustee, but their testimony is important for the prosecution as they are well acquainted with the affairs of the organization. It is said that the whole thing hinges on his receipts and they are in the hands of another party, who has not yet been sworn.

At the first meeting of the society this month DeRyke made a proposition to settle the whole matter for \$400, but the society would not accept it. It is claimed that he is shy over \$700. Members of the society say that the prosecution will be pushed to the end.

PETER AND MARY DISAGREED

Religion Broke up the Dominant Family.

Divorce proceedings which have been commenced between Peter Dominant and Mary Dominant appear to be a controversy between the Irish and the Dutch. The couple were married in the city last October, the wife's former name having been Mary Egan. It seems that Peter is not in full sympathy with the religious views of his wife and recently while she was attending church, moved part of the household goods out of the residence at the corner of Park and Beale streets, several neighboring women helping him. He then went with three children by a former marriage to a house in Bush street, where he set up house-keeping on his own hook. He has now filed a bill of divorce. His wife will fight it in the hope of getting alimony. So far she has the best of the fight, for she is in possession of the house formerly occupied by the whole family and Peter is not able to get her out.

HUNTING DOG

Found Body of a Boy Who Was Killed Hunting.

DETROIT, Mich., Feb. 11.—(Special)—Led by his hunting dog, William Ackerman found the body of his brother Edward Ackerman who had been accidentally shot while hunting yesterday. The dead boy, aged nearly 16, was a son of Jacob Ackerman, a farmer living on the mile road, a mile west of Gratiot avenue.

When it grew dark and young Ackerman did not return his brother became anxious. He went to the door and found the dog there alone. The dog's actions indicated something was wrong and William Ackerman followed it across the fields until he found the body of his brother beside a hedge with a great hole in his body. Evidently he tried to thrust his gun before him through the hedge and it was discharged.

BONAIR, Tenn., Feb. 11.—(Associated Press)—Fifteen men were injured by a dust explosion at the main entry of mine No. 5 today. All were rescued and all will probably recover. Five were seriously burned.

FRANK JAMES

Gets Injunction Against Theatrical Production.

KANSAS CITY, Feb. 11.—Frank James, who at one time was a member of the famous James boys' gang, secured a temporary injunction in the circuit court here Monday, restraining a theatrical company, now playing at a local theater, from presenting the play, "The James Boys in Missouri," in which the members of the James family are made to represent train robbers, bank looters and outlaws of the worst character. Mr. James says his main objection to the play is that it glorifies outlawry and is injurious to the youth of the country.

DIED OF EXPOSURE

After Indulging in Hard Drinking.

MUSKEGON, Mich., Feb. 11.—Matt Boomiller, aged 22, married, died in jail Monday morning. He had been drinking heavily and left home at 5 a. m. yesterday. He was found at 11 o'clock in an old barn, partly undressed with hands and feet frozen. The jail officers worked over him for hours, when he was placed in a cell with a watcher. Death was due to exposure.

Condition of Young Teddy Roosevelt Improves.

ONE LUNG IS CLEARING UP

Symptom of Pleurisy in the Other.

Crisis Not Yet Passed—Prince Henry Expects to Sail for America.

GRONON, Mass., Feb. 11.—(Associated Press)—The president's son's condition showed some improvement this morning.

At 8:30 Secretary Cortelyou gave out the information that both his temperature and respiration were better. The disease has passed its climax in the right lung to the satisfaction of physicians.

While the change for the better in the opinion of the doctor cannot be called a decided one, it includes more of a favorable condition both in respiration and in pulse and temperature. The crisis, which is in the left lung has been successfully passed, and is still to be met in the right lung. A symptom of pleurisy has been noted in this lung. While this has given rise to some fear the disease may yet develop into pleuro-pneumonia, there are strong hopes that the threatened complications will be overcome. Mrs. Roosevelt was at the infirmary all night. The President was there until midnight. Early this morning he returned again to visit the patient and escort his wife to breakfast.

At 11 Secretary Cortelyou made the following statement: "The condition of the boy since the favorable announcement of the morning has remained unchanged. The pleurisy which developed this morning has proved to be very slight thus far."

At 8 o'clock Secretary Cortelyou gave out this information: "The symptoms are not quite as favorable as this morning. This was anticipated, as from the nature of the disease the patient was not expected to be as well tonight or tomorrow morning as he was this morning."

Prince Will Come.

BERLIN, Prussia, Feb. 11.—(Associated Press)—Prince Henry of Prussia, will sail for the United States on Saturday as arranged. Even should Roosevelt's son's illness result fatally before that time it is probable the prince will enter upon the journey, unless it should appear to be President Roosevelt's desire that the visit be deferred or omitted altogether.

Associated Press bulletins telling of the condition of Roosevelt's son were sent to Prince Henry at Schloss. The prince manifested anxious interest, expressed regret because of his illness and said he hoped the boy would recover. It is understood both Emperor William and Prince Henry have sent personal messages to President Roosevelt. The first impulse of Prince Henry was to postpone his trip or give it up altogether. He was advised, however, not to make this decision, but to bear in mind that his visit was not a personal one to President Roosevelt, but to the United States; that while the fatal ending of young Roosevelt's illness would limit the president's part in the hospitalities to a strictly official basis, the remainder of the program might be carried out. To Secretary Hay and Dr. Von Holleben, German ambassador at Washington, will be left a re-arrangement of the program of Henry's visit if the illness of young Teddy Roosevelt makes the change necessary.

ARE CHECKS GOOD

Is a Question Which is Interesting Stockholders.

DEPOSITORS IN CITY BANK

Anxious to Know About Andrews' Certified Checks.

Latter Arrested and Arraigned for Violation of State Banking Law.

DETROIT, Mich., Feb. 11.—(Special.)—The most vital question to depositors of the wrecked City savings bank, is whether the checks of Cashier Andrews certified to for F. C. Andrews, when the latter had no funds in the bank, and which he deposited with four other local banks and a trust company, are legal.

If held to be illegal because of Cashier Andrews having certified to them without the knowledge of directors, it is thought the assets of the City bank, with what is turned over to it by F. C. Andrews, will be sufficient to pay the depositors in full. On the contrary, if they are held to be legal, it will take just that much from the depositors.

President F. C. Pingree said today he believed the checks would be declared illegal, and that the depositors would receive at least 75 cents on the dollar. In the statement of the bank's condition, prepared yesterday, the checks were ignored.

F. C. Andrews has not turned over to the City bank any of the securities he took out of other banks with the over-certified checks and their whereabouts are not known. Nothing could be learned from Andrews about them yesterday. There was not much change early today in the condition of Cashier Andrews, who is seriously ill with nervous prostration.

Andrews Arrested.

Shortly before 9 o'clock last evening Frank C. Andrews, in the custody of Detectives Lombard and Fenton, appeared before Police Justice John B. Whelan and demanded an examination on the charge of violating the banking law made against him by County Auditor T. Hawley Christian. This was set for Friday, Feb. 21, and a few minutes later the prisoner was released on \$10,000 bail, furnished by Robert H. Murray and Malcolm McCallum.

Ever since Commissioner Andrews had been placed under arrest at the offices of the Detroit Trust Co., by Detectives Fenton and Lombard, and bail had been placed at \$10,000 late yesterday afternoon, Andrews' friends had been making earnest efforts to secure the necessary sureties.

Charges a Conspiracy.

The News in its noon edition says: The reason a warrant was not issued for Cashier Harry R. Andrews of the City Savings bank yesterday is because an attempt will be made by the county auditors to establish the existence of a conspiracy which will involve some of the other officers of the bank in the transactions which brought disaster to the institution. It is said that the cashier is not the only one of the officers who certified Frank C. Andrews' checks. Just who the other officers are, or whether in high or low positions, is not yet given out.

WAS ONCE PROSPEROUS

Mrs. Abigail Pritchard Died at County Poor Farm.

The death of Mrs. Abigail Pritchard occurred at the county farm, near Galesburg, Monday night. She was taken there only a few weeks ago and her death is the ending of an especially sad story. At one time her husband was the owner of a four hundred acre farm near Richland. In some way the property slipped from the family. The husband died and two grown-up sons are in Michigan asylum. One has been there ten years and the other about five. The mother had been living alone in Austin street for several years. She managed to exist only by the help of neighbors and the manner of her living was filthy in the extreme. Finally she was taken to the county farm by force, where she remained until she died last night. It had been claimed several times that she, too, was insane, but she was not admitted to the asylum.

MRS. WILL MILLER

Of Paw Paw Passed Away Sunday.

PAW PAW, Mich., Feb. 11.—(Special)—Mrs. Will Miller passed away Sunday morning after a two months' illness. Until the last week her friends had hoped against hope for her recovery. She will not only be greatly missed by her many friends, but the whole community. Mrs. Miller was and had been for years a society leader here. No social function was a success without her help in making it so. As one of her friends said she was a born leader. Last year she was president of the Coterie and this year an officer of the Eastern Star.

The year that she was president of the Coterie was the one of the most pleasant years the club has ever known, as she planned many surprises and her ideas were always so unique and original.

She had a happy and cheery disposition with a smile and kind word for everyone.

CHANGE IN SIAM

For Introduction of Modern
 Methods, Says King.

A FUND OF INFORMATION

In His Report to the Depart-
 ment of State.

Bangkok a City of a Million with-
 out Any Waterworks —
 Siamese Canals.

WASHINGTON, D. C., Feb. 11.—Con-
 sul General King at Bangkok, Siam,
 reports to the state department that
 there is great need of an American
 business house in that country. He
 says there is not in the whole of Siam
 at present one American house compe-
 tent to consider a business proposition
 or a government contract, to push
 American trade or to represent Ameri-
 can interests. Other nationalities are
 well represented. They are constantly
 seeking business, and in the event of
 opportunities are ready to consider
 them at once.

Mr. King declares that an American
 business house should be established
 in Bangkok, and says that after three
 years' residence in that city he is per-
 suaded that for the right kind of people
 there is an excellent business outlook
 in that country.

After stating the conditions under
 which an American house could suc-
 ceed he says the electrical develop-
 ment of the city of Bangkok during the last
 ten years has been wonderful. There
 are twenty-six private electric plants
 in the various mills, foris, dock com-
 panies and the navy yard in that city.
 A house handling clocks, bicycles, sew-
 ing machines, lamps and other lines of
 sure selling articles, through consign-
 ments or through guaranteed orders,
 would benefit the trade.

Mr. King says that the imports of
 cotton and piece goods alone in the
 port of Bangkok amount to about \$1-
 600,000 gold a year, of which scarcely a
 dollar's worth comes from America.
 Yet the only barriers to these goods
 between Bangkok and America are the
 present rates of freight and our de-
 mands for cash payments, the removal
 of either of which would open the
 market.

City of Bangkok.
 The consul general says Bangkok is a
 great city of 1,000,000 souls, whose only
 water supply is that of the rain from
 the heavens during the seven months
 of the wet season and of the foul and
 brackish waters of the rivers and the
 canals during the five months of the
 dry season; a city which, because of
 this, loses its citizens by thousands
 every year from the scourge of Asi-
 atic cholera. The one escape from this
 is a public water supply, which the in-
 creasing intelligence and progress of
 Siam must provide. Mr. King cites the
 great need for a sewerage system in the
 country, and says:

"Siam is, with few exceptions, a
 great alluvial plain extending hundreds
 of miles to the north. This plain is
 capable of being made the richest rice
 garden of the world. As yet, the soil
 has been scratched in but the crudest
 way and in but few and limited areas;
 yet its abundant harvests feed the mil-
 lions of Siam's people and supply an
 export of between \$2,000,000 and \$3,000-
 000 worth every year. The very little
 that has been done to turn the jungle
 into productive fields has returned rich
 rewards in improved harvests, im-
 proved revenues, and improved homes;
 yet this great uncultivated plain lies
 ready to respond to the simplest pro-
 cesses of irrigation, with returns that
 will make Siam one of the richest of
 agricultural countries. Those compe-
 tent to speak say there is nothing like
 its promise as a rice-producing country
 in the world; its area is vast, its soil
 is rich, and the quality of its rice
 stands first in the European markets.
 The problem of irrigation is one of the
 simplest and will soon receive atten-
 tion.

Many Canals.
 "The highways of this country are
 its canals, which intersect this vast
 plain in every direction. These, through
 years of neglect, have become choked.
 With the dredging of these old canals
 and the opening up of new ones, Siam's
 increasing harvests and improved in-
 dustries must find cheap transport to
 the sea; and here is another problem
 that awaits solution.

"The great mud flat at the mouth of
 the river, known as the bar, stretches
 away for miles, effectually blocking this
 splendid harbor against all shipping
 for a good part of the time, and against
 a good part of the shipping at all times
 —a hindrance to commerce, an expense
 to the trade, and an unmitigated nu-
 lance that finds no excuse for its ex-
 istence but the considerable outlay that
 would be required to remove it. This
 will not be endured much longer by an
 intelligent people.

"Siam's railroads are but in their in-
 fancy, yet the little state has already
 spent the handsome sum of \$14,300,000
 Mexican (about \$7,500,000), and her rail-
 road program extends well into the fu-
 ture.

"She has a snug little navy, of which
 she is justly proud, and this with her
 army of 30,000 soldiers, furnished with
 the most modern equipment, calls for
 constant supplies.

"These are some of the plans and
 problems that confront this people for
 solution now; of the development of the
 mines and forests and the abundant
 agricultural resources let the future
 speak. For a house competent to enter
 into this field, there is probably no
 better business outlook in the world."

AS INDIAN BRAVES

High School Boys to Star in
 "Powhatan."

The High School Athletic association
 met Monday afternoon and accepted
 the proposition of William A. Baker,
 leader of the Indian opera, "Powhatan."
 President E. N. Worth called the
 meeting to order and announced that
 a joint meeting of last year's track
 team and the board of control would be
 held this afternoon for the purpose of
 electing a track captain.

Prof. Worth introduced Mr. Baker
 who gave a short talk on the story of
 the opera and his experience with it
 in different Michigan cities. The net
 proceeds will be shared by Mr. Baker
 and the association. The following
 committee was appointed to have
 charge of the opera: Prof. W. R. Mat-
 toon, chairman, the Misses Ethel Ever-
 ard, Winifred Hodge, Katherine Shean
 and Miss Elder of the faculty and
 Messrs. John De Visser, Ralph Pinckard
 and Prof. W. G. Smith.

ANTI-SALOON LEAGUE

Opened Up Its Convention in
 Lansing Auspiciously.

LANSING, Mich., Feb. 11.—The open-
 ing session of the State Anti-Saloon
 league mass meeting Monday after-
 noon was attended by some 225 repre-
 sentative citizens from various parts of
 the state, many clergymen and ladies
 being among the number. The session
 was held in Representative hall, and
 was presided over by H. R. Patten-
 gill of Lansing. The Rev. J. F. Lewis
 of Grand Rapids acted as secretary.
 The afternoon exercises included an ad-
 dress of welcome by the Rev. H. W.
 Clough of Lansing and a response by
 Prof. W. N. Walbridge of Grand Rap-
 ids, and the following addresses: "Prac-
 tical Lines of Work," President A. G.
 Slocum of Kalamazoo; "County Local
 Option," President W. C. Sperry and
 Prof. O. A. Wright of Olivet college.

At the conclusion of these addresses
 committees were appointed with the
 following chairmen: Legislation, W.
 G. Hubbard, Lansing, state superin-
 tendent; press, the Rev. Reed, Howard
 City; finance, A. G. Slocum, Kalamazoo;
 resolutions, the Rev. Jenkins, Car-
 son City.

Superintendent Hubbard made a re-
 port reviewing the work of the year.
 He spoke of the discouragements un-
 der which he labored, and mentioned
 the fact that most of his salary had
 been used in furthering the cause.

AMATEUR ROBBERS

Crack a Bank Safe at Mus-
 kegon.

MUSKEGON, Mich., Feb. 11.—Some
 time between late Saturday night and
 early Monday morning the Muskegon
 Savings bank was entered by thieves
 and robbed of \$270 in money, a gold
 watch and some rare old coins. The
 work bears the marks of amateurs
 rather than professional cracksmen.
 The bank is located in the opera
 house block, underneath which there is
 no basement, although there is a space
 of four or five feet under the first floor.
 The American steam laundry, which
 occupies the southeast corner of the
 building, however, has a small base-
 ment and it is through this that the
 thieves gained entrance to the bank
 vault.

It is now believed by the police au-
 thorities that the robbery was the
 work of four boys between the ages of
 17 and 20 years of age. Two young fel-
 lows who are familiar with the opera
 house building, in which the bank is
 situated, and are habitués of the place
 were placed under arrest on suspicion
 late Monday afternoon.

How to Have an Appetite.

It is a mistake to try to spur on the
 appetite by the use of acids, condi-
 ments and strong seasoning of food.
 These articles may for a time increase
 the appetite, just as the spurs on the
 rider's heels increase the speed of the
 horse. But the additional food which
 is taken is not likely to give the nour-
 ishment and increase the strength as
 it would do if the appetite were nat-
 ural. The true way to increase the
 appetite is to tone the digestive or-
 gans and put them in such condition
 that food is craved and is promptly
 digested and assimilated. This is done
 by Hood's Sarsaparilla which seems to
 have a magic touch in all stomach
 troubles and is a wonderful medicine
 for giving a good appetite. Whenever
 your appetite fails get a bottle of this
 medicine and take it according to di-
 rections. You will find it will soon
 make you hungry, and the food you
 eat will give you strength and build
 up your system in perfect health.

KIDNEY TROUBLE, LAME BACK AND RHEUMATISM CURED BY SWAMP-ROOT.

To Prove What the Great Kidney Remedy, Swamp-Root, Will
 Do For YOU, Every Reader of the Telegraph May Have a
 Sample Bottle Sent Free by Mail.

T. F. McHUGH, ESQ.

Tacoma, Wash., Nov. 29th, 1901.

DR. KILMER & CO., Binghamton, N. Y.
 Gentlemen—It gives me great pleasure to add my testimonial to that of
 hundreds of others regarding the wonderful curative properties of Swamp-
 Root. I had a lame back three years ago before leaving North Dakota for
 the coast. Soon after my arrival in the Puget Sound country it became very
 much worse. I felt certain that the coast climate had given me acute rheu-
 matism and came to the conclusion that I could not live in this climate.
 Later I became convinced that what I really had was kidney trouble, and
 that the rheumatism was due to my kidney trouble. The lameness in my
 back increased rapidly and I had other symptoms which indicated that I
 would soon be prostrated unless I obtained relief quickly. Noticing your
 offer of a sample bottle of Swamp-Root, free, I had a friend write for one
 and began taking it immediately. Within three weeks the lameness in my back
 began to disappear. During that fall and winter I took three one-dollar
 bottles of Swamp-Root with the result that I became completely cured. I
 no longer have pains in my back and can exercise violently without feeling
 any bad effects. I have recommended Swamp-Root to several of my acquaint-
 ances who were similarly affected and without exception they have been
 greatly benefited by its use.

Yours very truly,

T. F. McHugh

(T. F. McHugh.)

701 E. St., South

Lame back is only one symptom of kidney trouble—one of many and is
 Nature's timely warning to show you that the track of health is not clear.
 If these danger signals are unheeded, more serious results are sure to
 follow; Bright's Disease, which is the worst form of kidney trouble, may steal
 upon you.

The great kidney remedy, Dr. Kilmer's Swamp-Root, is used in the lead-
 ing hospitals, recommended by physicians in their private practice, and is
 taken by doctors themselves who have kidney ailments, because they recognize
 in it the greatest and most successful remedy for kidney, liver and bladder
 troubles.

EDITORIAL NOTE—Swamp-Root has been tested in so many ways, and
 has proven so successful in every case, that a special arrangement has
 been made by which all readers of the Telegraph who have not already tried
 it may have a sample bottle sent absolutely free by mail. Also a book tell-
 ing all about Swamp-Root and containing many of the thousands upon thou-
 sands of testimonial letters received from men and women who owe their good
 health, in fact their very lives to the wonderful curative properties of
 Swamp-Root. In writing, be sure and mention reading this generous offer in
 the Telegraph when sending your address to Dr. Kilmer & Co., Binghamton,
 N. Y.

If you are already convinced that Swamp-Root is what you need, you can
 purchase the regular fifty-cent and one-dollar size bottles at the drug stores
 everywhere. Don't make any mistake, but remember the name, Swamp-Root,
 Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

PROTECTION TO SUGAR.
The editor of the Review of Reviews, in the February number of that usually fair periodical, makes some very wild and unjust statements about the beet-sugar manufacturers of the country and their opposition to a reduction in the duty on sugar from Cuba. The editor says:

"A few people interested in beet-sugar culture—not all of them in the pecuniary sense, for some of them are merely enthusiasts in American agricultural promotion—fought bitterly against the annexation of Hawaii, having previously sought to destroy the Hawaiian reciprocity treaty; and later they opposed with all their might the annexation of Porto Rico and the extension to that island of our system of domestic free trade. These same beet-sugar fanatics would, if they could, at once expel Louisiana from the Union because that state has the effrontery to produce cane sugar. Such a policy is protectionism gone mad. The reasonable policy of protectionism always subordinates each particular interest to the well-being of the community as a whole. While the true protectionist holds to the doctrine that the tariff against foreign competing products has aided in the upbuilding of American wealth and prosperity, he does not fail to see that far more important factors in the development of the country's economic strength have been its possession of varied resources and the absolute freedom of trade that has prevailed within our own boundaries. From time to time we have sought new territory within our political and economic system; and while this has always, directly or indirectly, resulted in disadvantage to certain individuals or interests, it has, on the other hand, always been beneficial to the country as a whole."

The manufacturers of beet sugar are not protection fanatics. They simply take the position held by all advocates of protection, that congress should impose a sufficiently high duty on anything which we can produce to the extent of our wants, to keep out the foreign product and retain our home market for ourselves. It is contended by the editor above quoted, that the beet sugar manufacturers did not oppose the annexation of Hawaii or of Porto Rico; but in common with many others opposed free trade between those islands and the United States. As a matter of fact the reciprocity treaty between the United States and Hawaii, previous to annexation benefited only Claus Spreckles, and not the people at large.

It is absurd and totally false to charge that the beet sugar "fanatics" would expel Louisiana from the Union because that state produces cane sugar.

The Non-Irritating Cathartic

Easy to take, easy to operate—

Hood's Pills

This state alone shows the editor's lack of candor.

It is no longer a matter of dispute that the policy of protection brought about the present great prosperity of the country. It was protection that diversified our industries. Free trade between the states is not the cause of prosperity, but the result of prosperity. Labor conditions in the several states are practically the same, hence one state does not need protection against another state.

For years it has been a problem in the minds of many how to promote the sugar industry in this country. A bounty was tried in 1890 but failed. The tariff of 1894 discarded the bounty and lowered the duty on sugar. It was not until 1897 that the sugar industry was given sufficient protection to warrant any large investment of capital. The sugar schedule in the present tariff was framed with a view of establishing beet sugar factories in every northern state eventually producing sugar to the extent of our wants. This was certainly a proper field for protection. As a result, the production of beet sugar in this country increased enormously; and if the protection is not removed will in a few years be equal to our domestic demand.

Free trade has always been advocated on the ground that it is for the benefit of the greatest number; but experience shows that in the long run, a policy that develops domestic industry is for the good of the greatest number. If the United States can produce all the sugar it needs, this one industry means the employment of many hands and profitable cultivation of many acres of ground. The benefit to the farmers will be almost beyond estimate.

If Cuban sugar can be admitted free under a reciprocal arrangement without any injury to our domestic sugar industry, why not admit Canadian cattle and lumber by reciprocity treaty? Why not admit English and German woolen goods free by a similar arrangement? In fact where is the line to be drawn? The beet sugar industry is entitled to protection as much as any other industry—in fact more so because it is just starting. Our guardianship over Cuba does not involve or call for a surrender of any portion of our protective tariff to the injury of any domestic industry. If the duty on sugar is to be lowered, then certainly the duty on all the raw materials used by American beet sugar manufacturers should be lowered. This is only fair. But such a proposition would be speedily rejected.

The protective policy is and must be a rounded and complete whole—symmetrical in every part. The annexation of insular territory or the guardianship of an island, should not disturb or weaken it. If the structure is weakened in one part it is sure to display weakness in other parts. If the editor of the Review of Reviews means to be fair, he will modify his statements. If the Republicans in congress desire to be fair and consistent they will let the sugar tariff alone.

ANTI TRUST.

The industrial commission has made a report recommending action in the matter of combinations and trusts. Among other things the commission says in addition to its recommendations of 1900:

That the district attorney of the United States be directed to institute proceedings for violations of the federal anti-trust laws.

That combinations and conspiracies, in the form of trusts or otherwise, in restraint of trade or production, which by the consensus of judicial opinion are unlawful should be so declared by legislation uniform in all jurisdictions and as to all persons, and such statutes should be thoroughly enforced.

That stringent laws be enacted by the congress and the several state legislatures, making both penal and criminal the vicious practice of discriminating between customers, and cutting rates or prices in one locality below those which prevail generally, for the purpose of destroying local competition; and that such laws should give to any person damaged the right to sue for and recover prescribed penalties, and make it the duty of prosecuting officers to proceed against offenders.

JOHN QUINCY ADAMS.

John Quincy Adams, sixth president of the United States, and son of the second president, was born in the town of Quincy, Mass., July 11, 1767.

He was named for his maternal great grandfather, who was a man of considerable local position and provincial distinction.

Young Adams early imbibed the essence of patriotism. At the age of seven he witnessed the battle of Bunker Hill, from a nearby eminence. When his father attended the continental congress, young Adams rode to and from Boston, a distance of ten miles, to obtain the latest news for his mother.

At the age of eleven he accompanied his father to France, where he received the best part of his education at Paris, Amsterdam and Leipzig.

In 1781, at the age of fourteen, young Adams became private secretary to Francis Dana, who was sent as an envoy to Russia from the United States.

Within the year he was recalled by his father to Paris, where Mr. Adams was engaged with Dr. Franklin and Thomas Jefferson in negotiating a treaty between the United States and Great Britain. Young Adams became one of their secretaries, and was of important service in the preparation of papers necessary to the conclusion of the treaty.

Mr. Adams, senior, was appointed American minister to the court of St. James in 1785, and young Adams was consumed with the desire to accompany his father to London, where he would be surrounded by the most eminent men of the time, and become familiar with public affairs. The temptation was not easily resisted, but he realized his educational deficiencies, and with almost premature wisdom understood that this was the period in which to equip himself for association with men of attainments and high ideals. Accordingly he returned to the United States and entered Harvard college, from which he graduated with high honors in 1787.

He then studied law with the celebrated Theophilus Parsons, with whom he remained three years. He was admitted to the bar and began to practice in 1791.

He wrote freely for the newspapers, his articles attracting much public attention. He published papers denunciatory of the course of the French minister, Genet, in connection with the question of neutrality, and soon after President Washington sent him his nomination as minister resident at The Hague. He was now 27 years old.

He married Miss Louisa Catherine Johnson, daughter of Joshua Johnson, then American consul at London, on July 26, 1796.

In this same year Washington was succeeded by John Adams to the presidency, and in writing, Washington recommended the appointment of John Quincy Adams minister to Russia.

J. Q. Adams accordingly was sent to Russia. Meantime he had acquired the German language during his residence in Berlin.

He was elected to the United States senate in 1803, having already served a term as state senator. He encountered much hostility in Washington, engendered by his father's uncompromising and dictatorial habits, and the son's own freedom of speech and independence of action.

Not popular at home, he was received with marked cordiality abroad, whither he was sent by President Madison in 1809, to negotiate between the United States and Russia, and again later he acted as mediator between the United States and England. In these capacities he was signally successful.

He became secretary of state in the cabinet of James Monroe and the administration of his duties brought him into prominence despite unjust prejudice, and he began to be named as candidate for the presidency. The close of the term of James Monroe, and the conduct of a new election, greatly excited party feeling. Mr. Adams refused to do anything to promote his own election. In the electoral college the votes stood: General Jackson, 69; Mr. Adams, 34; Mr. Crawford, 41; and Mr. Clay 37 votes.

John C. Calhoun was elected for the vice presidency, but the house of representatives was called upon to elect the president.

Mr. Clay held the balance of power with the house, and Mr. Adams was finally chosen and elected by the house, Mr. Clay becoming a member of the cabinet.

During his administration Mr. Adams signed more commercial treaties than had been negotiated since the formation of the government. He was untiring in his devotion to duty. He was also at all times a profoundly religious man, and his life as president is marked by its simplicity and lack of show. He was, however, succeeded in office by General Jackson of the opposing party. In 1830 it was suggested to Mr. Adams that if the people desired to nominate him to the house of representatives, would he not feel it degrading to his dignity. Adams replied that no person could be degraded by serving the people as representative in congress, nor in his opinion would an ex-president be degrading his dignity by serving as selectman in his town if elected by the people. He was elected by a flattering vote and continued to represent his district until his death, a period of sixteen years.

He entertained a deep antagonism to negro slavery. He was stricken with paralysis while speaking on the floor of the house and died there, Feb. 23, 1848.

The old aristocratic Adams mansion still stands on the Turnpike road, in the town of Quincy, hidden in a luxurious old time garden, and protected from curious eyes by a high fence which is itself as old as the oldest inhabitant can remember. The house is occupied by descendants.

Samuel, John and John Quincy Adams are interred in the old Unitarian church at Quincy.

The several state legislatures enact laws similar to the anti-stock-watering laws of Massachusetts; also to provide for state supervision of all public service corporations, with power to recommend or regulate rates for service and to pass upon the public need, desirability or exigency of any proposed new service.

That an annual franchise tax be imposed upon all state corporations engaged in interstate commerce, calculated upon the gross earnings of each corporation from its interstate business; that the minimum rate of such tax be low, but that the rate be gradually increased with increases in earnings.

That there be created in the treasury department a permanent bureau, the duties of which shall be to register all state corporations engaged in interstate or foreign commerce; to secure from all corporations reports needed to enable the government to enact a franchise tax with certainty and justice and to collect the same; to such corporations as will guarantee the completeness and accuracy of the information needed to ascertain whether such corporations are observing the conditions prescribed in the act, and to enforce penalties against delinquents; and to collect and publish information regarding such combinations and the industries in which they may be engaged, so as to furnish to the congress proper information for possible future legislation.

That if a department of commerce and industry shall be established, one of its functions should be to call attention from time to time to such economic changes in the world's progress as may suggest tariff modifications and also to such commercial opportunities as may suggest reciprocal legislation and furthermore to any evils incident to combinations which changes in the tariff will correct.

That, in view of the extent and perfection of our manufactures of export growing export trade and the sharp competition it encounters in foreign markets, of the practice by some exporters of making lower prices abroad than at home, and of the desirability of protecting the consumer as well as the producer, without awaiting other legislation, the congress provide for a commission to investigate and study the subject and report as soon as possible what concessions in duties may be made without endangering wages or employment at home, what advantages abroad may be obtained there-

for, and also to suggest measures best suited to gain the ends desired.

THE DANISH TREATY.

The text of the Danish treaty provides for the cession to the United States of all three of the Danish islands, St. Thomas, St. John and St. Croix, "with the adjacent islands and rocks." The treaty of thirty years provided for the immediate cession of but two of the islands. The new arrangement is very much more advantageous to the United States, and the price set—five million dollars—is less than half that would have been required to secure all of Denmark's West Indian possessions in 1868.

Our government receives absolute fee and ownership of all public and crown lands, public buildings, ports, harbors, fortifications, barracks, etc. Danish subjects remaining in the islands are given the same rights and privileges which the treaty of Paris guaranteed to Spanish subjects remaining in Cuba. They retain, of course, all their property rights, and if they desire they may preserve their allegiance to Denmark by making before a court of record within two years a declaration of this purpose. If they do not make such a declaration, it is to be assumed that they have accepted the allegiance of the United States. The civil rights and political status of the inhabitants of the islands are to be determined by congress. There is no stipulation that they shall enjoy the franchise or any other general privileges of American citizenship. However,

BENSON & GEORGE,

THE NEW CASH DRY GOODS HOUSE.

ever, congress will unquestionably give them the widest freedom which our laws allow.

The appeal of the Washington woman to the president for a change in the customs regulations at New York is one that will be indorsed generally by persons entering this country from abroad. The free limit of a hundred dollars is absurd on its face and the minute inquisition conducted by examiners has made it as obnoxious as possible.—Exchange.

The present law provides that a person can bring in free of duty only \$100 worth of wearing apparel purchased abroad.

Our exchange says this is absurd. Perhaps; but we would like to know why rich Americans who travel abroad should have the right to bring back with them free of duty any amount of clothing they desire, and thus supplant domestic made clothing? The men and women of moderate means who cannot afford to go abroad must pay a heavy duty on a London suit or a Paris gown, if they purchase one. Why should not the wealthy men and women pay a similar duty when they bring this clothing with them? The provision of the tariff law affects only the wealthy and is just and equitable.

W. E. Mason of Illinois is not the only senator having troubles at home. Indiana's junior senator has a fight on his hands which is giving him a great deal of trouble at this early date. Twenty-five state senators are to be elected this year, who will vote for successors for both Senators Fairbanks and Beveridge. Of the twenty-five the Republicans will elect fifteen, and a fight is being waged by the friends of Senator Beveridge to secure the nomination of candidates who will be favorable to him in 1905.

W. T. Stead has written a book called "The Americanization of the World, or the Trend of the Twentieth Century." This condition of affairs is quite possible.

The moral contained in the recent career of Frank C. Andrews is obvious. Detroit is seriously jarred over the failure of the City Savings bank.

"We Give You Just What You Ask For."

A Short Sermon on the Dishonest Practice of "Substitution" by Storekeepers.

Outside the drug store—the store of J. Milhau's Son, at No. 183 Broadway—you may read the announcement at the head of this article. "We give you just what you ask for."

We are glad to seize upon this occasion to pay a tribute to this motto, and, incidentally, to point out a dishonest and very common practice among mer-

chants—that of substituting one article for another.

One business man devotes all his energy, his money and his time to building up the reputation of a certain article. He enables the retailer to make a large profit, and he spends his money that customers may be plentiful.

When a customer asks for the article in question it is dishonest to say to him, as many do:

"Don't buy that. We have something else just as good and much cheaper."

If the merchant has something good and cheap of his own, let him sell it to his customers by all means. But let him not steal the trade of a man whose energy helps to build up his business. Let him not divert to his own pocket all of the profit which he ought to in honesty share with another.

There are wares that are made enormously profitable to the retailer simply because men push their business with intelligence and perseverance. It is ungrateful as well as dishonest for the sake of a little extra profit to cut into the legitimate business of the advertising manufacturer.

Incidentally the public, as well as the storekeeper and the manufacturer, are interested in this question of substituting one article for another.

That which is represented as "just as good" is usually not just as good, but very far from it.

If a man has spent a million dollars

building up the reputation of a certain article, it is to his advantage to keep up the quality of the material which enters into the manufacture of that article. His profit is large if he is honestly treated, and it would be suicide for him to use inferior material for the sake of a little extra money.

The man who makes up an imitation article and announces it as "just as good" has no such sum at stake. He has invested nothing. He has no valuable name to ruin, and it is to his interest to make the "just as good" article JUST AS CHEAP as he can make it.

The buyer should remember these facts and put his confidence in that retailer who, like the man quoted at the head of this article, gives to the customer JUST WHAT HE ASKS FOR, treats the wholesaler honestly, and shows gratitude for the energy which builds up a successful business and makes the retailer prosperous.

HAD A DREAM

That Her Sister Was in Danger.

SOUTH BEND, Ind., Feb. 11.—(Special)—Miss Maude Taylor, a girl of 20 years, reached the police station in this city Monday afternoon, having walked the distance from Elkhart here, 18 miles, through storm and cold in an effort to reach her sister who resides in Dowagiac, Mich. Miss Taylor is a resident of Dowagiac, but has been employed for some time as a domestic in Elkhart. She had a dream Sunday night which revealed to her she claims, the knowledge that her sister is in danger. At 6 o'clock she arose, resigned her position and started to walk to this city. She was suffering when she reached here. Trustee Hughes this morning furnished her transportation to Dowagiac.

board of education, which has on deposit in the city bank \$467,000, it was decided to elect a new treasurer tomorrow night to succeed Henry R. Andrews, who was cashier of the City Bank. The directors of the wrecked bank were on Andrews' bond and the board will proceed as soon as possible to collect the bank's indebtedness to it from the bondsmen and arrangements will be made to secure the funds from the city treasurer for current expenses.

Andrews' Story.

F. C. Andrews spent the night at the Cadillac. This afternoon he made the following statement to a Journal reporter, the first time he has talked for the press since the crash:

"I've not a penny. I'm ruined. But I don't worry about myself. All that is on my mind now is to save others involved in this crash.

"There has been any amount of lies and misstatements made about this matter. They say I don't know where the collaterals went to. If they would only be less frenzied and resume their ordinary calmness I could explain to them the whole situation in less than three minutes.

"I did not take the certified checks all in one day, but successively. I went to the banks, and exchanged them for collaterals but in most instances they had been sold either through Cameron, Currie & Co., brokers, or the State Savings bank. The money I got was used to pay drafts and obligations at other banks. There are memorandums of every transaction and all the collaterals can be satisfactorily explained if only they take the trouble to listen to me.

As far as Harry Andrews is concerned, there is nothing especially wrong about it. He can take a man's note for \$50,000 if he supposed the maker to be good can't he? And if the maker turns out

MASONIC BROTHERS

Had Charge of the Funeral of Charles Edmonds.

OTSEGO, Mich., Feb. 11.—(Special)—The funeral services of Charles M. Edmonds were held Monday afternoon

from the home of his parents, supervisor and Mrs. C. M. Edmonds and were largely attended, the sympathy and respect of the town being shown in many ways, one of which was the closing of the places of business during the service. Charles M. Edmonds, was born in Valparaiso, Ind., in April of 1870. At the age of 5 years he came to this place with his parents and here his boyhood and school days were spent and here he gained a reputation unstained by any act and was beloved by all. He became self supporting at an early age and his genial manners activity and honesty of purpose gained him positions of trust and remuneration always. He became well known throughout the entire state by his connection with the Bay View house at Petoskey as manager. At the close of the summer he engaged as traveling salesman for Nelson, Morris and Co., of Chicago and with his family went to Decatur, Ill., to reside. While changing cars at Centralia, Ill., Thursday he was struck on the head by a train and so seriously injured that he died before his wife, who was at Decatur could reach him and without regaining consciousness. The F. and A. M. order of which he belonged took charge of the remains and shipped them to his home at Decatur. Mr. and Mrs. Edmonds of this place were at once notified of the accident and the father left at once for Centralia. But his death occurred before he reached there. He retraced his sad steps to Decatur and with the stricken wife and two small daughters arrived home with their sad burden Saturday evening. The funeral was under the auspices of the F. and A. M. order. The Rev. F. M. Coddington made

PAN AMERICAN MIDWAY

Will Be Brought to Kalamazoo by Company C.

Plans are on foot for a big Pan American midway to be given the first week in April by Company C, Michigan National Guards. The midway will be held at the Armory which will be put in the best possible shape and will be decorated in true Company C style. Not a stone will be left unturned to make the oriental show a big success and with few exceptions all the curiosities of the Buffalo exposition will be brought here.

Booths will be arranged around the hall similar as in the recent K. of P. fair while the attractions, it is claimed, will far exceed anything of the kind ever shown in this city. A competition for the most popular lodge in the city will be inaugurated. The prize will be a beautiful silk flag with the winner's name embroidered upon it.

The committee in charge of the affair is composed of Captain Don C. Ingraham, chairman; Sergeants Suojon and Miller, Corporal Friate, Private Latson, Lieutenant Colonel P. L. Abbey, Major J. B. Westledge, Lieutenants Redmond and Osborn.

PROHIBITION AMENDMENT

Discussed Today by the Anti-Saloon League.

LANSING, Mich., Feb. 11.—(Special)—The anti-saloon convention this morning discussed an amendment to the state constitution for total prohibition. A resolution was adopted that, acknowledging that prohibition sentiment is now insufficient to elect legislators who will support such an amendment, agitation should be continued along the line of county prohibition with state prohibition as the ultimate goal. Two thousand dollars were pledged for the league's debt.

SHORT-CITY ITEMS.

A. M. Clark of Ithling Bros. and Everard who was operated on Saturday night for appendicitis is progressing as well as can be expected.

E. B. Vincent is planning the erection of a flat building at the southwest corner of south Park and west Walnut streets in the spring. The old frame house which has stood there many years has been torn down.

A decree of divorce has been granted by Judge Adams in the case of Sarah Tooley vs. William Tooley. The complainant has been granted the custody of their three children. William R. Fox acted as attorney for the wife.

M. M. Seymour is issuing a postal guide of the free rural routes going out of Kalamazoo. It embraces everything connected with that branch of the postal service and its purpose has been approved by the local authorities who will furnish the data. It also covers the three new routes to be established the first of March.

Proceedings were commenced this morning in Justice Miller's court in the case of Edward Tombleson of Colorado, who is being held here on a fugitive-from-justice warrant. Tombleson is accused of having embezzled \$800 in money from a saloon firm of which he is a member. The matter was adjourned until Feb. 15, after Attorney C. S. Carney had made a motion that the defendant be discharged. The motion was denied. Tombleson was discharged late this afternoon. Chief of Police Greenfield received a telegram from the officers in Colorado stating that they had no case against him.

OLD SHOE FIRM FAILS

J. C. Bennett & Son Have Made an Assignment.

J. C. Bennett and Son, one of the oldest shoe firms in the city, has made an assignment of their business to protect creditors, who are said to have unpaid accounts of about \$5,000. E. H. Buckhout has been made assignee and will close up the business soon to the best advantage—probably at a closing out retail sale. The firm has been in straitened circumstances for some time. J. C. Bennett will retire and L. T. Bennett, his son, will devote his time to furthering the interests of the Kalamazoo Tuberculosis Remedy company, of which he is manager. It is hoped that most of the claims can be met.

CROSS ARRAIGNED

Charged With Malicious Destruction of Property.

Fred Cross, who smashed his wife's household goods early Sunday morning, was arraigned before Judge Browne in the recorder's court this afternoon on a charge of malicious destruction of property. He demanded an examination which was set for Feb. 13, whereupon he made a formal protest at being kept in jail for that length of time without an examination. He complained that the officers would not give him his satchel or notify his father of his predicament. Bail was fixed at \$1,500.

FUNERALS

Bertha M. Bussard.

The funeral of Bertha M. Bussard was held this afternoon at 1 o'clock at the home on Everard farm, two miles west of the city. A great many flowers were sent and the funeral was attended by many friends. The Rev. C. A. Hemenway officiated and spoke in a very tender manner of the young life which had been brought to such an abrupt close. Burial took place in Mountain Home cemetery.

LODGE ROOM SECRETS.

The Eastern Star will serve supper at Masonic temple Thursday evening and Mrs. P. L. Burdick is chairman of the committee in charge. Initiation will follow.

THE MARKETS

[From E. Flansburg, broker, Chase Block.]

CHICAGO, Ill., Feb. 11.—(Special)—Trading today in wheat on Change was of a desultory character, the holiday tomorrow restricting trading. The small volume of trading was in the nature of closing up old contracts. Three-eighths of a cent was the extent of changes in wheat. Corn and oats were more active and the price changes greater than in wheat. All commodities closed higher than Monday. Wheat 3c up, corn 3/4c and oats 1/4c higher. Liverpool unchanged to 3/4d lower. Northwest receipts, 215 cars. Tomorrow's receipts, 312,000 bushels. The world's visible supply of wheat decreased 3,423,000 bushels for the week. Receipts of hogs, 40,000; steady. For tomorrow, 46,000. Estimated receipts of sheep, 12,000; strong to 10c higher. New York stock exchange and Chicago board of trade will be closed tomorrow, Lincoln's birthday.

JUST AS YOUNG

As He Used to Be—Aged Galesburgian to Celebrate.

GALESBURG, Mich., Feb. 11.—(Special.)—Today is the 90th birthday anniversary of George W. Stenard, father of Addison Stenard of this village. Mr. Stenard, sr., is a native of Massachusetts, his father dying from fever as a soldier from that state, late in the war of 1812.

The subject of this sketch came to Michigan in 1836, locating in Pavilion township. Subsequently he removed to Charleston where, until a comparatively recent date he was a successful farmer.

With the latter occupation he combined that of a practical carpenter giving his attention largely to the construction of barns.

Asked recently how many of the latter he had erected, he replied: "Begin at Galesburg and count until you reach Scotts, and you will come pretty near it."

The distance is about fourteen miles and farms are pretty thick along the route.

Only two houses in Galesburg are his handiwork. That known as the Aldrich house and the fine home of H. Dale Adams, both on Battle Creek street.

To see Mr. Stenard upon the street one would never suspect that he was four score and ten, but would naturally judge from his appearance that two decades less would be approximately correct.

Like all of advanced years, our subject likes to indulge in reminiscences, but unlike many, he makes his subject interesting and is in consequence a pleasant companion.

That Mr. Stenard may yet see many number of similar anniversaries is the wish of all who know him.

DELTON.

DELTON, Mich., Feb. 11.—(Special.)—"Rebecca's Triumph" was indeed a triumph, for no play ever met with better success than did that put on by the Lady Macabees Friday night. Each character represented did justice to the part, while "Gyp," Miss Berenice Robinson, impersonator, was the life of the play and captivated the audience. As amateurs there could be found no better talent and we bespeak for these ladies praise wherever they may go.

Chronic Diarrhea.

(Catarrh of the Bowels.)

How This Annoying and Weakening Disorder May Be Cured.

The bowels are lined by mucous membrane that is very much like the lining membrane of the nose. Frequently catarrh attacks this mucous membrane lining the bowels and a discharge results that is known as chronic diarrhea.

Intestinal catarrh or catarrh of the lining membrane of the bowels is quite a prevalent disease, being especially common among men who have seen active service in the army where the many changes of drinking water, the food, and the frequent bad condition of both, together with exposure incident to the varying conditions of camp and march bring about repeated attacks of acute diarrhea that leave the lining of the bowels weak, irritable and predisposed to catarrh—just as repeated colds in the head predispose to chronic nasal catarrh.

Catarrh is a constitutional disease. It is in the system but finds vent or expression through a skin. In the outside or covering skin it is known as eczema, which disease is simply catarrh in the outside skin. When catarrh finds vent through the mucous membrane or lining skin of the various cavities and passages of the head it is most commonly called catarrh. When catarrh affects the mucous membrane or lining skin of the air tubes leading to the lungs it is usually named bronchitis. When catarrh gets vent from the lining skin of the female pelvic organs it is spoken of as leucorrhoea, whites and female weakness. And so on, when the lining skin of other organs are affected a distinctive name may be given to the ailment but it is just systemic catarrh finding a local expression and vent, and a systemic remedy that will cure catarrh in one part and under one name, will cure it in any other part under some other name.

Stuart's Catarrh Tablets will cure systemic catarrh, they cure it in the blood, therefore they cure its local vent or expression anywhere and everywhere. Eczema (catarrh in the skin); rhinitis (catarrh in the nose); bronchitis (catarrh in the air tubes); gastritis (catarrh in the stomach); diarrhea (catarrh of the bowels); cystitis (catarrh of the bladder); leucorrhoea (catarrh of the female pelvic organs); and all other catarrhs of whatever distinctive name or wherever located about the body, are cured by this sovereign remedy for systemic catarrh.

Cut off the fountain head and all streams it feeds go dry. Cure catarrh in the blood and there will be no local vent, expression or manifestation of it. The reason Stuart's Catarrh Tablets are credited with curing so many variously named diseases is because all these diseases are simply local expressions or vents for catarrh. Stuart's Catarrh Tablets are a reliable specific for catarrh under all names and in all parts; they are not a cure-all and a disease to be cured by them must be an expression of or vent for catarrh.

Chronic diarrhea, being a vent for catarrh through the mucous membrane or lining skin of the bowels, is readily cured by Stuart's Catarrh Tablets because they cure the catarrh in the system and there is nothing to find vent through some skin or mucous membrane.

Stuart's Catarrh Tablets are sold at all drug stores for 50 cents a box. If you have catarrh of any part, in any form, it will be prudent, wise and advantageous to make it your first duty to buy and take them for they cure catarrh anywhere and everywhere.

NO MORE COUGHS

Lillian Burkhardt, One of the Best Known Artists on the Vaudeville Stage, Says DR. BULL'S COUGH SYRUP Cures Her Coughs and Prevents Colds.

MISS LILLIAN BURKHART.

"Philadelphia, Sept. 10, 1901. 'Gentlemen: When I first entered my professional career I had trouble with my throat and voice. I could not find anything to cure me until my doctor recommended 'DR. BULL'S COUGH SYRUP.' Since that time I have used it exclusively, and am happy to say that I am perfectly free from all coughs and colds, and I am never troubled with hoarseness, notwithstanding the fact that I have to play in two performances each day. There is no doubt but it is the greatest cough medicine ever discovered. I find some trouble with druggists who try to sell me a substitute, but I always insist on 'Dr. Bull's.'"

"LILLIAN BURKHART. 'All reliable druggists sell DR. BULL'S COUGH SYRUP, large bottles 50c. A large bottle 1.00. It is a perfect substitute for cheap imitations; they are injurious. See that the 'Bull's Head' is on the package. 'SWALLOW DOSE—PLEASANT TO TAKE. FREE—A beautiful Calendar and a Medical Booklet Free to anyone who will write A. C. Gray & Co., Baltimore, Md., and mention this paper.'"

They were billed for Hickory Corners Saturday night, but the country roads are impassable so they will appear there later. They hope to take this play to Prairieville this week, probably Friday night if the weather permits. Mrs. Will Hughes of Prairieville, under whose supervision the ladies have been may feel well repaid. M. Branstetter's children are ill with chickenpox. Miss Maud Ruggie of Kalamazoo was a guest of Frank Doster's at Mrs. M. Davenport's last week. Dr. Scribner was called to the home of Elsie Forbes Saturday morning, the former having taken an overdose of morphine. Prompt and effective work on the part of the doctor saved Mr. Forbes' life. While Mrs. Henry Forbes and her son Bert were returning home Friday afternoon she was taken suddenly ill with sinking spells, caused from heart failure, and with difficulty reached home. Dr. Scribner was summoned at once, and at this time she is much improved. The reading circle will meet at W. H. Chase's home on Friday evening of this week. All are cordially invited. At the regular review Thursday of the L. O. T. M.'s Mrs. Hattie Scribner was elected delegate to the grand lodge convention, to be held at Marquette, Mich., in June. Mrs. Alice Collem was elected alternate. Mrs. Blamson is guest of relatives in Johnston. Fred Griswold left for Ohio Monday. Mary and Grace Chase of Kalamazoo seminary spent Sunday with their parents, Mr. and Mrs. W. H. Chase. Karl Cutler is quite ill, so much so that he has been confined to his bed for the past week. Jay Wilkinson has sold his farm to Johnson Brothers and will go to Winchester, Idaho, where he expects to locate. Rev. George R. McDowell returned Saturday from Grandville, Mich., where he has been holding revival services.

MENDON.

MENDON, Mich., Feb. 11.—(Special.)—Edwin Hasbrouk is suffering from a fracture of three ribs caused by coasting on the slide near the Klose harness shop. Mrs. A. Crandall had quite a bad fall on Friday of last week, slipping on an icy walk at her home and is quite lame from the effects of it. Born to Mr. and Mrs. Jesse Tomlinson on Monday last, a daughter. Roy C. Hallum and Miss Grace L. Reid were married last week at the home of her grandparents, Mr. and Mrs. R. M. Reid, the Rev. Meader officiating. Our present postmaster, Will McCoy, will undoubtedly remain in the office for another four years, his name having been recommended to the department by Senator Burrows. The people are evidently satisfied. Mr. and Mrs. John Snyder of Chicago, were visiting relatives in town the latter part of the week. While in town Mr. Snyder received a dispatch notifying him that he had been awarded the contract for erecting a large manual training school building, one of the largest and finest structures of the kind ever erected in the Windy City. This shortened their visit here by several days as the matter required his immediate attention. Mendon has a cat poisoner. During the past week some ten or more felines have succumbed to this inhuman method of reducing the surplus and some very high priced pets are among the number. Tuesday evening, Feb. 4th, Mr. and Mrs. H. H. Ryan were dining by the warm fire side in their home talking of the past and planning for the future, when sleigh bells were heard and in a few minutes the house was filled with neighbors and friends, with baskets filled pressed down and running over with good things. It was a very pleasant treat and the host and hostess very cheerfully extended the invitation to call again.

WILLIAMS.

WILLIAMS, Mich., Feb. 11.—(Special.)—Mrs. J. Sanford suffered a second attack of paralysis a few days ago. Mr. and Mrs. Frank Osborn of Trowbridge were guests of Mrs. Osborn's mother, Mrs. Upham. Lester Sanford was a guest of his uncle a few days in Kalamazoo last week. Mrs. Ella Neeson entertained her father the last of the week, J. Garrison. Miss E. McCarty of Kalamazoo visited with relatives the last of the week and Miss Lizzie Dobbin accompanied her home. Mr. and Mrs. Henry Adams of Martin were guests of Mrs. Adams' father, E. Hopkins. Quite a number from around here are going to attend the banquet in Kalamazoo Wednesday evening.

EDITOR HOLT

Has 'Something More to Say' About Governor's Political Fight.

Last Saturday the Telegraph published a letter from the editor of the Bellevue Gazette on the gubernatorial situation. The editor referred to an article that would appear soon in his paper. Here it is:

"Looking at the matter from a perfectly unprejudiced and unbiased standpoint, we are convinced that the attacks upon the administration of Governor Bliss are exceeding ill-timed and wholly unwarranted, and can do nothing else than work great and lasting injury to the party."

"We want it very distinctly understood that the editor of this paper has no political axes to grind, nor is he even craving the job of turning grindstone. He seeks no further political honors, but does desire political harmony, unless there is a valid cause for ignoring party precedent and surrendering the ties that have bound us together."

"We are astonished, to say the least, that such solid papers as the Jackson Citizen should endeavor to furnish shot and shell for the enemy, after Editor O'Donnell has been so many times honored by his party. We are likewise grieved politically to see the course Marshall Cook of the Hastings Banner, a member of the state central committee, and a man of (heretofore) solid sense and judgment, instead of consistently counsel against the conduct of the Allegan Gazette, should be almost disappointed if he didn't criticize any administration. We veritably believe Bro. Reid will want to move a change in the administration of affairs in the New Jerusalem, when he sees fit to quit this mortal coil. There are a few other smaller fish who are trying to laah the political sea, but so far as can be observed they are only wearing out their fins."

"Now, let us look at the facts. Gov. Bliss did not sign the mortgage tax bill, owing to the legal complications it would invite. He didn't sign a few private appropriation bills, as he didn't want to establish an example of small leaks in the treasury. He refuses to call a special session of the legislature to enact a primary election law that the same set of law-makers refused to pass at a previous session. And we are right here to say the great mass of the people of all parties honor his good sense. These are about the only things there is any kick about, except that our business executive is not a polished platform orator. Right here let us ask, how many public speeches has Senator McMillan made during his splendid career, and is there any one of the governor's defenders who will question the senator's ability as a statesman?"

"Michigan has prospered and her treasury is plenteous under the present order of things. The state has been orderly from Houghton to Monroe, there has been no conspiracy to defraud the people, and the governor's appointees have all discharged their duties in a faithful and efficient manner."

"Don't judge too hastily, brethren, and remember that where one Republican newspaper is against him one hundred are for him. Gov. Bliss will be his own successor. Mark that!"

PAW PAW.

PAW PAW, Mich., Feb. 11.—(Special.)—Following are the officers of Paw Paw live, L. O. T. M.: Margaret Pepper, L. C.; Rhoda Popkins, Lieut. C.; Kate Jacobs, P. L. C.; Anna Ellis, F. K.; Helen Groot, Chap.; Edna Nelson, sergt.; Mattie Wall, M. A.; Flora Showerman, P.; Mary Salisbury, sent. Mrs. Broughton of the University of Michigan spent a few days at home and returned home Sunday night, Monday being the beginning of the second semester. An informal musicale was held at the home of Mr. and Mrs. R. W. Broughton on Monday night, by the ladies of the Episcopal church. Tickets were sold on a quilt to be given to the one possessing the lucky ticket that evening. At the dinner given for the benefit of one of the members of the Presbyterian church nearly \$75 was realized. A good many members of the Paw Paw Grange attended the debate between the Decatur and Paw Paw granges at Decatur on Saturday last. A dinner was served at four, the debate ended in favor of Decatur. Mrs. J. J. Woodman invited about 70 friends and neighbors to a surprise on her husband Thursday afternoon. Quite a program was rendered, Mr. Harvey singing a song, and Mrs. Woodman singing, "How the Farmer Found a Wife." Remarks were made by Richard Warren, A. C. Gilden and Rev. Harvey. Miss Lizzie Hudson Reynolds of Battle Creek is visiting friends and relatives here. The C. C. C. met last week with Mrs. Stanley Briggs. Miss Maude Lucas spent Sunday with her parents in Kalamazoo. The Cotier will hold a special day on Feb. 12. Following is the program: Director, Mrs. Amanda Bartram; Piano solo, Mrs. G. W. Longwell, sr., Mr.

RHEUMATISM CURED

By Driving Out Uric Acid Poison From the System. Permanent Cure Can Be Effected, But First the

KIDNEYS MUST BE HEALTHY. Rheumatism, Rheumatic Gout and All Forms of Uric Acid Poison Are Results of Kidney Disease, and Can Only Be Cured by Getting Direct at the Seat of the Trouble, the Kidneys.

WARNER'S SAFE CURE

is the Only Positive Cure for All Diseases of Kidney, Liver, Bladder and Blood. "Sandwich, Ill.—After a delay of months to be sure that a cure of my rheumatism of over a year's pain suffering had been effected, I desire to assure you that so far as I know anything of myself I am well. I am persuaded that Warner's Safe Cure did it. I believe that the medicine will do all that it claims to do, if the patient will follow the instructions to the letter. (Rev.) I. VILAR, Pastor M. E. Church."

TEST YOUR URINE. Put some morning urine in a glass or bottle, let it stand 24 hours; if there is a reddish sediment in the bottom of the glass or if the urine is cloudy or milky, or if you see particles or germs floating about in it, your kidneys are diseased and you should lose no time, but get a bottle of Warner's Safe Cure, as it is dangerous to neglect your kidneys for even one day.

WARNER'S SAFE CURE is the only positive cure for all diseases of kidney, liver, bladder and blood diseases, uric acid poison, rheumatic gout, diabetes, pain in the back, scalding and painful passage of urine, frequent desire to urinate, painful urination, bearing down and so-called female weakness.

WARNER'S SAFE CURE is purely vegetable and contains no harmful drugs. It does not constipate; it is now put up in two regular sizes and is sold by all druggists, or direct, at 50 CENTS AND \$1.00. A BOTTLE LESS THAN ONE CENT A DOSE. Refuse substitutes. There is none just as good as Warner's Safe Cure. It has cured all forms of kidney disease during the last thirty years. It is prescribed by all doctors and used in the leading hospitals as the only absolute cure for all forms of disease of the kidney, liver, bladder and blood and so-called female weakness.

WARNER'S SAFE PILLS, taken with Warner's Safe Cure move the bowels and aid a speedy cure.

WEST OSHTEMO.

WEST OSHTEMO, Mich., Feb. 11.—(Special.)—Mr. and Mrs. James Daniels were called to Kalamazoo last week by the serious illness of Mrs. Dustin, brother of Mrs. Daniels. Roy Billings of Fennville was a guest at E. A. Stoughton's last week. Charlie Sowles and wife attended the funeral of their aged father at Galesburg last Thursday. Mr. Sowles is visiting relatives at Battle Creek at the present time. Rev. J. A. Whitaker and wife will entertain the young people of the Sunday school at their home near Paw Paw Wednesday evening of this week. Miss Maple Abbot and Miss Grace Upon have been visiting friends and relatives at Kalamazoo. Floyd and Wallace Harmon will give a Valentine party next Friday evening at their home. Mr. and Mrs. Dell Sampson of Kalamazoo were guests Sunday of Mr. and Mrs. Richard Sampson.

VICKSBURG.

VICKSBURG, Mich., Feb. 11.—(Special.)—Prof. and Mrs. O. O. Bishop and Miss Ethel Underwood entertained Mrs. Lillie Robinson and the Misses MacMaster and Hilla Axtell at a 5 o'clock tea Wednesday evening. The new engine at the power house has been put in position and as soon as the connections are in place, which Electrician Derhamer thinks will be this week the wheels will go round. The Woman's Home Missionary society will meet at the home of Mrs. Roberts on Wednesday afternoon. Edd Day and Frank Taylor returned Friday from Howell, where they attended the wedding of George E. Taylor and Miss Julia May Groat at the bride's home near that place. Mrs. Libbie Howes of Battle Creek was the guest of O. W. Holmes and wife one day last week. Last Wednesday afternoon the Woman's Foreign Missionary society of the M. E. church met at the home of Mrs. R. C. Goldsmith on Prairie street. Mr. and Mrs. J. W. Smith of Chesaning, who were recently married at Chapin, are spending a few days with his brother, C. B. Smith and family. Eden Yates of Tekonsha visited J. R. Cropey and family and called on other relatives and friends last week. Miss Glenis Nash, entertained her friend Miss Hazel Wilson of Climax this week.

FOOD FOR A YEAR.

HOLLAND CITIZENS

Ask the President to Intervene in War.

WASHINGTON, D. C., Feb. 11.—Congressman W. A. Smith and Hon. G. J. Diekmann called on President Roosevelt Saturday and presented to the president a resolution adopted by Holland citizens at a recent public meeting, asking the president to use his influence with England in bringing about honorable peace between the South African republics and England. Mr. Smith also presented a petition signed by 840 voters of Holland, which was transmitted to him by the Rev. J. T. Bergen and William O. VanEyk of Holland, asking the president to lend his good offices for the same purpose and to prevent the sale of horses from this country to English officers. The president told Mr. Smith he would carefully consider the resolution.

IRVING LATIMER

Declares to Priest That He Did Not Kill His Mother.

JACKSON, Mich., Feb. 11.—"Whatever you may think of me I did not kill my mother." R. Irving Latimer has unsealed his lips at last. To a priest as he lay in his sick bed in the prison hospital, the matricide made the declaration quoted. It is the first time during the thirteen years that have elapsed since his crime was committed that the inscrutable prisoner has vouchsafed a statement as to whether he is guilty or innocent. Latimer is seriously ill of typhoid fever.

SPECIAL ELECTION

To Provide a New School for Dowagiac.

DOWAGIAC, Mich., Feb. 11.—A special meeting of the school board has been called for tomorrow to consider the question of a new school building. The necessity for additional room has long been felt, but there has been much discussion as to what sort of a building should be built. The board favors a new high school and also a ward school, the estimated cost of both of which is \$20,000. If this plan is adopted Dowagiac will have eight school buildings.

OBITUARY.

Mrs. Herring.

BENTON HARBOR, Mich., Feb. 11.—The death of Mrs. Herring, aged 40, wife of one of the leading physicians of this city, occurred here Saturday, Dr. and Mrs. Herring came here from Bremen, Ind., five years ago.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

PORTAGE.

PORTAGE, Mich., Feb. 11.—(Special.)—The K. O. T. M. deputy great commander, McDonald, of Grand Rapids, and the deputy great commander, Mrs. Colgrove, of the L. O. T. M.'s, will lecture at the K. O. T. M. hall Thursday night in the interest of the two orders. All interested are invited. Mrs. Beale Southwell returned Saturday from a month's visit with Chicago relatives. Percy Matteson goes this morning to Fennville, where he will tarry a week with relatives. Frank Snow of the U. of M. is home for a short visit. The Ladies' club will meet with Mrs. Edwin Cooley Thursday, Feb. 20th, at 12 o'clock. Subject, "Some of the Best Thoughts in the World Today." The Misses Ella M. and Ruby M. Carleton gave a reception last Friday evening complimentary to Mr. and Mrs. Will Smith and Mr. and Mrs. Roy Sutherland, who have recently cast their lots together. The guests numbered twenty-five, among whom were the Misses Beula Beala, Clara Smith and Fanny Carleton of Kalamazoo. The evening was pleasantly spent with games, interlarded with music. The guessing game was of general interest, which was a musical romance of the civil war. The company were provided with pencil and paper. Hostess Ella Carleton propounded the questions and Miss Ruby Carleton presided at the organ, playing popular airs from which the answers were to be guessed. Mrs. Roy Sutherland won first prize. Ray Gilbert the consolation prize. The company were then invited to the dining room, where a two course lunch was served. Table decorations were carnations and myrtle. The company then listened to an original poem read by Miss E. F. Carleton, which was fully appreciated by the young married couples.

LUMBAGO
Druggists Sell It. Send for Booklet. THIS ATHELPHOROS CO., NEW HAVEN, CONN.

When the muscles of the back are rheumatic it is called "Lumbago." These muscles are very important, and an attack of this form usually stops the patient from his or her usual work. Athlo-phoros is quite positive and certain. It expels the uric acid from the blood and removes the pain and stiffness. Lumbago is easily cured if you use Athlo-phoros.

DR. MORRIS, Ia. Gentlemen:—Athlo-phoros is the greatest remedy for rheumatism and Lumbago that ever was sold. After taking the first dose I was relieved, and one bottle cured me, and also cured one of my neighbors. I remain, as ever, your friend. ELIZABETH TAYLOR.

Stops Pain

Omega Oil

Pains are very much alike. As the old saying goes, "Six of one are half a dozen of the other." The principal difference between pains is the names given by doctors. The name doesn't amount to anything. If the pain is in the back the doctors call it one thing, and if it is in the leg they call it another, and yet if they should change those names the pain would hurt just as bad. Omega Oil stops pain. The trouble may be in the neck, shoulders, back, arms, elbows, wrists, hips, legs, knees, ankles or feet. No matter. Omega Oil puts out pain in all parts of the body just as water puts out fire in all parts of a house. It has been tried so often that there is no longer any doubt about it. Hundreds of thousands of bottles have been used and given satisfaction everywhere. Omega Oil stops pain, and don't forget it.

Omega Oil is good for everything a liniment ought to be good for.

No Name used without Written Consent. Cures Guaranteed.
Thousands of young and middle-aged men are annually swept to a premature grave through early abuse or later excesses. Chat Anderson was one of the victims, but was rescued in time. He says: "I learned an evil habit. A change soon came over me. I could feel it in my friends' notice. I became nervous, despondent, gloomy, had no ambition, easily tired, evil forebodings, poor circulation, pimples on face, back, neck, dreams and drains at night, tired and weak mornings, burning sensation. To make matters worse, I became reckless and contracted a blood disease. I tried many doctors and medical firms—all failed till Dr. Kennedy & Kergan took my case. In one week I felt better, and in a few weeks was entirely cured. They are the only reliable and honest Specialists in the country."

OVER OLD SCORES

Aldermen Argued Municipal Ownership.

"SAVING" LIGHTING PLANT

Called to Attention of Alderman Brenner.

City Laborers Will Have 9 Hour Day With 10 Hours Pay.

The meeting of the city council Monday evening was a scrappy affair. Several of the members had a few minor bouts in the first part of the meeting, but, as is always customary, the big event of the evening came last, when Alderman Verburg gave Alderman Brenner a chance to tell how he "saved the municipal lighting plant."

Alderman Verburg gave a brief history of the city plant, bringing forward figures to show that municipal lighting is much cheaper than buying the power. Alderman Levy wanted to know what bearing that had as he had heard of no proposition to do away with the present plant. Verburg responded that he understood that one member of the council had misrepresented it in a neighboring city and he wanted to set the matter right.

Mr. Verburg said that the total expenses for the lighting plant last year were \$14,833.54. The coal bill, he said, had been large, but would have been much smaller if the city had had proper equipment. He said that the expenses would have been nearly as large if the city had had a contract with some firm, besides the expense of buying the power. A statement of expenses during the months of November, December and January was produced, showing that it had cost the city 10 cents a lamp per night.

"I think these figures will show," said he, "that we have done a wise thing in retaining our own plant."

In order to show that Alderman Brenner did not "save the lighting plant," Alderman Verburg read the report of the special committee, which was appointed at the time of the big fight in 1899 and showed that Brenner had voted in favor of the report, which recommended a contract with the Kalamazoo Valley Electric company.

Alderman Brenner, in defending his position, said that city never had had a report showing the actual expense of the plant, and that the report always shows a much smaller expense than the real cost. He produced some annual reports to back up his statements. "I wish," said he, "that our aldermen would look up some of these reports and they would find a regular Chinese puzzle. The actual cost of the plant is over \$50,000, not figuring interest and depreciation."

Alderman Verburg responded that Alderman Brenner had had no faith in his constituents and would not allow the matter to go before the people when the fight was on. Brenner said that he would not put the expense on the people, because he knew that the matter could be knocked out anyway. There the matter ended for the evening.

Another Lighting Bid.
Samuel B. Tibbitts, in a communication, requested the council to estimate the cost of running the city lighting, as he thought he could furnish electricity much cheaper.

The Kalamazoo Wood and Coal company requested permission to be allowed to move a building a short distance in north Burdick street. Referred to the street and bridge committee.

Carl Harris petitioned that he be allowed to pay the tax with 6 per cent interest for the sidewalk in front of his premises in East avenue, and that the controversy which he has had for some time with the city over the matter be dropped. There has been a dispute over the affair for several years. It involves \$116.60. Allowed.

John Dempsey asked that the matter of pay for his sidewalk be adjusted. Granted.

E. J. Pennels of Woodward avenue asked that the council do something about the freezing of the water pipe running into his house. He claimed that the pipes never froze until the street was graded.

On report of the finance committee the petition of J. A. Bauerle concerning the rebating of taxes was denied.

Cured Of Piles.

Mrs. Hinkley, Indianapolis, writes: "The doctor said it must be an operation costing \$500 and little chance to survive. I chose Pyramid Pile Cure and one box made me sound and well." All druggists sell it. It never fails to cure any form of Piles, try it. Book on Piles, cause and cure, free by mail. Pyramid Drug Co., Marshall, Mich.

DOCTOR SAYS VERMIFORM

APPENDIX HAS A USE.

Dr. E. P. Hershey of Denver, Colo., chairman of the Colorado State Medical society, believes he has discovered a use for the much maligned vermiform appendix, probably the most discussed organ in the human make-up.

Dr. Hershey has just brought his theory to the attention of the medical profession and it has excited great interest in the surgical world. According to the doctor, the vermiform appendix is a secretary organ, the function of which is the lubrication of the beginning of the large intestine.

"During the course of an interesting interview with Dr. Hershey, he said: 'The generally accepted definition of the vermiform appendix is a 'functionless organ, a rudiment of a lengthened caecum,' using the word rudimentary instead of what should be used 'vestigial.' If rudimentary, it presumes the possibility of further development. If vestigial, the supposition is, that it was once a well-developed organ, but has become functionless. This latter is the most generally accepted view."

"It seems almost incredible that with our intimate acquaintance with this little member of our anatomy, we should pronounce it a functionless organ."

"The fact that the appendix is a uniform, perfectly constructed body, with a blood supply of its own, its mucous membrane containing more active secreting glands in proportion to its surface than any part of the intestinal tract, should lead up to investigate closely the part it plays in the process of intestinal elimination."

"That the appendix has a secretary function is without a doubt, as no case of appendicitis ever became grave unless complete obstruction of the canal has taken place, either as a result of catarrhal inflammation with subsequent stricture, a foreign object, or by hardening of its own secretion."

"Whether or not this secretary function is of great importance remains to be ferreted out by further investigation upon the patients who have had the appendix removed, or obliterated by suppurative."

"For several years I have had this subject under investigation and am convinced that the appendix is not a

vestigial organ, but one that has a most important function."

"There are two factors in the construction of the appendix that should lead to further evidence of its functional power."

"First, there is at the office of the appendix a valve so constructed in health as to prevent foreign invasion of the canal. Recent investigation leading to the demonstration of an actual sphincter just within the canal alone is enough to lead us not to treat too lightly the subject of the appendix being a functioning body."

"Indeed, I am firmly of the opinion that the time is not far distant when it will be generally recognized as a uniformly well developed secretary organ that plays an important part in the proper working of the human organism. In a healthy state it is a necessity, diseased it becomes a menace to life at all times."

"There is no organ in the abdomen more important than the appendix vermiformis. So much can be done to preserve its function, so much can be done to prevent attacks of appendicitis, but not until it has become deeply imbedded in the minds of all general practitioners that instead of an accidental vestigial organ we have a functioning body that should be as familiar to us as any of the abdominal viscera."

"The time is not far distant when the general practitioner will become well acquainted with this small neglected body. Then will it be that that boon to the universe, preventive measure will become an important factor."

"The first signal of distress occurring in or around the caecum will be a warning to the physician that a certain little functioning organ needs careful watching, the call upon it for excessive secretion may be markedly decreased, and if the appendix is impaired dietary measures may give it sufficient rest to restore it to its normal condition."

"And, too a more intimate knowledge of the appendix will give us a clearer knowledge of the changes that are taking place when the organ is diseased, so that the surgeon who, up to the present time, has become the most important personage in this disease, may be called in before it is too late to interfere."

IN INDIAN LORE

Ladies' Library Association Delved.

CHIEFS AS POLITICIANS

Other Phases of Reservation Life.

First of Indian Programs Under Mrs. Stearns Proved of Great Interest.

The first of a series of two Indian programs was presented before the Ladies' Library association by the president, Mrs. A. M. Stearns, Monday afternoon and it proved a very interesting day.

The vice president, Mrs. J. G. Rumney, presided and Mrs. Stearns read the first paper entitled "What the Women Are Doing for the Indian" in which she said in designing that the Indian subject is of so much thought and study at the present time that much matter, in the shape of legends, poems and other things, can be found upon it. She stated that her paper dealt with a more prosaic subject, however, she having chosen "The Woman's National Indian Association."

It has been 22 years since the first national movement for improving the condition of these aborigines, and the situation is peculiar as no other body has ever had so many savages. The demand for land crowded the Indians back almost to the Rockies and from the Pacific the other way, until hostility and revenge grew up. It is a sad and terrible story and the government went to work to set things right. A race of high spirit has been helpless and pushed to the wall, and though the government is endeavoring to see that they are compensated, the past cannot be undone.

The members of the woman's association were the means of causing an interest in legislature regarding the Indian question and from the first their plans met with success. Mrs. Stearns told of the petitions sent out by women and of the various laws made by the government to be just. Under Gen. Grant new methods were begun but experience showed the fallacy of these plans. Through allowing them certain rations they became degraded and relegated to the condition of paupers. Certain liberties had been given the tribes but individual freedom was yet wanting and would be until there was a fresh awakening of a sense of national duty.

Toward this consummation the association began and continued its worthy work. Through its influence the Indians were given much freedom and the law passed in their behalf in 1887 is considered by them the magna charta of their race.

Mrs. Stearns told of the Indian schools, the influence on legislation and the general revolution in public sentiment their work has caused. As fast as funds permit, libraries, hospitals and now a house of industries are being built for the race.

Passing of the Chief.

Mrs. E. A. Bayleat read an article on the "Passing of the Indian Chief" by R. D. Williams. She said that the days of the Indian chiefs in America are numbered and only a shadow of the past remains. The allotment of reservations has made them simple citizens of the United States and they have no power. A number of the former chiefs and their tribes were mentioned and their present condition spoken of. The chief of the Apaches is quite a politician now and as soon as the paint and war trappings are removed from the Indians, they seem to turn to politics and office seeking. It is quite a jump from scalp gathering to vote gathering but some Indians have achieved great distinction.

Miss Martha Cobb gave a delightful description of basket making in various tribes and spoke of the universality of the work among Indians. She told of the material used, its collection, preparation and the process of basket making. The numerous designs and their symbolism were spoken of very interestingly. The work of the different tribes with the style of each was shown and many examples were on exhibition. Some baskets are very valuable, one being sold for \$15 which was made by an old woman, who is considered the star basket maker. The older women do most of the weaving and unless something is done to preserve the art it is feared it will be obsolete.

Miss Bertha Shean sang "A May Morning" and in response "Sleep Little Baby of Mine." She was accompanied by Miss Della Sprague.

"The Legend of the Trailing Arbutus" was read by Mrs. Rose B. Nisbet and Mrs. F. P. Johnston read the "Blessing of the Corn Fields" from Longfellow's Hiawatha.

PURE FOOD SHOW

Will Be Held by Grocers' and Butchers' Association.

As announced some weeks ago in the Telegraph, the Kalamazoo Grocers' and Meat Dealers' association will hold a pure food show—a unique affair for smaller cities. At a meeting of the association on Monday evening, April 1, 2 and 3 were chosen as the dates.

H. G. COLMAN & CO.'S

NEW YEAR

RESOLUTIONS.

Resolved 1st. That owing to the fact that during the whole year of 1901 out of the large quantity of VINOL (Wine of Cod Liver Oil) sold in our store we were not obliged to return money for more than one-half dozen bottles, which is the strongest possible proof that in 98% of the cases VINOL was perfectly successful.

We shall continue our guarantee sale of VINOL and invite every one who is sick to call at our store for a bottle, and if it does not succeed in restoring the lost health after reasonable trial we will return every cent paid us for it.

Resolved 2nd. That we can well afford to continue selling VINOL on the guarantee system, for after long experience we find that in ninety-eight cases out of every hundred it fully supports our claims, and had we not proven that VINOL is the greatest reconstructive tonic and health restorer we could not afford to do this.

Resolved 3rd. That during the year 1902 we are going to see that every sick person in this place shall give VINOL a trial on our guarantee plan, even if we have to hunt them up at their homes, as we do not feel that it is right for us to let any one suffer without at least trying to help them, and as they have everything to gain and nothing to lose by our guarantee plan, we are sure even a larger number than we served during 1901 will flock to our store and "try VINOL on Our Guarantee."

We are able to make these resolutions for the benefit of the people in this city because Vinol is not a new thing with us, and we can name person after person right here in our own city who have been restored to health by this newest and best preparation of Cod Liver Oil, which contains all the curative principles found in that well-known remedy without one drop of oil or grease. Think of a Cod-Liver Oil preparation without any oil, and yet perfectly delicious, delicate and appetizing.

Vinol contains nothing but the curative principles of Cod Liver Oil, and a little organic iron, dissolved in a delicious table wine. You are at liberty to come to our store and taste it, examine it thoroughly, and let us tell you about the people in our own city, perhaps your own neighbors, who have been restored to health by it, then you will believe as we do about the great curative power of Vinol. We shall continue to recommend VINOL for the following ailments:

Debilitated—All Tired Out.

Why drag out an existence without life or ambition. It is not natural to feel continually tired. We guarantee VINOL will bring life, strength and vigor to the debilitated. If you do not feel well try VINOL. If it does not help you your money will be refunded.

Gain Flesh—Get Strong.

You can get fat without taking disagreeable Cod Liver Oil. Fat taken into the system does not create fat. We believe VINOL will create flesh quicker than any preparation containing grease. We have proved in many cases that VINOL quickly creates strength. Try it on our guarantee.

Old People—Weak People

need a strengthening and invigorating re-builder. VINOL is of exceptional value in such cases. We guarantee it to give strength and health to those who are weak and debilitated, from disease or old age. Try it on our guarantee.

Pale Women—Pale Children.

need a tonic-reconstructor that will create flesh and make pure red blood. Pale, haggard faces show that the blood is poor and thin, and also indicates imperfect digestion. VINOL will correct such troubles as sure as the sun shines. Children love VINOL, it is so delicious. Try it on our guarantee.

Nervousness—Irritability.

Diseased nerves are due to over-work, insufficient nourishment or slow breaking down of general health. We guarantee VINOL, Wine of Cod Liver Oil to permanently and effectually cure nerve affections; it actually rebuilds the entire body. Try it on our guarantee.

Chronic Colds—Hacking Cough.

Sure signs of danger ahead. One might as well commit suicide as to let them go unchecked. VINOL is the very medicine needed. Unlike other Cod Liver Oil preparations, it does not upset the stomach, and it is delicious to the taste. Try it on our guarantee.

Bronchitis—Sore Lungs.

often end fatally unless specially cared for in its early stages. There is no medicine more valuable for restoring health to the throat and lungs than VINOL, Wine of Cod Liver Oil. Try it on our guarantee.

Nursing Mothers—Weak Mothers.

If women with nursing babies who have difficulty in keeping up their health and strength would take VINOL, we know positively that the best results would be obtained. You know the life and future development of the child depends upon proper nourishment.

We Guarantee VINOL for Above Ailments.

You see our faith in VINOL, and you must admit that we know something about medicine; therefore when we tell you that VINOL is the most valuable preparation of Cod Liver Oil we have ever known, and a wonderful tonic-reconstructor, and re-builder of strength, appetite and health, at the same time delicious to taste, we are not unreasonable to expect you to believe us.

SENATOR NELSON HAS STARTED

Will Reach Kalamazoo Wednesday Morning.

President George P. Hopkins of the Lincoln Republican club has received a telegram conveying the news that Senator Knute Nelson of Minnesota left Washington at 8 o'clock this morning and will arrive in Kalamazoo Wednesday morning with a day's rest before him before speaking at the Lincoln club banquet in the evening. He will come over the Pennsylvania system, arriving here on the G. R. and I. All of the other speakers have sent word that they will surely be here.

President Hopkins wishes to impress upon members of the club and all others who attend that the doors to the dining room will be opened at 7 o'clock sharp and that the banquet will commence at that time. With such an early start the speaking will be finished early and out of town delegations will not have to miss the last speakers to catch trains and cars. Voting on the list of officers reported by the nominating committee and a general reception will be held on the second floor of the Auditorium, Portage street from 8 to 1 o'clock.

IT IS A POSITIVE FACT

that a large percentage of men and women of this country are troubled with Dyspepsia, the early symptoms of which are many, varied and subtle, and on the appearance of any such symptoms should immediately be treated and treated judiciously. Are you suffering from Heartburn, Dull Headache, Feeling of Distension at Pit of the Stomach, Bad Breath, Bad Taste, Disturbance to Parishes of Your Meals, a Ravenous Appetite Yet Unable to Eat, Furred Tongue, Salty Complexion, Flatulency, Acidity or Constipation, Nervousness and Irritability of Temperament? If so, the use of **C. E. CARTER'S DYSPEPSIA TABLETS** will give immediate relief and a positive cure. They are manufactured from pure drugs carefully and scientifically compounded and absolutely harmless to the most sensitive and delicate stomach and even a child can use them without any harm but the best remedy and daily use will restore tone to the faded nerves of the stomach and will infuse fresh life into the impoverished gastric juice and will relieve you of all that is planned for them and will give you a clear, wholesome property acting stomach instead of a poor, feeble, diseased organ. A trial will convince the most skeptical. Price, 50 cents and \$1.00. The retail price contains two and one-half times the quantity of the stock. **C. E. CARTER & CO., 71 W. ABBOTT VOTING MACHINE

Saves Time and Money and Insures Accuracy.

An Abbott voting machine is now on exhibition in city hall and several prominent citizens have already watched its operation. It is an ingenious machine, mechanically perfect and infallibly accurate.

These machines were used in the spring election of 1898 in this city, and the result obtained within twenty minutes after the polls closed. The Telegraph had an extra on the street with in half an hour after the polls closed giving complete returns.

An examination has been made of the official returns in the last spring election in this city, and it has been ascertained that from 113 to 421 votes on the several officers voted for were lost through the inability of the voters to mark the ballot properly. This is wholly avoided and would be impossible with the Abbott machine.

Wherever now used, as in Jackson, Ann Arbor, Adrian and other places, the machines have given complete satisfaction.

The use of these machines saves in the neighborhood of \$500 at each election. Two elections this year would save the city \$1,000.

This is a matter the council should look into carefully, as a business proposition.

TO CONTINUE.

For the benefit of people who have had bargains and want more and those who could not attend we have decided to continue the great sale of dry goods four days longer.
